Old Gods and Young Heroes Michael D. Coe, 1982-01-01 Old gods and young heroes : the Pearlman collection of Maya ceramics : [exhibited at] the Israel museum, the Maremont pavilion of ethnic arts, Jerusalem, Spring 1982 , 1982 *The Memory of Bones* Stephen D. Houston, Stuart David, Karl Taube, 2013-05-01 An analysis of the intellectual and emotional life of ancient Mesoamerican people through studies of figural works and inscriptions All of human experience flows from bodies that feel express emotion and think about what such experiences mean But is it possible for us embodied as we are in a particular time and place to know how people of long ago thought about the body and its experiences In this groundbreaking book three leading experts on the Classic Maya ca AD 250 to 850 marshal a vast array of evidence from Maya iconography and hieroglyphic writing as well as archaeological findings to argue that the Classic Maya developed an approach to the human body that we can recover and understand today Starting with a cartography of the Maya body as depicted in imagery and texts the authors explore how the body was replicated in portraiture how it experienced the world through ingestion the senses and the emotions how the body experienced war and sacrifice and the pain and sexuality how words often heaven sent could be embodied and how bodies could be blurred through spirit possession From these investigations the authors convincingly demonstrate that the Maya conceptualized the body in varying roles as a metaphor of time as a gendered sexualized being in distinct stages of life as an instrument of honor and dishonor as a vehicle for communication and consumption as an exemplification of beauty and ugliness and as a dancer and song maker Their findings open a new avenue for empathetically understanding the ancient Maya as living human beings who experienced the world as we do through the body

Houston, 2018-05-15 This book provides theory comparison and synthesis to establish a carefully considered framework for approaching the study of courts and their functions throughout the world of the ancient Maya It is based on the annual meeting of the American Anthropological Association The War for the Heart and Soul of a Highland Maya Town Robert S. Carlsen, 2011-05-16 This compelling ethnography explores the issue of cultural continuity and change as it has unfolded in the representative Guatemala Mayan town Santiago Atitl n Drawing on multiple sources Robert S

Carlsen argues that local Mayan culture survived the Spanish Conquest remarkably intact and continued to play a defining role for much of the following five centuries. He also shows how the twentieth century consolidation of the Guatemalan state steadily eroded the capacity of the local Mayas to adapt to change and ultimately caused some factions to reject even demonize their own history and culture. At the same time he explains how after a decade of military occupation known as *la violencia* Santiago Atitlán stood up in unity to the Guatemalan Army in 1990 and forced it to leave town. This new edition looks at how Santiago Atitlán has fared since the expulsion of the army. Carlsen explains that initially there was hope that the renewed unity that had served the town so well would continue. He argues that such hopes have been undermined by multiple sources often with bizarre outcomes. Among the factors he examines are the impact of transnational crime particularly gangs with ties to Los Angeles, the rise of vigilantism and its relation to renewed religious factionalism, the related brutal murders of followers of the traditional Mayan religion and the apocalyptic fervor underlying these events.

The Bioarchaeology of Space and Place Gabriel D. Wrobel, 2014-04-16. The Bioarchaeology of Space and Place investigates variations in social identity among the ancient Maya by focusing on individuals and small groups identified archaeologically by their inclusion in specific discrete mortuary contexts or by unusual mortuary treatments. Utilizing archaeological, biological, and taphonomic data from these contexts, the studies employ a variety of methodological approaches to reconstruct aspects of individuals' life course and mortuary pathways. Following this specific mortuary behaviors are discussed in relation to their local or regional cultural setting using relevant archaeological, ethnohistoric, and or ethnographic data in an effort to interpret their meaning within the broader social, political, and economic contexts in which they were carried out. This volume covers a number of topics that are currently being debated in Maya archaeology including identification and discussion of the role and extent of human sacrifice in Maya culture, the use of ancestors for maintaining political power, the mortuary use of caves by both elites and non elites, ethnic distinctions within urban areas, and the extent of movement of people between communities. Importantly, the papers in this volume attempt to test and move beyond static dichotic categories that are often employed in mortuary studies in an effort to better understand the complex ways in which the Maya conceptualized and manipulated social identity. This type of nuanced case study approach that incorporates historical, archaeological, and theoretical contextualization is becoming increasingly important in the field of bioarchaeology, providing valuable sources of data where small, diverse samples impede populational approaches.

The Major Gods of Ancient Yucatan Karl A. Taube, 1992. **The Myth of Quetzalcoatl** Enrique Florescano, 2002-11-29. Quetzalcoatl extends throughout Mesoamerica **Images from the Underworld** Andrea J.
