Pathways From The Periphery The Politics Of Growth In The Newly Industrializing Countries:

Pathways from the Periphery Stephan Haggard, 1990 *Pathways from the Periphery* is an innovative interpretation of the development of the newly industrializing countries NICs which now dominate Third World industry and manufacturing trade. While such countries as Brazil and Mexico have achieved industrialization through strategies intended to foster self reliance, the East Asian NICs South Korea, Taiwan, Hong Kong and Singapore have grown rapidly through an aggressive policy promoting the export of manufactured goods. Stephan Haggard provides the first comprehensive comparison of the politics of industrialization in these East Asian and Latin American countries and offers new evidence on current issues in comparative political economy including the implications of different growth paths for dependency, equity and democracy. Recognizing the influence on development strategies of external shocks such as depression, war and reduced access to foreign capital, Haggard emphasizes the importance of domestic political institutions for economic decision making. The East Asian NICs are characterized by close but regulated business government alliances, weak labor movements and politically insulated and administratively capable states. Factors Haggard shows that have facilitated flexible and coherent industrial policies. He argues that domestic policy choices can shape the external constraints states face. The author considers in detail why Latin America's long standing efforts to achieve self reliance have ironically resulted in a dependence on international capital greater than that of the East Asian countries. Addressing a long standing debate on the relationship between industrialization strategy and regime type, Haggard carefully assesses the connection between growth and democratic politics. Despite their authoritarian growth models, the Asian NICs have, he observes, achieved greater equity than their Latin American counterparts. Although the success of export led growth has in the past been associated with authoritarian rule, Haggard argues that no compelling theoretical reasons preclude democratic governments from achieving strong economic performance. Breaking new ground in theoretical inquiry and empirical research, *Pathways from the Periphery* will be welcomed by political economists, scholars and students of comparative politics, historians of Asian and Latin American public policy and others concerned with the challenge of economic development.

United States Trade Relations with the Newly Industrializing Countries in the Pacific Basin Won Kwang Paik, 2018-11-02 With the resurgence of new Protectionism, international trade and trade relations are once again prime topics for study. This book, first published in 1997, examines in detail the different ways to answer the questions: What are the causes of trade relations? And specifically, what factors determine a flow of commodities from one country to another?

The Newly Industrializing Economies of East Asia Anis Chowdhury, Iyanatul Islam, 2005-08-09 The phenomenal success of the East Asian Newly Industrializing Economies (NIEs) of Korea, Taiwan, Hong Kong and Singapore is now well known and documented. Their success has been discussed to such an extent that it has become entrenched as part of the folklore of development economics. *The Newly Industrializing Economies of East Asia* takes a fresh look at the relevant literature and

sifts the rhetoric from the reality In the course of surveying the vast range of writing two competing paradigms become clear the neo classical approach which interprets the East Asian economic miracle as the predictable outcome of good policies and the statist perspective which draws attention to the central role of the government in guiding East Asian economic development Throughout the book the authors mix country specific experiences with broader trends

The Politics of Economic Adjustment Stephan Haggard, Robert R. Kaufman, 2018-06-05 In the 1980s some developing countries adopted orthodox market oriented policies in response to international economic crises others experimented with alternative programs and still others failed to develop coherent adjustment strategies of any sort Building on the case studies in Economic Crisis and Policy Choice these essays offer comparative analysis of these divergent experiences with macroeconomic stabilization and structural adjustment Barbara Stallings and Miles Kahler explore the external pressures on governments Peter Evans and John Waterbury examine the role of the state in the adjustment process Evans through the lens of earlier historical experience with economic restructuring Waterbury by focusing on the politics of privatization Joan Nelson analyzes the politics of income distribution in the adjustment process and Haggard and Kaufman investigate the political correlates of inflation and stabilization A final essay assesses the prospects for combining market oriented reforms with political democratization

The Newly Industrialising Economies of East Asia Anis Chowdhury, Iyanatul Islam, 1993 In surveying the vast range of writing on the East Asian NIEs and their development paths this book evaluates the competing roles of neo classical approaches and central government intervention in guiding economic development

Contemporary Greece and Europe Achilleas Mitsos, Elias Mossialos, 2019-07-17 This title was first published in 2000 Contemporary Greek society is characterized by an all embracing trend for reform This task however is constrained by problems of Greek polity rooted in the historical and political culture This text explores the important facets of divergence between Greece and the EU examining the process through which they affect the relative performance of the country in the economic social political and international relations fronts together with significant attempts to modernize and rationalize internal and external policies and structures The book is in five parts In the first introductory section Greece's Alternate Minister of Foreign Affairs the late Yannis Kranidiotis analyzes the fundamental objectives of Greek foreign policy whilst the editors explore the challenges of EU membership for Greek domestic and foreign politics and Greece's participation in the process of European integration The second part deals with Greece and the EMU the third analyzes the issues related to state modernization and adjustment A fourth section examines the welfare state and related policies and the final part analyzes Greece's foreign policy and external relations with particular emphasis on the Balkans and Greek Turkish relations

Hard Times in the Lands of Plenty

Benjamin Smith, 2011-05-02 That natural resources can be a curse as well as a blessing is almost a truism in political analysis In many late developing countries the resource curse theory predicts the exploitation of valuable resources will not result in stable prosperous states but rather in their opposite Petroleum deposits for example may generate so much income that rulers will have little need to establish efficient tax extracting bureaucracies leading to shallow poorly functioning administrations that remain at the mercy of the world market for oil Alternatively resources may be geographically concentrated thereby intensifying regional ethnic or other divisive tensions In *Hard Times in the Land of Plenty* Benjamin Smith deciphers the paradox of the resource curse and questions its inevitability through an innovative comparison of the experiences of Iran and Indonesia These two populous oil rich countries saw profoundly different changes in their fortunes in the period 1960 1980 Focusing on the roles of state actors and organized opposition in using oil revenues Smith finds that the effects of oil wealth on politics and on regime durability vary according to the circumstances under which oil exports became a major part of a country's economy The presence of natural resources is he argues a political opportunity rather than simply a structural variable Drawing on extensive primary research in Iran and Indonesia and quantitative research on nineteen other oil rich developing countries Smith challenges us to reconsider resource wealth in late developing countries not as a simple curse or blessing but instead as a tremendously flexible source of both political resources and potential complications

Democratization in Confucian East Asia: Citizen Politics in China, Japan, Singapore, South Korea, Taiwan, and Vietnam, *Nationalism, Liberalism, and Progress: The rise and decline of nationalism* Ernst B. Haas, 1997 Has global liberalism made the nation state obsolete Or on the contrary are primordial nationalist hatreds overwhelming cosmopolitanism To assert either theme without serious qualification according to Ernst B Haas is historically simplistic and morally misleading Haas describes nationalism as a key component of modernity and a crucial instrument for making sense of impersonal rapidly changing and heterogeneous societies He characterizes nationalism as a feeling of collective identity a mutual understanding experienced among people who may never meet but who are persuaded that they belong to a community of kindred spirits Without nationalism there could be no large integrated state Nationalism comes in many varieties some revolutionary in rejecting the past and some syncretist in seeking to retain religious traditions Haas asks whether liberal nationalism is particularly successful as a rationalizing agent noting that liberalism is usually associated with collective learning and that liberal secular nationalism delivers substantial material benefits to mass populations He also asks whether liberal nationalism can lead to its own transcendence He explores nationalism in five societies that had achieved the status of nation states by about 1880 the United States Britain France Germany and Japan Several of these

nation states became exemplars for later nationalists A second forthcoming volume will consider ten societies that modernized more recently many of them aroused to nationalism by the imperialism of these old nation states

Palace Politics Jonathan Schlefer, 2009-09-15 Bringing rare interviews and meticulous research to the cloaked world of Mexican politics in the mid twentieth century *Palace Politics* provides a captivating look at the authoritarian Mexican state one of the longest lived regimes of its kind in recent history as well as the origins of political instability itself with revelations that can be applied to a variety of contemporary political situations around the globe Culling a trove of remarkable firsthand accounts from former Mexican presidents finance ministers interior ministers and other high officials from the 1950s through the 1980s Jonathan Schlefer describes a world in which elite politics planted the seeds of a mammoth socioeconomic crisis *Palace Politics* outlines the process by which political infighting among small rival factions of high officials drove Mexico to precarious situations at all levels of government Schlefer also demonstrates how earlier on elite cooperation among these factions had helped sustain one of the most stable growth economies in Latin America until all or nothing struggles began to tear the Mexican ruling party apart in the 1970s A vivid seamlessly narrated history *Palace Politics* is essential reading for anyone seeking to better understand not only the nation next door but also the workings of elite politics in general

The Politics of Labor in a Global Age Christopher Candland, Rudra Sil, 2001-09-20 *The Politics of Labor in a Global Age* is one of the first works to analyse and compare recent shifts in patterns of industrial relations across late industrializing and post socialist economies The volume features original and timely essays on labor relations at national local and workplace levels as economic and political actors cope with the similar challenges associated with economic adjustment measures and the impact of globalization The authors reveal that while globalization has threatened the position of organized labor and prompted business and state elites to accommodate greater labor market flexibility the legacies of past institutions remain evident in distinctive trends in labor politics within and across late industrializing and post socialist settings The comparisons suggest that globalization is best understood not as a source of convergence but as a set of common pressures that are mediated by specific historical inheritances that spur varied responses on the part of industrial relations actors and that facilitate quite diverse institutional outcomes

Regionalization and Globalization in the Modern World Economy Alex E. Fernandez Jilberto, Andre Mommen, 2002-01-22 This collection explores the importance of regionalization and globalization to the world economy particularly questioning whether the world economy is characterized by increasing regionalization rather than globalization International contributors explore the processes in the Pacific area the Americas Africa and Europe and make an important contribution to current debates in development economics

International Political Economy Thomas Oatley, 2015-10-05 Broadly viewing the global economy as a political competition that produces winners and losers *International Political Economy* holistically and accessibly introduces the field of IPE to students with limited background in political theory history and economics This text surveys major interests and institutions and examines how state and non

state actors pursue wealth and power Emphasizing fundamental economic concepts as well as the interplay between domestic and international politics International Political Economy not only explains how the global economy works it also encourages students to think critically about how economic policy is made in the context of globalization

The Political Economy of Market Reform in Jordan Timothy J. Piro,1998 This volume moves beyond traditional studies of Jordan's politics to explore the interplay between politics and economy Examining the phenomenon of market reform in the developing world Timothy J Piro assesses the state's contradictory impulses toward privatization and continued state intervention in the economy Drawing on a wealth of primary materials the author illuminates the kingdom's unique politics and argues that market reform is dependent on domestic rather than international political structures

The Oxford Handbook of the Politics of Development Carol Lancaster,Nicolas Van de Walle,2018 In The Oxford Handbook of the Politics of Development two of America's leading political scientists on the issue Carol Lancaster and Nicolas van de Walle assemble an international cast of leading scholars who craft a comprehensive examination of development policy and its effects on the political and economic climates of a country

What Kind of Democracy? What Kind of Market? Philip D. Oxhorn,Graciela Ducatenzeiler,1998-12-10 While there is much literature analyzing the politics of implementing economic reforms very little has been written on the social and political consequences of such reforms after they have been implemented The basic premise of this book is that the convergence of many social economic and political ills such as high levels of poverty income inequality criminal violence and the growth of the informal sector in the context of unprecedented levels of political democratization in Latin America presents a paradox that needs to be explained What Kind of Democracy demonstrates how the myriad social problems throughout the region are intimately linked both to a new economic development model and the weaknesses of Latin American democracy This volume brings together prominent scholars from Canada the United States and Latin America representing several different disciplines to analyze ongoing processes of economic social and political change in the region The contributors are Werner Baer Manuel Barrera Juan Alberto Fuentes Yoshiaki Nakano Claudio Paiva Luiz Carlos Bresser Pereira Jean Francois Prudhomme Jorge Schvarzer Francisco Weffort and Francisco Zapata

The Changing Politics of Finance in Korea and Thailand Xiaoke Zhang,2003-08-29 This book represents the first systematic attempt to explore the financial crisis in an interdisciplinary and comparative perspective and is essential reading for both policy makers and academics interested in national governance

Aid and Authoritarianism in Africa Tobias Hagmann,Professor Filip Reyntjens,2016-03-15 In 2013 almost half of Africa's top aid recipients were ruled by authoritarian regimes While the West may claim to promote democracy and human rights in practice major bilateral and international donors such as USAID DFID the World Bank and the European Commission have seen their aid policies become ever more entangled with the survival of their authoritarian protégés Local citizens thus find themselves at the receiving end of a compromise between aid agencies and government elites in which development policies are shaped in the interests of

maintaining the status quo Aid and Authoritarianism in Africa sheds light on the political intricacies and moral dilemmas raised by the relationship between foreign aid and autocratic rule in Africa Through contributions by leading experts exploring the revival of authoritarian development politics in Ethiopia Uganda Rwanda Cameroon Mozambique and Angola the book exposes shifting donor interests and rhetoric as well as the impact of foreign aid on military assistance rural development electoral processes and domestic politics In the process it raises an urgent and too often neglected question to what extent are foreign aid programmes actually perpetuating authoritarian rule
