Congress. House. Committee on Science, Space, and Technology (2011), United States. Congress. House. Committee on Science, Space, and Technology (2011-), 2014 The Twelve Step Pathway Michael Cowl Gordon, 2023-11-01 Uses the hero's journey as the path on which to travel for overcoming addiction and crisis and rescuing your own story This is a book about becoming heroic A hero is a person who faces great danger overcomes incalculable odds and accomplishes that which would have been thought especially by the hero to be impossible to achieve Considering the fear and pain that a person must experience in such an adventure it is a role that few would desire for themselves And yet more of us find ourselves in circumstances demanding heroism than one might imagine In fact people who are never called upon to be heroic at some point in their lives are in the minority if they exist at all This is not a book for people who might want to become heroic someday It is for people who are in the midst of a crisis and who must make a decision about whether they are going to face their situation survive rise above themselves and share their newfound knowledge with others who may need salvation And it is for those who are already traveling such a journey and who would like to gain a new understanding of themselves what their journey was and is about and why it is so important Using the twelve step framework for understanding the inner work a person must do in order to overcome addiction Michael Cowl Gordon walks readers through the journey to inner salvation and peace Using the hero's journey as the path on which to travel through these steps he uncovers the deep work that it takes to be the hero in your own story The Christian's Pathway of Power , 1876

Pathway to Destruction William Potter, 2011-11-08 In the waning days of the twenty first century man commits the ultimate atrocity Nuclear winter However as in any holocaust there are always survivors Those who survived the rain of nuclear fire used the now highly efficient space shuttle system to evacuate a now rapidly dying planet to settle and colonize some of the outer planets and moons Then some nine hundred years later the age old bid for absolute power starts all over again Sean Thorn son of a farming family located on Jupiter lunar four was educated at a university on Mars and was employed as radio communications director at the J 4 spaceport The Thorn family viewed the off world war as none of their concern However when his entire family is killed in an air raid by the alliance Sean becomes a dedicated merciless killing machine bent on revenge and forming a gorilla band he sets out to do just that Ann Stone also educated on Mars worked with her father for a mining company on Jupiter lunar one When her whole family was killed by the alliance she took up arms Half alien half human she had none of the typical sentimental human hang ups about killing and became an extremely efficient

killing machine For some time she and her followers wage a slowly losing battle with the alliance The opportunity presents itself to steal a long range shuttle and seek help from the newly formed colonist military Unfortunately before she is out of pulsar range her ship is hit and she is forced to crash land on Sean's home moon J 4 Thrown together by circumstances amidst the horror of war and devastation love begins to blossom They are involved in many life threatening skirmishes but in spite of that they are married and while on their honeymoon they are captured and tortured by the enemy However they manage a daring escape during a battle between colonial forces and the ship they are imprisoned on The eastern alliance with years of combat training slowly push the ill trained colonists to the edge of the solar system and beyond Forced to flee the alliance tyranny the colonials set course for the far off star cluster of Alpha Centauri In route they have their first encounter with an alien craft After five or so years in deep space the refugees arrive at their destination the star system of Alpha Centauri As time passes and the colony becomes well established Sean decides to explore their new world He finds a fully intact derelict alien ship After years of study reverse engineering and the help of alien technology derived from the derelict spacecraft they are able to return and reclaim their heritage
