Gupta,1900 Science and Modern India An Institutional History c 1784 1947 Project of History of Science Philosophy and Culture in Indian Civilization Volume XV Part 4 comprises chapters contributed by eminent scholars It discusses the historical background of the establishment of science institutes that were established in pre Independence India and still exist their functions and their present status This volume discusses Indian science institutes that specialize in a particular field It also delves into the area of engineering sciences **Asian Medicine and Globalization** Joseph S. Alter,2013-03-26 Medical systems function in specific cultural contexts It is common to speak of the medicine of China Japan India and other nation states Yet almost all formalized medical systems claim universal applicability and thus are ready to cross the cultural boundaries that contain them There is a critical tension in theory and practice in the ways regional medical systems are conceptualized as nationalistic or inherently transnational This volume is concerned with questions and problems created by the friction between nationalism and transnationalism at a time when globalization has greatly complicated the notion of cultural political and economic boundedness Offering a range of perspectives the contributors address questions such as How do states concern themselves with the modernization of traditional medicine How does the global hegemony of science enable the nationalist articulation of alternative medicine How do global discourses of science and new age spirituality facilitate the transnationalization of Asian medicine As more and more Asian medical practices cross boundaries into Western culture through the popularity of yoga and herbalism and as Western medicine finds its way east these systems of meaning become inextricably interrelated These essays consider the larger implications of transmissions between cultures

Economic Studies of Indigenous and Traditional Knowledge Nirmal Sengupta,2007 Till recently the mention of traditional knowledge would only elicit metaphors like the Vedas and Upanishads Aryabhata Panini and Charaka or the invention of zero The perspective is changing This book deals with the traditional and indigenous knowledge of common men and women of India that of its tribal and Dalit population fisher folk craftsmen artisans and leather workers their agriculture housing and irrigation methods medicinal knowledge drinking water collection arts and culture Different chapters establish that the economic significance of such knowledge in the modern world is continuing even increasing and is being utilised in a wide variety of ways Globally there is an increased interest in traditional and indigenous knowledge It is now recognised as an underutilised resource that can help to reduce poverty and also as a dormant reserve with considerable commercial potential Book jacket **Routledge Handbook of Contemporary India** Knut A.
