Paths To Excellence And The Soviet School:

Paths to Excellence and the Soviet School John Dunstan, 1978 Histoire de l'école soviétique L'école d'enseignement général aujourd'hui L'enseignement des diverses formes d'art dans les écoles spécialisées Le sport et les écoles de cirque Les écoles de langues vivantes Les olympiades

Paths to Excellence and the Soviet School John Dunstan, 1978 **Paths to Excellence and the Soviet School, with Special Reference to the Period 1958-73** John Dunstan, 1978 *Russian and Soviet Education 1731-1989* John T. Zepper, William W. Brickman, 2014-02-04 Volume 9 in the series of Reference Books in International Education This bibliography is intended to provide a reference aid to mature Russian Soviet scholars to those beginning a life long study of this field and to students in Russian Soviet Studies and allied fields This title provides a resource to scholars students and professionals seeking to understand the role played by education in various societies or regions of the world

Western Perspectives on Soviet Education in the 1980s J.J. Tomiak, 2016-01-12 **Education in the Soviet Union** Mervyn Matthews, 2012 This book provides a comprehensive survey of the successes and failures of education and training in the Khrushchev and Brezhnev years The author gives an objective assessment of the accessibility of the main types of institution of the contents of courses and of Soviet attempts to marry the functioning of their education system to their perceived economic and social needs In addition the book has many useful and original features For ease of analysis it summarises in diagram form complex statistics which are not usually brought together for so long a time period It provides a systematic account of educational legislation Matthews comparison of series of official decrees will allow subtle shifts in government policy to be accurately charted Particular attention is also paid to a number of issues that are often neglected the employment problems of school and college graduates the role and professional status of teachers political control and militarisation in schools the close detail of higher education curricula and the rate of student failure Of special value is the chapter on those educational institutions which are often omitted from Western studies and which are hardly recognised as such in most official Soviet sources

Soviet Schooling in the Second World War J. Dunstan, 1997-02-19 This is the first western book on the subject of wartime Soviet schooling Its theme is set against the background of Soviet educational history and the events preceding and characterising the Great Patriotic War of 1941-45 It considers how the war affected the already problematic organisation of schools and their formal curriculum content and examines their enhanced role as socialising agents It will appeal to historians educationists and all interested in the impact of war on civilian populations

The Curriculum Brian Holmes, Martin McLean, 2018-10-03 Originally published in 1989 What should be taught in schools This book explores the differing curriculum traditions in Britain Europe the USA Latin America India and the Far East and the possibilities for change For the practising teacher and the educationalist it opens up the debates about quality in education which have been intense in many countries throughout the 1980s and focuses on how different countries are trying to change the curriculum to achieve higher standards and greater relevance Considering the age old questions

Who shall be educated and What knowledge is of most worth four major curriculum traditions are examined in an historical context The authors show how some European and American practices were freely incorporated into emerging systems in other parts of the world while elsewhere curricula were transferred by imperialists to their colonies and then modified In the first part of the book the difficulties of curriculum change are explored within the contexts of countries where the curricula are rooted in indigenous models The second part examines countries where curricula have been transferred from other parts of the world and how this affects curriculum change In each case the politics of educational change since 1945 when compulsory education was introduced in many countries has been analysed The book will help students of education to understand the issues of curriculum reform and the transfer of curriculum models and places the problems in an international perspective with case studies

Comparative and International Research In Education Michael Crossley, Keith Watson, 2003-09-02 From the foreword This book is a major contribution to the field of comparative and international education It has been co authored by two distinguished figures who write with authority and clarity and who present conceptual insights which add creative and intellectual vitality to the field at a time of major change and development Changing geopolitical relations the acceleration of globalisation and major advances in information and communication technology have all transformed and revitalised international and comparative research in education This multidisciplinary book critically examines the implications of this change for those engaged in such work worldwide Groundbreaking and insightful it draws on the latest research and developments in the field to give a comprehensive overview and analysis of the contemporary condition of this valuable form of research Drawing upon the authors extensive international experience the text Re assesses the diverse and multidisciplinary origins of this field of study Documents the increased orientation towards research Explores the changing nature of the problems and issues faced by both new and experienced researchers Puts forward a coherent and well informed case for a thorough reconceptualisation of the field as a whole The book argues eloquently for increased cultural and contextual sensitivity in educational research and development in order that the field might make a more effective contribution to educational theory policy and practice This multidisciplinary work will be welcomed by a wide range of theorists and researchers in education and the social sciences as well as teachers policymakers and anyone concerned with improving dialogue and understanding across cultures and nations

Contemporary Issues in Comparative Education Keith Watson, Raymond Wilson, 2018-05-08 Originally published in 1985 In the last two decades education in the Third World has greatly expanded raising many important issues Some less developed countries have emulated the West in the style and organisation of their academic systems hence it could be said increasing their dependence Others have deliberately avoided this path experimenting with systems more relevant to development and often in a radical way At a theoretical level Marxist and neo Marxist development theorists argue that education systems dependent on the West are evidence of economic dependency and of the correctness of Marxist

development theories while others argue that the evidence points to an interdependent world and that dependency theories do not apply to education Interestingly two key Marxist Third World Countries China and Cuba have very conservative education systems This book discusses the problems of dependence and interdependence in education throughout the world

The Violin: A Social History of the World's Most Versatile Instrument David Schoenbaum,2013 Traces the history of the instrument from its first appearance in the mid sixteenth century to its modern use by artists writers and Hollywood and discusses how the affordable portable instrument can be used to play Beethoven jazz and indie rock **Gifted Children** J.

Freeman,1980-10-31 *An International Perspective on Economic Education* William B. Walstad,2012-12-06 Economics is taught in some form in the secondary schools of nations throughout the world The subject is rarely taught in elementary schools and while economics courses are offered in universities the majority of students end their formal education with secondary school Thus the best opportunity for the economic education of the youth of a nation occurs in secondary schools This book examines economic education at this critical level of the educational system The teaching of economics in secondary schools varies across countries These differences occur because of history the structure of education and other national factors At the same time there are common elements in the economic education of many countries especially in content coverage This contrast between the common features and the uniqueness of economic education in secondary schools of major industrial nations exemplifies the international perspective presented in this book The international perspective is developed in the six sections of the volume The first section discusses why nations should include economics in school curricula and presents a framework for teaching economics that should have global appeal Dissension and consensus on economic issues among North American and European economists are examined in the second section The third section surveys the U S research literature on precollege economic education and assesses the current state of economics instruction in U S schools The economics curricula and educational practices in seven other nations the U K Canada Japan Germany Austria Korea and Australia are described in the fourth and fifth sections The fifth section also presents international comparisons of economic understanding based on national testing in six of those nations The sixth and final section explores the role of economic education in centrally planned economies and its effects on the transition to a market economy using Russia Bulgaria and China as case studies **Motivation, Engagement and Educational Performance** J. Elliott,N.

Huften,W. Willis,L. Illushin,2005-08-17 Key factors that impact upon children s educational motivation and engagement are here considered from an international and comparative perspective Based upon a major programme of research undertaken in sites in England the USA and Russia the authors identify interrelated elements operating at international national and local levels These include children s self perceptions goals interests and aspirations curriculum and pedagogy peer and parental influences teacher perceptions school traditions and practices together with the pervasive influence of broader social cultural historical and economic factors **Transforming American Science** Jonathan Engel,2023-04-11

Transforming American Science documents the ways in which federal funds catalyzed or accelerated changes in both university culture and the broader system of American higher education during the post World War II decades The events of the book lie within the context of the Cold War when pressure to maintain parity with the Soviet Union impelled more generous government spending and a willingness of some universities to reorient their missions in the service of country and of science The book draws upon a substantial amount of archival research conducted in various university archives MIT Berkeley Stanford as well as at the Library of Congress the National Archives and various presidential libraries Author Jonathan Engel considers the repurposing of the wartime Manhattan Engineering District and the Office of Naval Research to robust peacetime roles in supporting the nation s expanding research efforts along with the birth of the National Science Foundation space exploration and atoms for peace among other topics This volume is the perfect resource for all those interested in Cold War history and in the history of American science and technology policy **Helping the Child with**

Exceptional Ability , Youth in Transition Kenneth Roberts,2017-09-16 Young people in Eastern Europe are more advanced in some global trends than in the west This original approach to youth studies explores life transitions covering all aspects of young people s lives from education and work to family and leisure Written by a popular author this engaging book is key reading for all students of youth studies **Socialism, Social Welfare and the Soviet Union** Vic George,Nicholas

Manning,2021-12-24 First published in 1980 Socialism Social Welfare and the Soviet Union examines the views of Marx Engels and Lenin on what constitutes a socialist form of provision of social security income education health and housing The authors discuss the implementation of these ideas in the Soviet Union since the 1917 Revolution in the context of economic and political development and describe the social services in the Soviet Union assessing the extent to which the original ideas have been matched by reality They also briefly survey the views of several East European academic writers on social policy outlining some distinctive features of social policy in the Eastern bloc The authors general conclusion is that the Soviet Union has made great progress in social policy provision from their research and from their visits in the course of writing this book they show that the social services of the Soviet Union are as good as and in some ways more comprehensive than those of Western Europe Equally important is their conclusion that a society in which the means of production and distribution are nationalised and which makes a full provision of social services is not necessarily a socialist society This book will appeal to students of sociology political science and area studies **Routledge Library Editions: Curriculum** Various,2021-07-09

Reissuing works originally published between 1971 and 1994 this collection includes books which offer a broad spectrum of views on curriculum both within individual schools and the wider issues around curriculum development reform and implementation Some cover the debate surrounding the establishment of the national curriculum in the UK while others are a more international in scope Many of these books go beyond theory to discuss practical issues of real curriculum changes at primary or secondary level The Set includes books on cross curricular topics such as citizenship and environment and also

guidance careers life skills and pastoral care in schools A fantastic collection of education history with much still relevant today **Democracy In The Russian School** Ben Eklof, 2019-08-22 Framed by an introductory essay by Ben Eklof the translated documents in this volume are crucial to understanding Russian educational reform efforts These primary sources based on previously unpublished statistical data and public opinion surveys depict current conditions in Russia's schools Reflecting the approach of the leading historian of education Edward Dneprov now the powerful minister of education serving under Boris Yeltsin the documents describe the radical reform philosophy and program first published in Teachers Gazette in 1988 which now serve as the operative legislation for all secondary schools The VNIK Temporary Scientific Research Collective on the Schools reform movement is a fascinating microcosm of perestroika in terms of goals mobilization and the complicated painful process of implementation This unique glimpse into Russian education in a period of turmoil will interest all those who follow Russian politics and society
