Paths To State Repression Human Rights Violations And Contentious Politics:

Paths to State Repression Christian Davenport, 2000-03-15 In the last ten years there has been a resurgence of interest in repression and violence within states *Paths to State Repression* improves our understanding of why states use political repression highlighting its relationship to dissent and mass protest The authors draw upon a wide variety of political economic contexts methodological approaches and geographic locales including Cuba Nicaragua Peru Sri Lanka Indonesia Israel Eastern Europe and Africa This book is invaluable to all who wish to better understand why central authorities violate and restrict human rights and how states can break their cycles of conflict

Understanding Human Rights Violations

Steven C. Poe, 2019-06-04 Originally published in 2004 This excellent volume presents a systematic analysis of various human rights violations around the globe focusing on security and subsistence rights The book collects important contributions to the theoretical development of the human rights phenomenon covering a wide range of human rights issues and research approaches The research presented combines a variety of qualitative and quantitative approaches and brings together both theoretical and empirical work It places particular emphasis on making the advanced statistical methods that are used to test the arguments accessible to a wider readership *Understanding Human Rights Violations* will prove a useful tool for all in the fields of international human rights peace studies political violence and international law and offers a valuable introduction into the literature on human rights violations

The Politics of Repression Under Authoritarian Rule Dag Tanneberg, 2020-01-03 Does authoritarian rule benefit from political repression This book claims that it does if restrictions and violence two fundamentally different forms of repression complement each other Based on an in depth quantitative analysis of the post Second World War period the author draws three central conclusions Firstly restrictions and violence offer different advantages suffer from different drawbacks and matter differently for identical problems of authoritarian rule Secondly empirical data supports complementarity only as long as political repression preempts political opposition Lastly despite its conceptual centrality political repression has little influence on the outcomes of authoritarian politics The book also offers new insights into questions such as whether repression hinders successful political campaigns or whether it is more likely to trigger coups d tat

State Repression in Post-Disaster Societies Clair Apodaca, 2017-01-20 A natural hazard is a physical event but a disaster is a social and political phenomenon Natural hazards are for the most part unavoidable and apolitical However they carry with them serious political economic and social consequences Disasters also have adverse consequences on human rights standards An understanding of the relationship between disasters and human rights outcomes requires knowledge of how disasters increase grievance and frustration and impact the probability of contentious political behavior To date there has been little empirical or theoretical research on the specific circumstances under which disasters impact antigovernment political behavior and even less is known of the causal chain between a natural disaster protest activity and human rights violations In this book Clair Apodaca maps a comprehensive causal model of the

complex interactions between disasters and human rights violations She claims that pre existing inequalities and societal grievances turn a natural hazard into a disaster A grievance based theory of protests suggests that the underlying structural causes are social and economic group disparities political exclusion along with population pressures To turn these all too common conditions into active political behavior requires a triggering event When a damage loss is the primary consequence of a disaster the government and international community can compensate victims by providing rebuilding and reconstruction aid However when the disaster results in high numbers of fatalities the government and international community cannot adequately compensate survivors for their losses Grievances cannot be easily or effectively eliminated and survivors and their supporters mobilize for change even if they are likely to face state repression Clair Apodaca offers a unique contribution to our understanding of human rights violations She effectively shows that there is a causal process between hazard events protest activities and government repression a finding that is key to scholars practitioners and policy makers working in this field

Collective Violence, Contentious Politics, and Social Change Ernesto Castañeda,Cathy Schneider,2017-05-08 Charles Tilly is among the most influential American sociologists of the last century For the first time his pathbreaking work on a wide array of topics is available in one comprehensive reader This manageable and readable volume brings together many highlights of Tilly s large and important oeuvre covering his contribution to the following areas revolutions and social change war state making and organized crime democratization durable inequality political violence migration race and ethnicity narratives and explanations The book connects Tilly s work on large scale social processes such as nation building and war to his work on micro processes such as racial and gender discrimination It includes selections from some of Tilly s earliest influential and out of print writings including *The Vend e Coercion Capital and European States* the classic *War Making and State Making as Organized Crime* and his more recent and lesser known work including that on durable inequality democracy poverty economic development and migration Together the collection reveals Tilly s complex compelling and distinctive vision and

helps place the contentious politics approach Tilly pioneered with Sidney Tarrow and Doug McAdam into broader context. The editors abridge key texts and in their introductory essay situate them within Tilly's larger opus and contemporary intellectual debates. The chapters serve as guideposts for those who wish to study his work in greater depth or use his methodology to examine the pressing issues of our time. Read together they provide a road map of Tilly's work and his contribution to the fields of sociology, political science, history, and international studies. This book belongs in the classroom and in the library of social scientists, political analysts, cultural critics, and activists.

Media Bias, Perspective, and State Repression Christian Davenport, 2010. This book examines information reported within the media regarding the interaction between the Black Panther Party and government agents in the Bay Area of California, 1967-1973. Christian Davenport argues that the geographic locale and political orientation of the newspaper influences how specific details are reported, including who starts and ends the conflict, who the Black Panthers target, government or non-government actors, and which part of the government responds, the police or court. Specifically, proximate and government-oriented sources provide one assessment of events, whereas proximate and dissident-oriented sources have another. Both converge on specific aspects of the conflict. The methodological implications of the study are clear. Davenport's findings prove that in order to understand contentious events, it is crucial to understand who collects or distributes the information in order to comprehend who reportedly does what to whom, as well as why.

Protest, Repression and Political Regimes Sabine C. Carey, 2009-01-13. This book explores and tests different theories of how governments respond to dissent and how dissidents respond to repression using extensive empirical data and detailed studies on Latin America and Africa.

Conflict and Compliance Sonia Cardenas, 2011-03-18. International human rights pressure has been applied to numerous states with varying results. In *Conflict and Compliance*, Sonia Cardenas examines responses to such pressure and challenges conventional views of the reasons states do or do not comply with international law. Data from disparate bodies of research suggest that more pressure to comply with human rights standards is not necessarily more effective and that international policies are more efficient when they target the root causes of state oppression. Cardenas surveys a broad array of evidence to support these conclusions, including Latin American cases that incorporate recent important declassified materials, a statistical analysis of all the countries in the world, and a set of secondary cases from Eastern Europe, South Africa, China, and Cuba. The views of human rights skeptics and optimists are surveyed to illustrate how state rhetoric and behavior can be interpreted differently depending on one's perspective. Theoretically and methodologically sophisticated, *Conflict and Compliance* paints a new picture of the complex dynamics at work when states face competing pressures to comply with and violate international human rights norms.

People Changing Places Isabelle Côté, Matthew I. Mitchell, Monica Duffy Toft, 2018-07-04. While migration and population settlement have always been an important feature of political life throughout the world, the dramatic changes in the pace, direction, and complexity of contemporary migration flows are undoubtedly unique. Despite the economic benefits often associated with

global regional and internal migration the arrival of large numbers of migrants can exacerbate tensions and give rise to violent clashes between local populations and recent arrivals This volume takes stock of these trends by canvassing the globe to generate new conceptual empirical and theoretical contributions The analyses ultimately reveal the critical role of the state as both an actor and arena in the migration conflict nexus

Impediments to the Prevention and Intervention of

Genocide Samuel Totten,2013 Academics NGOs the United Nations and individual nations are focused on the prevention and intervention of genocide Traditionally missions to prevent or intervene in genocide have been sporadic and under resourced The contributors to this volume consider some of the major stumbling blocks to the avoidance of genocide Bartrop and Totten argue that realpolitik is the major impediment to the elimination of genocide Campbell examines the lack of political will to confront genocide and Theriault describes how denial becomes an obstacle to intervention against genocide Loyle and Davenport discuss how intervention is impeded by a lack of reliable data on genocide violence and Macgregor presents an overview of the influence of the media Totten examines how the UN Convention on Genocide actually impedes anti genocide efforts and how the institutional configuration of the UN is itself often a stumbling block Addressing an issue that is often overlooked Travis examines the impact of global arms trade on genocide Finally Hiebert examines how international criminal prosecution of atrocities can impede preventive efforts and Hirsch provides an analysis of the strengths weaknesses and effectiveness of major international and national prescriptions developed over the last decade The result is a distinguished addition to Transaction s prestigious Genocide Studies series

Dictators and their Secret

Police Sheena Chestnut Greitens,2016-08-16 How do dictators stay in power When and how do they use repression to do so Dictators and their Secret Police explores the role of the coercive apparatus under authoritarian rule in Asia how these secret organizations originated how they operated and how their violence affected ordinary citizens Greitens argues that autocrats face a coercive dilemma whether to create internal security forces designed to manage popular mobilization or defend against potential coup Violence against civilians she suggests is a byproduct of their attempt to resolve this dilemma Drawing on a wealth of new historical evidence this book challenges conventional wisdom on dictatorship what autocrats are threatened by how they respond and how this affects the lives and security of the millions under their rule It offers an unprecedented view into the use of surveillance coercion and violence and sheds new light on the institutional and social foundations of authoritarian power

The Politics of Mass Killing in Autocratic Regimes

Bumba Mukherjee,Ore Koren,2018-06-13 This book develops a detailed disaggregated theoretical and empirical framework that explains variations in mass killing by authoritarian regimes globally with a specific focus on Pakistan Indonesia and Malaysia Using a combination of game theoretic statistical and qualitative approaches this project explicates when civilians within nondemocratic states will mobilize against the ruling elite and when such mobilization will result in mass killing In doing so it illustrates the important role urbanization and food insecurity historically played and will continue to play in generating

extreme forms of civilian victimization *Globalization and Human Rights* Alison Brysk, 2002-10-15 These essays include theoretical analyses by Richard Falk Jack Donnelly and James Rosenau Chapters on sex tourism international markets and communications technology bring fresh perspectives to emerging issues The authors investigate places such as the Dominican Republic Nigeria and the Philippines *Secessionism and Separatism in Europe and Asia* Jean-Pierre Cabestan, Aleksandar Pavković, 2013-01-03 The boundaries between secessionism and separatism are often blurred and in many cases study of secessionism encompasses that of separatism and vice versa Recognising this inherent relationship this book provides a comparative survey of recent attempts at secession and separatist movements from across Europe and Asia and assesses the responses of the respective host governments The essays address two main questions which arise from the relationship between state governments and secessionist movements first how secessionist or separatist movements gather support and mobilize their target populations and second how central political authorities respond to the challenges that secessionist or separatist movements pose to their capacity to control the country With political analysis of recent cases ranging from the Balkans the USSR the UK and the Basque Country to Sri Lanka Burma China Tibet and Taiwan the authors identify both similarities and differences in the processes and outcomes of secessionist and separatist movements across the two distinct regions This volume will be an invaluable resource for those who wish to understand the dynamics of secessionist movements and as such will appeal to students and scholars of Asian and European politics comparative politics international relations and conflict studies It will also be helpful to practitioners and policy makers who wish to understand and contribute to the resolution of such conflicts **Power and Transnational Activism** Thomas Olesen, 2010-12-03 Offering new and critical insights on global activism and power it features case studies on China and Tibet HIV AIDS climate change child labour the WTO women and the UN the global public sphere world social forums and global civil society *Social Movements and Civil War* Donatella della Porta, Teije Hidde Donker, Bogumila Hall, Emin Poljarevic, Daniel P. Ritter, 2017-07-20 This book investigates the origins of civil wars which emerge from failed attempts at democratization The main aim of this volume is to develop a theoretical explanation of the conditions under which and the mechanisms through which social movements struggles for democracy end up in civil war While the empirical evidence suggests that this is not a rare phenomenon the literatures on social movements democratization and civil wars have grown apart from each other At the theoretical level *Social Movements and Civil War* bridges insights in the three fields looking in particular at explanations of the radicalization of social movements the failure of democratization processes and the onset of civil war In doing this it builds upon the relational approach developed in contentious politics with the aim of singling out robust causal mechanisms At the empirical level the research provides in depth descriptions of four cases of trajectory from social movements for democratization into civil wars in Syria Libya Yemen and the former Yugoslavia Conditions such as the double weakness of civil society and the state the presence of entrepreneurs of violence as well as normative and material resources for violence

ethnic and tribal divisions domestic and international military interventions are considered as influencing the chains of actors choices rather than as structural determinants This book will be of great interest to students of civil wars political violence social movements democratization and IR in general *Counter-Terrorism* Ana Salinas de Frías, Katja Samuel, Nigel White, Nigel D. White, 2012-01-19 The response of governments to terrorism is one of the most controversial issues of the twenty first century Balancing the desire to achieve security with the safeguarding of human rights has proved to be highly contentious This book analyzes the international rule of law framework in which counter terrorism responses occur namely those of international human rights humanitarian criminal and refugee law It focuses on some of the most pressing emerging and or under researched issues and tensions including the policy choices associated with meeting security imperatives the tensions between the criminal justice approach to counter terrorism and the military approach the identification of lacunae within existing legal frameworks and tensions between executive judicial and legislative responses It addresses a wide range of issues such as an analysis of key legal principles emergency and executive measures radicalization governmental impunity classification administration and treatment of battlefield detainees extrajudicial and targeted killings forms of and treatment in detention non refoulement diplomatic assurances interrogation versus torture extraordinary rendition discrimination reparations for victims of terrorist attacks and security responses mis use of military and immigration tribunals judicial and institutional developed and emerging rule of law norms on terrorism non judicial oversight by means of democratic accountability significance of rule of law principles to non legal counter terrorist policy and the identification and analysis of best practices Drawing together an impressive spectrum of legal and non legal national and institutional practitioner policy and academic expertise this book is an unmissable reference work on all aspects of counter terrorism policy Regime Transition and the Judicial Politics of Enmity Justine Guichard, 2016-04-08 Among the societies that experienced a political transition away from authoritarianism in the 1980s South Korea is known as a paragon of successful democratization This achievement is considered to be intimately tied to a new institution introduced with the 1987 change of regime intended to safeguard fundamental norms and rights the Constitutional Court of Korea While constitutional justice is largely celebrated for having achieved both purposes this book proposes an innovative and critical account of the court s role Relying on an interpretive analysis of jurisprudence it uncovers the ambivalence with which the court has intervened in the major dispute opposing the state and parts of civil society after the transition re defining enmity In response to this challenge constitutional justice has produced both liberal and illiberal outcomes promoting the rule of law and basic rights while reinforcing the mechanisms of exclusion bounding South Korean democracy in the name of national security **Mobilizing for Democracy** Donatella della Porta, 2014-03 Mobilizing for Democracy compares two waves of protests for democracy in Central Eastern Europe in 1989 and in the Middle East and North Africa in 2011
