How German Parties Select Candidates of Immigrant Origin Sara Ceyhan, 2020-10-31 This book analyzes the threshold candidates of immigrant background need to overcome to run for legislative office Understanding whether political parties are able to adapt their selection criteria helps to assess their ability to respond to the underrepresentation of citizens of immigrant origin in parliament Although Germany s ethnic diversity is on a steady rise citizens of immigrant origin remain descriptively underrepresented Despite the pivotal role the intra party candidate selection plays in shaping who runs for election the question of how candidates of immigrant background fare in political parties candidate selection in comparison

to native born candidates remained a blind spot of research Therefore the author presents in depth empirical evidence on the selection of candidates of immigrant background in German political parties The book addresses scholars of political science interested in electoral studies as well as policy makers and party officials interested in a balanced representation of their political representatives *Political Candidate Selection* Jeanette Ashe,2019-12-05 The secret garden of politics where some win and others lose their candidate selection bids and why some aspirant candidates are successful while others fail have been enduring puzzles within political science This book solves this puzzle by proposing and applying a universally applicable multistage approach to discover the relationship between selection rules selectors biases aspirants attributes and selection outcomes Rare party and survey data on winning and losing candidates and insider views on what it takes to win a selection contest at multiple selection stages are compared and used to reveal the inner workings of the secret garden With a primary focus on the British Labour party over several elections the findings challenge many long held assumptions about why some aspirant candidate types are successful over others and provides real world and controversial solutions to addressing women s and other marginalised groups descriptive underrepresentation As such it provides a much needed fresh look at party selection processes and draws new conclusions as to why political underrepresentation occurs and should inform policies to remedy it This text will be of key interest to scholars and students of gender and ethnicity in politics political parties and candidate selection and more broadly to the study of political elites comparative politics sociology labour studies gender race and disability studies and to practitioners **Passages to Power** Pippa Norris,1997-10-09 Recruitment to legislative office is one of the core functions of political systems yet we know little about how the process varies from one country to another Passages to Power provides a comparative account of legislative recruitment which applies a common analytical framework and new survey data to nineteen advanced democracies Legislative recruitment refers to the critical step as people move from lower levels of politics into parliamentary careers Who succeeds in becoming a politician Who fails And why Based on original research which adopts a new institutionalist perspective this 1997 book compares these issues in a wide range of countries This important study brings together an outstanding group of international scholars to look at recruitment around the world The countries examined in depth include Australia Canada Finland Germany Japan the Netherlands New Zealand the United Kingdom and the United States along with a comparison of all member states in the European Union *Political Recruitment* Pippa Norris,Joni Lovenduski,1995 Asking why some politicians succeed in moving into the highest offices of state while others fail this text examines the relative lack of women black and working class Members of Parliament and whether this evident social bias matters for political representation *Modernising the Labour Party* T. Quinn,2004-10-14 Few parties have undergone such comprehensive organizational change as the Labour Party since 1983 Labour s organization once institutionalised the political exchange between office seeking politicians and the party s policy seeking trade union paymasters Using accessible rational choice models Thomas Quinn explores how consecutive election defeats

*Reform in the House of Commons* Michael Jogerst, 2021-10-21 One of the most significant changes in the British House of Commons has been the development in 1979 of a system of select committees charged with monitoring government ministries Unlike previous experiments in parliamentary reform these committees are staffed exclusively with backbench MPs who regularly review executive policies and offer recommendations Michael Jogerst reappraises the relationship between the executive and legislative branches in light of these new circumstances which are likely to affect the entire governmental structure of the United Kingdom

Democracy and the Cartelization of Political Parties Richard S. Katz, Peter Mair, 2018-07-04 Political parties have long been recognized as essential institutions of democratic governance Both the organization of parties and their relationships with citizens the state and each other have evolved since the rise of liberal democracy in the 19th and early 20th centuries Going into the 21st century it appears that parties losing popular support putting both parties and potentially democracy in peril This book traces the evolution of parties from the model of the mass party through the catch all party model to argue that by the late 20th century the principal governing parties and their allied smaller parties collectively the political mainstream were effectively forming a cartel in which the form of competition might remain and indeed even appear to intensify while its substance was increasingly hollowed out The spoils of office were increasingly shared rather than restricted to the temporary winners contentious policy questions were kept off the political agenda and competition shifted from large questions of policy to minor questions of managerial competence To support this cartel the internal arrangements of parties changed to privilege the party in public office over the party on the ground The unintended consequence has been to stimulate the rise of extra cartel challengers to these cozy arrangements in the form of anti party system parties and populist oppositions on the left but especially on the right
