Foreign Direct Investment in the United States, 1991 **Foreign Direct Investment in the United States** United States. Congress. Joint Economic Committee, 1993 **Multinational Enterprise and Economic Analysis** Richard E. Caves, 2007-07-23 The third edition of *Multinational Enterprise and Economic Analysis* surveys the contributions that economic analysis has made to our understanding of why multinational enterprises exist and what consequences they have for the workings of the national and international economies It shows how economic analysis can explain multinationals activity patterns and how economics can shed conceptual light on problems of business policies and managerial decisions arising in practice It addresses the welfare problems arising from multinationals activities and the logic of governments preferences and choices in their dealings with multinationals Suitable for researchers graduates and upper level undergraduates The third edition of this highly accessible book incorporates the many additions to our knowledge of multinationals accumulated in research appearing in the past decade *Rivals beyond Trade* Dennis J. Encarnation, 2018-07-05 No detailed description available for *Rivals beyond Trade* United States-Japan Trade, Commercial, and Economic Relations United States. Congress. House. Committee on Ways and Means. Subcommittee on Trade, 1993 Multinational Firms and Impacts on Employment, Trade and Technology Robert E. Lipsey, Jean-Louis Mucchielli, 2001-12-13 This collection of essays shows the high degree of complementarity between foreign direct investment and home export challenging the long held fear that firms investing abroad leads to a loss of employment and decline in the home country *Economics in Theory and Practice: An Eclectic Approach* L.R. Klein, Jaime Marquez, 2012-12-06 Lawrence Klein University of Pennsylvania Jaime Marquez Federal Reserve Board All examination of the economics literature over the last twenty years reveals a marked tendency towards polarisation On the one hand there has been a propensity to develop theoretical models which have little connection with either empirical verification or problems requiring immediate attention On the other hand empirical analyses are generally typified by testing for its own sake with limited examination of the implications of the results As a result the number of papers confronting theory with facts towards the solution of economic problems has been on the decline for years To fill this growing gap in the literature we have invited a number of authors to write papers using both theoretical and empirical techniques to address current issues of interest to the profession at large the US trade deficit and the global implications of policies that attempt to reduce it the international ramifications of the debt crisis the international oil market and its implications for the US oil industry and the development of new econometric techniques In addressing these issues each author has approached the subject matter from an eclectic standpoint that is avoiding strict adherence to a given doctrine Proceedings of the 1991 Academy of Marketing Science (AMS) Annual Conference Robert L. King, 2015-04-27 This volume includes the full proceedings from the 1991 Academy of Marketing Science AMS Annual Conference held in Fort Lauderdale Florida The research and presentations offered in this volume cover

many aspects of marketing science including marketing strategy consumer behavior international marketing services marketing marketing education among others Founded in 1971 the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory research and practice Among its services to members and the community at large the Academy offers conferences congresses and symposia that attract delegates from around the world Presentations from these events are published in this Proceedings series which offers a comprehensive archive of volumes reflecting the evolution of the field Volumes deliver cutting edge research and insights complimenting the Academy s flagship journals the Journal of the Academy of Marketing Science JAMS and AMS Review Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science

Multinationals and the National Interest United States. Congress. Office of Technology Assessment,1993

Knowledge Regulation and National Security in Postwar America Mario Daniels,John Krige,2022-04-25 The first historical study of export control regulations as a tool for the sharing and withholding of knowledge In this groundbreaking book Mario Daniels and John Krige set out to show the enormous political relevance that export control regulations have had for American debates about national security foreign policy and trade policy since 1945 Indeed they argue that from the 1940s to today the issue of how to control the transnational movement of information has been central to the thinking and actions of the guardians of the American national security state The expansion of control over knowledge and know how is apparent from the increasingly systematic inclusion of universities and research institutions into a system that in the 1950s and 1960s mainly targeted business activities As this book vividly reveals classification was not the only and not even the most important regulatory instrument that came into being in the postwar era

Two Worlds of International Relations

Pamela Beshoff,Christopher Hill,2005-08-02 The aims of this book are to discover how significant academic work in international relations has become for practitioners involved in policy formulation and implementation and to examine the impact of the policy community on academic work and academic values On the academic side theoretical historical and political economy perspectives are presented On the practitioner side there are contributions from diplomats lawyers and parliamentarians The principal question at issue is whether if there is a natural partnership between the modern academic and foreign policy makers there needs to be preserved a respectful distance between the two worlds

Japanese Firms in Europe Frédérique Sachwald,2014-03-18 In this study the contributors examine the evolution of Japanese direct investment in Europe and explore its determinants They illustrate how as multinationals Japanese firms adapt to local conditions and try to take advantage of a global organisation In this respect three areas in particular are explored human resource management relationships with suppliers and R D unit locations

Internationalization of the Economy and Environmental Policy Options Paul J.J. Welfens,2013-03-14 Internationalization of the economy accelerated at the turn of the century Growing national regional and global environmental problems associated with globalization present new challenges for policy makers and

international cooperation Crucial problems concern air pollution environmental problems from trade and transportation and global warming This book based on theoretical and empirical analysis comes up with new and innovative policy options including proposals related to the Kyoto protocol

Europe and the Japanese Challenge Mark Mason,1997 A study of the history of Japanese involvement and investment in Europe from the early part of this century to the present day The main focus of the analysis centres on the auto industry consumer electronics and banking whilst the different reactions to Japanese investment in Europe and the United States is also considered

Global Corporations and National Governments Edward Graham,1996-06-01 There is inherent tension between the increasingly global focus of foreign investors and the continuing national focus of governments Countries particularly developing ones compete to attract investment from global corporations and they attach performance requirements to tilt the impact of those investments in their favor This is because the host nations expect investment to raise growth levels efficiency and living standards At the same time the home countries of such corporations worry that their firms are not accorded fair and reciprocal treatment abroad These issues have become a source of conflict among nations one that could escalate considerably if an agreement is not soon reached Graham s study analyzes the nature and depth of the international investment problem and its potential impact on the world economy and on economic relations among nations He urges that current rules on foreign direct investment be enlarged and restructured via new international rules and institutional arrangements and offers two alternatives for doing so

Entrepreneurial Governance in the Neoliberal Era Oliver Cowart,2021-09-30 Against the background of a growing tendency among state and local governments in the United States to vie against one another spending public funds and foregoing corporate tax revenues in order to attract private investment this book offers an analysis of local economic development and business recruitment in the automotive industry Asking why localities felt they could and more importantly should make deals with private capital in the first place this book examines the shift toward entrepreneurial local governance from a global and historically informed perspective Through a study of the 19 greenfield automotive assembly plants constructed in the United States during the neoliberal era the author draws on interviews with corporate and government elites to chart the connections between increasingly global competitive industry pressures and changing attitudes toward incentivizing private investment Studying the development of an approach that has partially reoriented local governments away from managing localities and towards helping manage transnational capital flows by absorbing some of the increasing risk of long term capital investment Entrepreneurial Governance in the Neoliberal Era will appeal to scholars of sociology politics and urban studies with interests in globalization the sociology of work and industry the sociology of development and neoliberal governance

Technology Infrastructure and Competitive Position Gregory Tasse,2012-12-06 Global interest in technology based growth politics is growing as technology becomes an increasingly important factor in economic competitiveness In spite of increased efforts in many nations to develop more effective industry strategies most of these

endeavors have been ad hoc exercises rather than derived from a consistent framework Technology Infrastructure and Competitive Position provides that missing framework It begins by providing an overview of technology based competition and the relevant issues A conceptual model is developed that emphasizes the roles and impacts of the supporting infrastructure Finally the book addresses the interaction of corporate and governmental roles for providing technology infrastructure some funding issues and mechanisms for cooperative planning and implementation **International Review of Economics & Finance** ,1992 Understanding Globalization Robert K. Schaeffer,2009-01-16 This book examines the globalization of production and its impact on work and gender relations the impact of technology on workers around the world the economic problems associated with debt crisis the political opportunities associated with democratization the impact of global warming the reasons behind China s rise as an economic superpower and the problems in countries across the Middle East that culminated in the attacks of 9 11 **Revenue Raising Provisions in the Administration's Fiscal Year 1998 Budget Proposal** United States. Congress. House. Committee on Ways and Means,1998
