Pathologies Of The Modern Self Psychoanalytic Crosscurrents:

National Library of Medicine Current Catalog National Library of Medicine (U.S.), **Self and Other** Robert Rogers,1991-10-01 In *Self and Other* Robert Rogers presents a powerful argument for the adoption of a theory of object relations combining the best features of traditional psychoanalytic theory with contemporary views on attachment behavior and intersubjectivity Rogers discusses theory in relation both to actual psychoanalytic case histories and imagined selves found in literature and provides a critical rereading of the case histories of Freud Winnicott Lichtenstein Sechehaye and Bettelheim At once scientific and humanistic *Self and Other* engagingly draws from theoretical clinical and literary traditions It will appeal to psychoanalysts as well as to literary scholars interested in the application of psychoanalysis to literature

Subject and Agency in Psychoanalysis Frances Moran,1993-05 Psychoanalysis works with words words spoken by a subject who asks that the analyst listen This is the belief that underlies Francis Moran s rewarding exploration of a central problem in psychoanalytic theory namely the separation of the concepts of subject and agency *Subject and Agency in Psychoanalysis* contends that Freud simultaneously employs two frameworks for explaining agency one clinical and one theoretical As a result Freud s exploration of agency proceeds from two logically incompatible assumptions The division between these assumptions is a part of Freud s psychoanalytic legacy Moran reads the Freudian inheritance in light of this division showing how Klein and Hartmann s theoretical concepts of subject are adrift from the subject who speaks in analysis Moran also shows that while Lacan s subject provides more focus on this issue Lacan reverts to the Freudian division in his use of logically contradictory assumptions concerning the location of agency Drawing on contemporary theory development from Lacanian innovations to the social theories of Anthony Giddens Moran proposes a new and fertile approach to a fundamental problem significantly narrowing the gap between psychoanalytic theory and practice Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 **Pathologies of the Modern**

Self David Michael Kleinberg-Levin,1987-01-01 **The Truth About Freud's Technique** Michael Guy Thompson,1995-07-01 In this unusual and much needed reappraisal of Freud s clinical technique M Guy Thompson challenges the conventional notion that psychoanalysis promotes relief from suffering and replaces it with a more radical assertion that psychoanalysis seeks to mend our relationship with the real that has been fractured by our avoidance of the same Thompson suggests that while avoiding reality may help to relieve our experience of suffering this short term solution inevitably leads to a split in our existence M Guy Thompson forcefully disagrees with the recent trend that dismisses Freud as an historical figure who is out of step with the times He argues instead for a return to the forgotten Freud a man inherently philosophical and rooted in a Greek preoccupation with the nature of truth ethics the purpose of life and our relationship with reality Thompson s argument is situated in a stunning re reading of Freud s technical papers including a new evaluation of his analyses of Dora and the Rat Man in the context of Heidegger s understanding of truth In this

remarkable examination of Freud's technical recommendations M Guy Thompson explains how psychoanalysis was originally designed to reacquaint us with realities we had abandoned by encountering them in the context of the analytic experience This provocative examination of Freud's conception of psychoanalysis reveals a more personal Freud than we had previously supposed one that is more humanistic and real Psychoanalysis and Development Massimo Ammaniti, Daniel N.

Stern, 1994-10 Examines the growth of representation and narratives in the history and practice of psychoanalysis Explores the close and necessary relationship between Freud's theories of representation the building of an internal mental world allowing us to give meaning to our experiences and narration the idea that personal experience might assume the character of a narrative and illustrates how they have developed the language of therapy and affected the practice of both psychoanalysis and developmental psychology Annotation copyright by Book News Inc Portland OR *The Idea of the Past*

Leonard J. Lamm, 1997-08 The advancement of psychoanalysis in America has reached an impasse Scientists are pitted against hermeneuticists theorists against practitioners and narrative truth against historical truth reflecting and refracting the role of the past in theory and therapy through a host of competing approaches Leonard Lamm argues against the impossible task of unifying psychoanalysis into a homogenous discourse proposing instead the acceptance of a pluralist model in which different modes of discourse are applicable and appropriate in different circumstances This innovative work sets out to unravel the opaque idea of the psychoanalytic past as expressed in countless theoretical voices from object relations to Lacanianism to ego psychology Dr Lamm redraws the map of American psychoanalytic argument and takes a fresh look at current debates on narrative truth metapsychology and the role of the past in psychoanalysis A thoughtful model emerges in which historical scientific and practical discourses and constructions of the past do not compose a hierarchy in psychoanalytic understanding Instead they are voices in a conversation in which they may differ without disagreeing Jacques Lacan's Return to Freud Philippe Julien, 1995-07 From 1953 to 1980 Jacques Lacan sought to accomplish a return to Freud beyond post Freudianism He defined this return as a new covenant with the meaning of the Freudian discovery Each year through his teaching he brought about this return What was at stake in this renewal

Vanquishing the Void Marie Ann Griffiths, 1999 Language and the Distortion of Meaning Patrick

Degramont, 1992-04-01 Patrick de Gramont draws upon evidence from infant observation and linguistics as well as from information theory in order to make two related points First he demonstrates how our prevailing theories of meaning have failed to account for how we distort meaning Changing Mindsets Maria Carmen Gear, Ernesto Liendo, Lila Lee

Scott, 1993-08 We have become overfocused on what people think rather than how they think it to the detriment of the therapeutic process These authors are to be highly commended for their original contributions to this issue They have something useful to say to practicing psychoanalysts but most of those who will find this book useful are quite experienced workers who are questioning their own techniques and trying to expand their therapeutic skills Psychoanalytic Books An

important and critical reflection on the life and message of T D Jakes arguably the most famous African American preacher in the United States PNEUMA This volume illustrates how psychoanalysts can help their patients overcome compulsive self destructive behavior by breaking through these constrictions to the enriching material present in the unconscious Changing Mindsets is essential for therapists from all backgrounds as they attempt to help their patients overcome damaging and rigid mindsets *Postmodernism: A Bibliography, 1926-1994* Deborah L. Madsen, 2023-11-20 This is the first bibliography of Postmodernism to take account of work published in all subject areas and in all languages Deborah Madsen has identified a new first occurrence of the term in 1926 preceding by more than twenty years the first occurrence documented by the Oxford English Dictionary In a chronological listing books articles notes letters and working papers on Postmodernism are described with full bibliographical details Reviews of major books are documented and full contents listings are given for special issues of journals devoted to Postmodernism An appendix includes books on Postmodernism announced for publication in 1995 This bibliography brings together in one place all secondary material published on Postmodernism All disciplines are included from anthropology to zoology architecture cultural studies dance drama feminism fiction geography history legal studies literary theory mathematics medicine music pedagogical theory philosophy photography and film poetry politics religion sociology the visual and plastic arts and others The bibliography also documents items in a range of languages other than English Chinese French German Italian Japanese Russian Slovenian Spanish and the Scandinavian languages Access to the information contained in the bibliography is made easy with a comprehensive index providing guidance according to author subject language and key words *Postmodernism A Bibliography 1926 1994* is an essential reference text for anyone working in the area of contemporary culture studies *Current Catalog* ,1989 First multi year cumulation covers six years 1965 70

Turning Points in Dynamic Psychotherapy Salman Akhtar, 2018-05-08 This book addresses five areas of difficulty in psychotherapy initial assessment boundaries money disruptions and suicidal crises It outlines the conceptual issues and the technical details of each of the concept in detail *Integrated Treatment for Co-Occurring Disorders* Sharon C. Ekleberry, 2011-04-27 *Integrated Treatment for Co Occurring Disorders* addresses a complex client population which presents service providers with significant professional challenges Underlying personality disorders compromise treatment effectiveness for medical other psychiatric or trauma services as well as the ability these individuals have in adhering to probation parole or court ordered treatment requirements A co occurring substance use disorder amplifies the difficulties experienced by personality disordered individuals exacerbates the precarious nature of their relationships and raises the skill level needed by service providers attempting to help them There can be significant professional satisfaction in working effectively with the interplay of addiction and disorders of personality The book brings focus to the specifics of assessment and treatment for this type of co occurring disorder and suggests that greater adaptability fewer self sabotaging behaviors and an abstinent lifestyle are all possible Recovery from both disorders is the journey these individuals take toward greater

maturation reliable impulse control and coping skills that are not dependent upon the evasion of the demands of living or use of substances to manage stress or uncomfortable affect Recovery is possible and service providers can assist these clients on their path to wellness

Romantic Science and the Experience of Self Martin Halliwell, 2019-07-23 First published in 1999 this volume follows the work of five influential figures in twentieth century transatlantic intellectual history The work forms the basis for this engaging interdisciplinary study of romantic science In this book Martin Halliwell constructs a tradition of romantic science by indicating points of theoretical intersection in the thought of William James American philosopher Otto Rank Austrian psychoanalyst Erik Erikson Danish German psychologist and Oliver Sacks British neurologist Beginning with the ferment of intellectual activity in late eighteenth century German Romanticism Halliwell argues that only with William James theory of pragmatism early in the twentieth century did romantic science become a viable counter tradition to strictly empirical science Stimulated by recent debates over rival models of consciousness and renewed interest in theories of the self Halliwell reveals that in their challenge to Freud s adoption of ideas from nineteenth century natural science these thinkers have enlarged the possibilities of romantic science for bridging the perceived gulf between the arts and sciences

Self and Others N. Gregory Hamilton, M.D., 1999-11-01 *Self and Others* is addressed to students and practitioners of psychoanalysis and psychoanalytic psychotherapy Its 19 chapters are divided into five evenly balanced parts The first rubric *Self Others and Ego* introduces us to the units of the intersubjective constitution we have come to know as object relations theory The second rubric *Developing Object Relations* is a confluence of lessons derived from infant studies and the psychotherapeutic process specifically from the work of Mahler and Kernberg Third Hamilton integrates into an *Object Relations Continuum* Mahler s developmental stages and organizational series with nosological entities and levels of personality organization Under the penultimate rubric *Treatment levels of object relatedness and types of psychopathology* are grounded in considerations of technique in treatment and generous clinical vignettes are provided to illustrate the technical issues cited Last the rubric of *Broader Contexts* takes object relations theory out of the consulting room into application areas that include folklore myth and transformative themes on the self small and large groups applications of object relations theory outside psychoanalysis and the evolutionary history and politics of object relations theory This volume thus presents an integrative theory of object relations that links theory with practice But more than that Hamilton accomplishes his objective of delineating an integrative theory that is quite free of rivalry between schools of thought An indispensable contribution to beginning psychoanalytic candidates and other practitioners as well as those who wish to see the application of object relations theories to fields outside of psychoanalysis

Psychoanalytic Books A Quarterly Journal of Reviews A Jason Aronson Book

The Cumulative Book Index , 1989 A world list of books in the English language

The Annual of Psychoanalysis, V. 21 Jerome A. Winer, 2013-05-13 Volume 21 of *The Annual of Psychoanalysis* is especially welcome for bringing to English language readers timely contributions from abroad in an opening section on Psychoanalysis

in Europe The section begins with a translation of Helmut Thoma's substantial critique of the current state of psychoanalytic education Thoma's proposal for comprehensive reform revolves around a redefinition of the status of the training analysis in analytic training Diane L Heurix Le Beuf's clinical diary of an analysis focusing on the narcissistic elements of oedipal conflict probes the degree to which the analytic method can be applied to nonstructured analysands And Nella Guidi shows the clinical value of supplementing Freud's notion of unobjectionable positive transference with the complementary notion of unobjectionable negative transference Section II on Psychoanalysis and Hysteria offers original contributions to Freud scholarship in the form of Jules Glenn's reconsideration of Dora's Dynamics Diagnosis and Treatment William McGrath's analysis of the way Freud's hostility to religious superstition gained expression in his early work on hysteria and Marian Tolpin's self psychological reprise on the case of Anne O The section concludes with Elisabeth Young Bruehl and Sarah Cummin's provocative What Happened to Anorexia Hysterique which questions the contemporary separation of anorexia from hysteria and explore the sociohistorical reasons the separation came about Section III Clinical and Theoretical Studies begins with Nancy Kobrin's discussion of Freud's ideas about autonomy including the terms Freud used and the way Strachey translated them into English Her goal is to deepen our understanding of how Freud spoke and thought about an individual's sense of self Frank Summers shows how object relations principles which are shared by various object relations theories can inform the conduct of analysis at all levels of pathology including neurosis And Henry Smith examines the meaning and value of the analytic surface a metaphor that highlights the relationship between the analyst's attention and the patient's attention A final section on Applied Psychoanalysis offers contemporary examples of applied analytic inquiry in anthropology art and literature Roy Grinker III and Roy Grinker Jr in a methodological contribution to psychoanalytic anthropology examine what is revealed when a native people here the Lese of northeastern Zaire in Africa are asked to retell a story here the story of Cain and Abel introduced by them by their Western observers Danielle Knafo explores the art and life of the Mexican surrealist Frida Kahlo through the concepts of the mirror the mask and the masquerade And David Werman closes the volume with a comparative study of Edgar Allan Poe's and James Ensor's obsession with revenge and the role it played in Poe's writing and Ensor's etchings respectively Bringing readers the influential reform proposals of Thoma a rich sampling of recent Freud scholarship applied contributions traversing three disciplines and original clinical contributions reflecting American and European sensibilities Volume 21 of The Annual is true to the spirit of this distinguished series It testifies to the scope of analytic inquiry and it exemplifies the yield of such inquiry in the hands of gifted scholars and clinicians
