## **Patient Education Critical Thinking Series:**

Patient Education in Rehabilitation Olga Dreeben-Irimia, 2010-10-22 Patient education is an important aspect of the rehabilitation process. As a science, it consists of the health care professional's development of patient education skills. Delivering information, education, and training in rehabilitation is intended to promote and optimize clinical interventions including compliance, continuity of care, and patient satisfaction. This text applies patient education skills to the clinical rehabilitation process. In a reader-friendly manner, it explores various teaching and learning theories, models of instruction, as well as communication, ethical, legal, and cultural issues. **Education Series ...** Missouri Normal School (Kirksville), 1915

**Resources in Education**, 1998 **Critical Thinking and Writing in Nursing** Bob Price, Anne Harrington, 2018-11-24 A clear and practical guide to help students develop critical thinking, writing, and reflection skills. It explains what critical thinking is and how students should use it throughout their nursing programme. This new edition also provides content on the reflective practice requirements for revalidation and is mapped to the new 2018 NMC standards. This text provides an innovative new framework that helps students appreciate different levels of critical thinking and reflection required of degree-level study. The book demonstrates the transferable nature of critical thinking and reflection from academic contexts to the real practice of nursing. Key features: Clear and straightforward introduction to critical thinking directly written for nursing students with chapters relating the subject to specific study and practice contexts. Student examples and scenarios throughout, including running case studies from four nursing students. Each chapter is linked to the new NMC standards of proficiency for registered nurses. **Critical Thinking, Clinical Reasoning and Clinical Judgment**, 2016-01-01

The authors give particular attention to the cautions potential for harm and biases that the artificial intelligence technologies of algorithms and machine learning pose in healthcare. Additionally, they have tapped legal experts to review the legal statutes, government regulations, and civil rights law in place for patients' rights, privacy, and confidentiality, and consents for the United States, the United Kingdom, and the European Union. The book closes with a chapter written by the editors that envisions the near future, the impact that the new digital technologies will have on how care is delivered, expanding care settings into community and home, virtual monitoring, and patient-generated data, as well as the numerous ways that nurses' roles and technology skill sets must increase to support the global goals of equal access to healthcare.
