Ruminski, Annette M. Holba, 2011-12-16 *Communicative Understandings of Women's Leadership Development From Ceilings of Glass to Labyrinth Paths* edited by Elesha L. Ruminski and Annette M. Holba intertwines the disciplines of communication studies leadership studies and women's studies to offer theoretical and practical reflection about women's leadership development in academic organizational and political contexts Women's leadership development exists at the intersection of consciousness raising communication competence and education to increase one's knowledge and practice of leadership which makes the weaving together of these three disciplines important Thus *Communicative Understandings of Women's Leadership Development* claims a space for women's leadership studies and acknowledges the paradigmatic shift from discussing women's leadership using the glass ceiling phenomenon to what Eagly and Carli 2007 identify as the labyrinth of leadership Recognizing this metaphoric shift is crucial because many women now develop leadership amid the postmodern

flux of organizational change hierarchical top down systems are being eroded in lieu of transformational collaborative even improvisational leadership processes Women s leadership studies is emerging as a fruitful interdisciplinary area that reframes the debate about whether we live work and learn within a third wave feminist or post feminist context While this area might include feminist theorizing it also might not emphasize such epistemologies For this reason Ruminski and Holba s edited collection explores and highlights a variety of feminist and non feminist intersections and is thus an important and timely contribution to both marking where we are with women s leadership development in higher education and how women can further develop themselves as leaders

educational leadership in regard to gender      Pursuing Pastoral Excellence Paul E. Hopkins, 2011-01-11 In Pursuing Pastoral Excellence pastoral counselor and educator Paul Hopkins aims to help pastoral leaders make a lasting and positive difference in the lives of the people and communities they serve The heart of this book is the stories of seven ordinary pastors whose leadership has become extraordinary Their stories not only highlight important characteristics and practices that nurture fruitful pastoral leadership but they invite readers to examine their own stories to think about the value of longevity in ministry and to enhance the enduring impact of their own pastoral leadership Hopkins frames these stories with a discussion of the difficult vocational challenges pastors are facing in a rapidly changing church milieu and a survey of recent leadership studies He concludes by exploring seven patterns of pastoral leadership that characterize leaders who have an enduring impact as well as four key elements coming to be recognized as imperative for the cultivation of enduring pastoral fruitfulness      **Pastoral Theology in the Baptist Tradition** R. Robert Creech, 2021-10-26 A veteran Baptist pastor and ministry professor offers a distinctive free church vision for pastoral leadership attending to voices from the past four centuries as they speak about the practice of ministry The book contains theological reflection on current ministry issues among Baptists based on biblical and historical foundations and reflects a diversity of Baptist life across time and around the world including many different voices Each chapter contains reflection questions to help readers consider the implications of Baptist thinking      A Pathway to American Renewal Robert L. Woodson, 2024-09-17 A celebration of resilience the inspiring story of how Black America survived unimaginable odds and an examination of the real challenges it faces today This challenging and inspiring collection of essays constructively frames the story of Black America not as a tragedy involving helpless victims but as a model for the nation Scholars and grassroots leaders recount the history the gritty painful but often triumphant account of what blacks accomplished after slavery was ended Denied access to the institutions of white America they built their own churches schools hotels and a host of other successful enterprises Their resilience produced amazing increases in literacy family formation and income Today s unsung grassroots leaders are the living evidence of the power of resilience They use their stories of overcoming adversity and their own fallibility to help others The organizations they create heal their communities This volume presents the insights of scholars who warn of the dangerous forces that threaten to shackle the ability of blacks to succeed today They warn that by accepting the notion that black adversity continues to be the product of systemic racism and is therefore unchangeable no one would need to step up to the realities of a responsible life This kind of thinking has led to lowering standards in education and even in the judicial system The scholars outline positive paths to the future More than chapters to be passively read A Pathway to American Renewal is an invitation and a promissory note that points directly to what American renewal might really involve      Pathways for Peace United Nations, World Bank, 2018-04-13 Violent conflicts today are complex and increasingly protracted involving more nonstate groups and regional and international actors It is estimated that by 2030 the horizon set by the international community for achieving the

Sustainable Development Goals more than half of the world's poor will be living in countries affected by high levels of violence. Information and communication technology, population movements and climate change are also creating shared risks that must be managed at both national and international levels. Pathways for Peace is a joint United Nations World Bank Group study that originates from the conviction that the international community's attention must urgently be refocused on prevention. A scaled up system for preventive action would save between US \$5 billion and US \$70 billion per year which could be reinvested in reducing poverty and improving the well being of populations. The study aims to improve the way in which domestic development processes interact with security, diplomacy, mediation and other efforts to prevent conflicts from becoming violent. It stresses the importance of grievances related to exclusion from access to power, natural resources, security and justice for example that are at the root of many violent conflicts today. Based on a review of cases in which prevention has been successful, the study makes recommendations for countries facing emerging risks of violent conflict as well as for the international community. Development policies and programs must be a core part of preventive efforts when risks are high or building up inclusive solutions through dialogue, adapted macroeconomic policies, institutional reform and redistributive policies are required. Inclusion is key and preventive action needs to adopt a more people centered approach that includes mainstreaming citizen engagement. Enhancing the participation of women and youth in decision making is fundamental to sustaining peace as well as long term policies to address the aspirations of women and young people.
