Patient Endurance The Great Famine In Connemara Patient Endurance The Great Famine In Connemara:

Patient Endurance Kathleen Villiers-Tuthill,1997 In 1841 Connemara had a population of 33 465 by 1851 that number was reduced through starvation fever and emigration to 21 349 This is the story of the people behind the statistics Back cover

The Great Famine Ciarán Ó Murchadha,2011-06-02 Over one million people died in the Great Famine and more than one million more emigrated on the coffin ships to America and beyond Drawing on contemporary eyewitness accounts and diaries the book charts the arrival of the potato blight in 1845 and the total destruction of the harvests in 1846 which brought a sense of numbing shock to the populace Far from meeting the relief needs of the poor the Liberal public works programme was a first example of how relief policies would themselves lead to mortality Workhouses were swamped with thousands who had subsisted on public works and soup kitchens earlier and who now gathered in ragged crowds Unable to cope workhouse staff were forced to witness hundreds die where they lay outside the walls The next phase of degradation was the clearances or exterminations in popular parlance which took place on a colossal scale From late 1847 an exodus had begun The Famine slowly came to an end from late 1849 but the longer term consequences were to reverberate through future decades

Connemara Tim Robinson,2007-06-19 The first volume in Tim Robinson s phenomenal Connemara Trilogy which Robert Macfarlane has called One of the most remarkable non fiction projects undertaken in English In its landscape history and folklore Connemara is a singular region ill defined geographically and yet unmistakably a place apart from the rest of Ireland Tim Robinson who established himself as Ireland s most brilliant living non fiction writer with the two volume Stones of Aran moved from Aran to Connemara nearly twenty years ago This book is the result of his extraordinary engagement with the mountains bogs and shorelines of the region and with its folklore and its often terrible history a work as beautiful and surprising as the place it attempts to describe Chosen as a book of the year by Iain Sinclair Robert Macfarlane and Colm T ib n One of the greatest writers of lands No one has disentangled the tales the stones of Ireland have to tell so deftly and retold them so beautifully Fintan O Toole Dazzling an indubitable classic Giles Foden Cond Nast Traveller He is that rarest of phenomena a scientist and an artist and his method is to combine scientific rigour with artistic reverie in a seamless blend that both informs and delights John Banville One of contemporary Ireland s finest literary stylists Joseph O Connor Guardian

Connemara Michael Gibbons,2004 **Eating People Is Wrong, and Other Essays on Famine, Its Past, and Its Future** Cormac Ó Gráda,2020-10-13 New perspectives on the history of famine and the possibility of a famine free world Famines are becoming smaller and rarer but optimism about the possibility of a famine free future must be tempered by the threat of global warming That is just one of the arguments that Cormac Gr da one of the world s leading authorities on the history and economics of famine develops in this wide ranging book which provides crucial new perspectives on key questions raised by famines around the globe between the seventeenth and twenty first centuries The book begins with a taboo topic Gr da argues that cannibalism while by no means a universal feature of famines and never

responsible for more than a tiny proportion of famine deaths has probably been more common during very severe famines than previously thought The book goes on to offer new interpretations of two of the twentieth century's most notorious and controversial famines the Great Bengal Famine and the Chinese Great Leap Forward Famine Gr da questions the standard view of the Bengal Famine as a perfect example of market failure arguing instead that the primary cause was the unwillingness of colonial rulers to divert food from their war effort The book also addresses the role played by traders and speculators during famines more generally invoking evidence from famines in France Ireland Finland Malawi Niger and Somalia since the 1600s and overturning Adam Smith's claim that government attempts to solve food shortages always cause famines Thought provoking and important this is essential reading for historians economists demographers and anyone else who is interested in the history and possible future of famine *Harriet Martineau's Writing on the British Empire, Vol 5* Deborah Logan,Antoinette Burton,Kitty Sklar,Patrick Brantlinger,2021-12-24 The literary presence of Harriet Martineau pervades 19th century English and American culture This edition makes her work available and focuses on her writings on imperialism It should be of interest to scholars of colonialism women's writing Victorian studies sociology and journalism

Confronting Genocide René Provost,Payam Akhavan,2010-11-11 Never again stands as one the central pledges of the international community following the end of the Second World War upon full realization of the massive scale of the Nazi extermination programme Genocide stands as an intolerable assault on a sense of common humanity embodied in the Universal Declaration of Human Rights and other fundamental international instruments including the Convention on the Prevention and Punishment of the Crime of Genocide and the United Nations Charter And yet since the Second World War the international community has proven incapable of effectively preventing the occurrence of more genocides in places like Cambodia Yugoslavia Rwanda and Sudan Is genocide actually preventable or is ever again a more accurate catchphrase to capture the reality of this phenomenon The essays in this volume explore the complex nature of genocide and the relative promise of various avenues identified by the international community to attempt to put a definitive end to its occurrence Essays focus on a conceptualization of genocide as a social and political phenomenon on the identification of key actors Governments international institutions the media civil society individuals and on an exploration of the relative promise of different means to prevent genocide criminal accountability civil disobedience shaming intervention *Irish Migrants in New Communities* Mícheál Ó hAodha,Máirtín Ó Catháin,2014-05-16 Irish migrants in new communities Seeking the Fair Land comprises the second collection of essays by these editors exploring fresh aspects and perspectives on the subject of the Irish diaspora This volume edited by Máirtín Ó Catháin and Mícheál Ó hAodha develops many of the oral history themes of the first book and concentrates more on issues surrounding the adaptation of migrants to new or host environments and cultures These new places often have a jarring effect as well as a welcoming air and the Irish bring their own interpretations hostilities and suspicions all of which are explored in a fascinating and original number of new perspectives **Irish**

1945: The Reckoning Phil Craig, 2025-04-24 As the fate of the world is decided so too is that of the British Dutch and French empires In India a generation committed to independence must decide whether to support the Raj or fight alongside the Japanese One military family is bitterly divided Will it be the brother who serves under British command or the one who follows Subhas Chandra Bose and his Indian National Army who goes on to help build a new and free India In Borneo a little known Australian special forces campaign secretly controlled from London goes horribly wrong as questions are asked about whether its true purpose is military or imperial And in Indochina and the East Indies British Generals free and arm Japanese prisoners of war and use them in savage campaigns that aim to put colonial rulers back into their palaces Clearing away the haze of nostalgia many uncomfortable truths emerge but so too does a humane and balanced exploration of what victory in the Second World War truly means *The Last Pool of Darkness* Tim Robinson, 2023-11-14 In the second volume of his beloved Connemara trilogy cartographer Tim Robinson continues to unearth the stories of this rich landscape in Ireland weaving placelore etymology geology and the meeting of sea and shore into the region s mythologies From the northern fiord waters of Killary Harbour to the southern sea washed islands of Slyne Head western Connemara awes with a rugged landscape sloping cliffs towering mountains and the ever present thudding of the Atlantic And here within the earth resides the record of the past stones with ash grey centers reveal volcanic episodes a series of mysteriously arranged quartz boulders reminds us of the ancient secrets held in the soil and a long disappeared lake filled in by sand lies beneath a golf course waiting to be rediscovered Mapping more than geography Tim Robinson charts Connemara s deep relationship to those who have inhabited its surface *The Last Pool of Darkness* brims with tales of ghosts centuries old land disputes periods of religious and political upheavals philosophers entranced by the isolating landscape poets mathematicians artists

fantastical smugglers the discovery of botanical rarities trickster fairies and the delicate balance between humans and nature Not merely a certain tract of the Earth's surface but an accumulation of connotations Robinson's Connemara offers readers an opportunity to travel across space and time A work of great precision and tenderness *The Last Pool of Darkness* is an enchanting addition to the Seedbank series and next chapter in one of the most remarkable non-fiction projects undertaken in English Robert Macfarlane

Listening to the Wind Tim Robinson, 2019-09-10 A mapmaker's vivid journey through the geography ecology and history of Ireland's Connemara region Here is Connemara experienced at a walker's pace From cartographer Tim Robinson comes the second title in the Seedbank series a breathtakingly intimate exploration of one beloved place's geography ecology and history We begin with the earth right in front of his boots as Robinson unveils swaths of fiontarnach fall leaf decay We peer from the edge of the cliff where Robinson's house stands on rickety stilts We closely examine an overgrown patch of heather a flush of sphagnum moss And so footstep by footstep moment by moment Robinson takes readers deep into this storied Irish landscape from the quibbling contentious terrain of Bogland to the shorelines of Inis N to the towering peaks of Twelve Pins Just as wild and essential as the countryside itself are its colorful characters friends and legends and neighbors alike a skeletal story filled sheep farmer an engineer who builds bridges both physical and metaphorical a playboy prince and cricket champion and an enterprising botanist who meets an unexpected demise Within a landscape lie all other things and Robinson rejoices in the universal magic of becoming one with such a place joining with the sound of the past the language we breathe and our frontage onto the natural world Situated at the intersection of mapmaking and mythmaking *Listening to the Wind* is at once learned and intimate elegiac and magnificent an exceptionally rich book about one place which is also about the whole world Robert Macfarlane

Visitors to Connemara that expanse of stony beauty in the west of Ireland are often struck by its stillness This collection of essays succeeds in the difficult task of staying true to the verities of a place on to which so many fantasies have been projected *The Guardian*

Potato John Reader, 2009-01-01 The potato humble lumpy bland familiar is a decidedly unglamorous staple of the dinner table Or is it John Reader's narrative on the role of the potato in world history suggests we may be underestimating this remarkable tuber From domestication in Peru 8 000 years ago to its status today as the world's fourth

largest food crop the potato has played a starring or at least supporting role in many chapters of human history In this witty and engaging book Reader opens our eyes to the power of the potato Whether embraced as the solution to hunger or wielded as a weapon of exploitation blamed for famine and death or recognized for spurring progress the potato has often changed the course of human events Reader focuses on sixteenth century South America where the indigenous potato enabled Spanish conquerors to feed thousands of conscripted native people eighteenth century Europe where the nutrition packed potato brought about a population explosion and today s global world where the potato is an essential food source but also the world s most chemically dependent crop Where potatoes have been adopted as a staple food social change has always followed It may be just a humble vegetable John Reader shows yet the history of the potato has been anything but dull
