## Near East And The Great Powers:

The Great Powers and the Near East, 1774-1923 Matthew Smith Anderson, 1970      **The Making of the Modern Near East 1792-1923** Malcolm Yapp, 2014-01-09 This clear and authoritative text surveys the history of the region from the collapse of the Ottoman Empire to the present day It contains a general regional introduction followed by a series of country by country analyses and a section which places the Near East in the international context Professor Yapp's new edition covers recent dramatic events including the end of the Cold War the Kuwait Crisis of 1990-91 and the continuing conflict in Israel as well as assessing the huge social and economic changes in the region It will be essential reading for students and scholars concerned with modern middle eastern history and politics of the middle east      Foreign Relations of the United States United States. Department of State, 1946      *Air University Quarterly Review*, 1950      **Regional Great Powers in International Politics** Iver B. Neumann, 1992-06-18 Illuminates the interplay between regional concerns and the international context which together define the hierarchy of states Building on case studies this book demonstrates that this status cannot be attained solely by building a military or economic power base      **Unexceptional** Marc J. O'Reilly, 2008-04-07 Unexceptional America's Empire in the Persian Gulf 1941-2007 examines U.S. policy vis-à-vis the Persian Gulf since the Second World War It asserts that the American experience in this strategic yet volatile region known for its plentiful oil and gas can be best understood as an unexceptional imperial endeavor similar in kind to that of the British Ottoman and other empires in previous centuries Since 1941 the U.S. empire in the Gulf has achieved successes such as Operation Desert Storm and the invasion of Iraq Setbacks have included the Iranian Revolution and the ongoing occupation of Iraq Given these and many other events which this book spotlights America's Gulf empire has undergone repeated expansion and contraction a typical imperial pattern The result has been a cycle of waxing and waning U.S. influence in a critical region of the world Until its occupation of Iraq the United States practiced informal empire in the Gulf rather than colonialism Currently however the formal empire established by the United States in Iraq jeopardizes the overall American position in the Gulf which seemed unassailable in early 2003      Department of State Bulletin, 1957 The official monthly record of United States foreign policy      *A History of the Ancient Near East, ca. 3000-323 BC* Marc Van De Mieroop, 2015-06-03 Incorporating the latest scholarly research the third edition of *A History of the Ancient Near East ca. 3000-323 BC* presents a comprehensive overview of the multicultural civilizations of the ancient Near East Integrates the most up-to-date research and includes a richer selection of supplementary materials Addresses the wide variety of political social and cultural developments in the ancient Near East Updated features include new Key Debate boxes at the end of each chapter to engage students with various perspectives on a range of critical issues a comprehensive timeline of events and 46 new illustrations including 12 color photos Features a new chapter addressing governance and continuity in the region during the Persian Empire Offers in-depth accessible discussions of key texts and sources including the Bible and the Epic of

Gilgamesh      **Europe Since 1918** Herbert Adams Gibbons, 2019-11-21 Herbert Adams Gibbons Europe Since 1918 provides a comprehensive examination of the tumultuous changes in Europe following the end of World War I Utilizing a narrative style that blends historical analysis with vivid accounts Gibbons offers readers a detailed exploration of political social and economic transformations across the continent The work is contextualized within the broader historical landscape addressing the rise of totalitarian regimes the complexities of post war treaties and the shifting alliances that would shape Europe through the 20th century His meticulous scholarship illuminates the interplay of national identities and collective trauma making the work both informative and engaging Gibbons an esteemed historian and journalist possessed a unique vantage point shaped by firsthand experiences including his travels across Europe in the aftermath of the war His keen awareness of the socio political climate and the intellectual currents of his time informed his analysis allowing him to tackle the intricate narratives surrounding events such as the Treaty of Versailles and the emergence of fascism His commitment to understanding history through a multifaceted lens makes this work especially significant I highly recommend Europe Since 1918 to readers seeking an insightful and thorough understanding of modern European history Gibbons eloquent prose and critical insights provide a valuable perspective on the dynamics that continue to resonate in contemporary European society This book is essential for anyone interested in grasping the complexities of Europe s past and its ongoing implications

The Far East ... American Academy of Political and Social Science, 1925      **Foreign Relations of the United States, 1949: The Near East, South Asia, Africa** , 1976      **Current History** , 1920      **The Chinese Students' Monthly** , 1926

Calendar London School of Economics and Political Science, 1923      **Babylon** Charles River Editors, 2025-05-02 The ancient world was full of many fantastic cities and places and like today s major cities the great ancient cities were hubs of trade religion and science Writing was first invented in ancient cities and many important scientific discoveries were also made in them some of which are still used in the modern world Among the many cities of the ancient world Rome and Athens may come to mind first but the city of Babylon in the land of Mesopotamia was already an ancient venerated city when the others were still inconsequential settlements Today Babylon has become a byword for greed excess and licentiousness mostly due to its mention in the Bible but a closer examination reveals that Babylon was so much more and even perhaps the most important city in the ancient world Ancient Babylon was home to great dynasties that produced some of the world s most influential leaders most notably Hammurabi and Nebuchadnezzar and these rulers invoked their wills on the entire ancient Near East and have been remembered as both progressive and cruel all at the same time Babylon was also the seat of culture in ancient Mesopotamia and the place where scholars made amazing scientific advances that would not be eclipsed for several centuries An examination of ancient Babylon demonstrates that it was truly the first great city in the ancient world Of course the sheer span of history between Babylon s power and today has produced plenty of historical questions and controversy One of the things people most closely associate Babylon with is the Hanging Gardens which like the Great

Pyramid of Giza were considered both a technological marvel and an aesthetic masterpiece Ancient historians believed that the Hanging Gardens were constructed around the 7th century B C after the second rise of Babylon which would make them the second oldest of the Seven Wonders of the Ancient World and they were reputedly created by the biblical Nebuchadnezzar II the king who conquered Judea to please his homesick wife after the model of Egyptian pleasure gardens However in 1993 British Assyriologist Stephanie Dalley proposed a theory that the Hanging Gardens were ordered built by the Assyrian King Sennacherib a century earlier for his giant palace at Nineveh instead She believed that the two sites were easily confused by ancient sources resulting in the Gardens being incorrectly located in Babylon a century later Babylon was also instrumental in the development of the region's religions Ancient Mesopotamian religion continues to captivate people for many of the same reasons today's best known religions and their histories fascinate people The religion practiced by the Ancient Mesopotamians provides a certain mix between the mundane and the surreal and at the same time aspects of it are both familiar and bizarre to people today Some find themselves drawn to it based on its preeminent position in religious history as the oldest documented religion in the world Others become fascinated with the close connections between some of the Mesopotamian religious texts which include a flood story a creation story and a story of the righteous sufferer and their parallels in the Hebrew Bible Today the Ancient Mesopotamians and their religion are a source of curiosity but thousands of years ago the religion was an integral part of their lives From their birth to their death deities surrounded them and whether their social interactions were on the level of a smaller city or that of a larger nation state deities played key roles in the social fabric of their society In fact the people and religion were so intertwined that a study of Ancient Mesopotamian religion is a study of Ancient Mesopotamian culture

Ataturk Alexander Lyon Macfie, 2014-01-14 This concise account of the life and career of Mustafa Kemal Atatürk 1881-1938 the formidable founder of modern Turkey offers a substantial revaluation of a key figure in modern history and also an introduction to the Turkish republic itself It is a timely study with Turkey again at the centre of international attention as Islamic fundamentalists challenge many of Atatürk's westernising and secularizing reforms and as the regional aftershocks of the Soviet collapse reopen profound questions about Turkey's nature role and relationships Atatürk had sought to settle for good

*Western Civilization in the Near East* Hans Kohn, 2022-11-30 First published in 1936 *Western Civilization in the Near East* traces the spread and growth of Western civilization in the countries of the Levant and their immediate hinterland The author argues that modern civilization took birth in Western Europe and then slowly spread to the rest of Europe and to all other parts of the earth leading to the Europeanization of mankind While Europe's modern civilization initially enabled it to dominate the world economically and political it also provided non-European people with the resources to ultimately resist and reject Europe's control This universal acculturation and the ensuing birth of a coherent and closely knit humanity facing similar social economic and cultural problems determined the new trends of world history This book only focuses on the European contact with the Muslim East and the consequences of

the contact The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this republication This book will be of interest to students of history political science international relations and geography

Karduniaš. Babylonia under the Kassites 1 Alexa Bartelmus, Katja Sternitzke, 2017-06-26 Kardunia as the kingdom of the Kassites in Babylonia was called in ancient times was the neighbor and rival of great powers such as Egypt the Hittites and Assyria But while our knowledge of the latter kingdoms has made huge progress in the last decades the Kassites have until recently been largely ignored by modern scholarship Recently a number of scholars have embarked on research into different aspects of Late Bronze Age Babylonia The desire to share the results of these new investigations resulted in an international conference which was held at Munich University in July 2011 The presentations given at this meeting have been revised for publication in the current volume This book gives an overview of current research on the Kassites and is the first larger survey of their culture ever An invaluable introduction by Kassite expert Professor John A Brinkman is followed by seventeen specialist contributions investigating different aspects of the Kassites These include detailed historical social cultural archaeological and art historical studies concerning the Kassites from their first arrival in Mesopotamia during the period when a Kassite Dynasty ruled Babylonia c 1595 1155 BC and in the subsequent aftermath Concentrating on southern Mesopotamia the contributions also discuss Kassite relations and presence in neighboring regions The book is completed by a substantial bibliography and a detailed index

**The Rivalry Between Russia and Great Britain in Eastern Rumelia 1878-1885 (Yeditepe Yayinevi)** Nadezhda Vasileva Vasileva, 2020-12-01 The rivalry between Russia and Britain over the autonomous Province of Eastern Rumelia is a historical fact This study examines tis fact via two historical events concerning the development of the Province the process of establishment and administrative organization of Eastern Rumelia 1878 1879 and the event of unification between the Province and the Principality of Bulgaria It argues that the British authorities created the Province of Eastern Rumelia and later they defended the act of unification with the purpose to thwart the Russian political advancement in the Balkans The British political aim was successfully accomplished as Russia achieved to preserve its political domination in the Province only until 1885 when it opposed the act of unification This research is based on archival documentary sources and secondary sources The archive collections used for preparation of this work are the collections of the Foreign Office of the National Archive The existing historiography on the issue of Eastern Rumelia is very limited as regards the variety of examined topics though a considerable number of researches are dedicated to the act of unification and the political cultural and economic development of the Province from 1878 to 1885 *The Eastern Question and Its Solution* Morris Jastrow (Jr.), 1920

### **Near East And The Great Powers Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Near East And The Great Powers has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Near East And The Great Powers has opened up a world of possibilities. Downloading Near East And The Great Powers provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Near East And The Great Powers has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Near East And The Great Powers. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Near East And The Great Powers. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Near East And The Great Powers, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable

antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Near East And The Great Powers has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
