Patrick White A Tribute:

Patrick White ,1991 Tribute to Patrick White ,1991 Patrick White Clayton Joyce,1991-01-01 Published to mark the first anniversary of Patrick White s death this book contains a collection of tributes to White by thirty eight well known Australians including Glen Tomasetti Elizabeth Jolley Jack Mundey and Chris Wallace Crabbe Contains previously unpublished photographs of White by William Yang Two hundred copies of a limited edition are also available **Patrick White Centenary** Bill Ashcroft,Cynthia vanden Driesen,2014-08-20 This volume marks the birth centenary of a giant amongst contemporary writers the Australian Nobel prize winning novelist Patrick White 1912 1990 It proffers an invaluable insight into the current state of White studies through commentaries drawn from an international galaxy of eminent critics as well as from newer talents The book proves that interest in White s work continues to grow and diversify Every essay offers a new insight some are re evaluations by seasoned critics who revise earlier positions significantly others admit new light onto what has seemed like well trodden terrain or focus on works perhaps undervalued in the past his poetry an early short story or novel which are now subjected to fresh attention His posthumous work has also won attention from prominent critics New comparisons with other international writers have been drawn in terms of subject matter themes and philosophy The expansion of critical attention into fields like photography and film opens new possibilities for enhancing further appreciation of his work White s interest in public issues such as the treatment of Australia s Indigenous peoples human rights and Australian nationalism is refracted through the inclusion of relevant commentaries from notable contributors For the first time in Australian literary history Indigenous scholars have participated in a celebration of the work of a white Australian writer All of this highlights a new direction in White studies the appreciation of his stature as a public intellectual The book demonstrates that White s legacy has limitless possibilities for further growth *Patrick White and God* Michael Giffin,2017-05-11 The novels of Australia s Nobel Laureate Patrick White 1912 1990 are a persistent commentary on Nietzsche s proclamation of God s death As White knew the proclamation was not about God s existence but about classical views of God it presented him with the impossible task of using language to describe what language cannot describe This has always been one of the more misunderstood aspects of his literary vision Because the announcement is often interpreted in antithetical ways atheistic theistic secular religious humanistic and fatalistic critics should gain a better understanding of what White was trying to achieve by comparing him with his post war contemporaries from England Scotland and Canada Iris Murdoch William Golding Muriel Spark and Robertson Davies After and because of the war these authors all commented on the consequences of God s death Along with White they worked with a shared pattern of tropes to explore the light and dark aspects of western consciousness and the civilization it has produced Where did the pattern come from Was it metaphysical or metapsychological These questions are complex as the pattern came from many sources simultaneously and synergistically but this book tackles these questions by describing that pattern **Patrick White Beyond the Grave** Ian

Henderson, Anouk Lang, 2015-08-15 Patrick White 1912 1990 won the Nobel Prize for Literature in 1973 and remains one of Australia's most celebrated writers. In 2006 White's literary executor Barbara Mobbs released a highly significant collection of hitherto unpublished papers reviving mainstream and scholarly interest in his work. Patrick White: Beyond the Grave considers White's writing in light of the new findings acknowledging his homosexuality in relation to the development of his literary style, examining the way he engages his readers and contextualizing his life and oeuvre in relation to London and to London life. Thought provoking, this collection of original essays represents the work of an outstanding list of White scholars from around the globe and will no doubt inspire further work on White from a rising generation of scholars of twentieth-century literature beyond Australia. *Otherness in the Novels of Patrick White* Alma Budurlean, 2009 The central argument of the thesis is the representation and reception of otherness is followed throughout White's novels with the support of a complex critical instrumentarium made up of postcolonial theory, reader response theory, cultural critical frameworks, alterity theory and narratology. Otherness in its manifold representations is a main component of Patrick White's fiction. It functions on several levels and this requires a deeper entanglement on the part of the reader. The different levels previously referred to are embodied in the various Others who people White's novels: ethnic Others as members of the Australian multicultural society and the Aborigines as colonial Others as well as gender Others who also play an important role in White's fictional world. Reading Patrick White is an exercise in tolerance, endurance and acceptance of alternatives. But the efforts of the reader do not remain unrewarded. In his endeavour to change what it meant to imagine Australia, the writer broke down the barriers of what it meant to imagine otherness. *Patrick White's Theatre* Denise Varney, 2021-09-01 Varney combines a theoretically astute sense of the hybridity of the dramatic event with a dense but lucidly rendered sociological history of White's plays as they progress through different productions, revivals and receptions. This is an essential insight and one which could be usefully extended to White's novels and perhaps to Australian modernism broadly. Jonathan Dunk, Australian Book Review. One of the giants of Australian literature and the only Australian writer to have won the Nobel Prize for Literature, Patrick White received less acclaim when he turned his hand to playwriting. In *Patrick White's Theatre* Denise Varney offers a new analysis of White's eight published plays, discussing how they have been staged and received over a period of 60 years. From the sensational rejection of *The Ham Funeral* by the Adelaide Festival in 1962 to 21st-century revivals incorporating digital technology, these productions and their reception illustrate the major shifts that have taken place in Australian theatre over time. Varney unpacks White's complex and unique theatrical imagination, the social issues that preoccupied him as a playwright and his place in the wider Australian modernist and theatrical traditions. **Patrick White's Fiction** Carolyn Bliss, 1986-08-18 This study examines all eleven novels of Patrick White, the great Australian writer and Nobel Prize winner. It begins from the observation that major characters in his novels undergo a necessary redemptive or facilitating failure. This failure paradoxically enables their success within the context of what White has called the

overreaching grandeur which circumscribes human existence Evolution of this theme is traced through forty years of White's fiction from his first novel *Happy Valley* 1939 to his most recent work *The Twyborn Affair* 1979 Comprehensive in its scope this book is informed by a thorough knowledge of White's poetry plays short stories and autobiography as well as his novels It is also unique in stressing that White's world view derives from a distinctly Australian experience It thus links him to a country in which he is deeply rooted and to a heritage he continued to affirm

The Cambridge Companion to the Australian Novel Nicholas Birns, Louis Klee, 2023-03-02 This book provides a clear lively and accessible guide to the complex histories and vital present of the Australian novel

Patrick White Brian Hubber, Vivian Brian Smith, 2004 This new bibliography provides a comprehensive description of all editions and translations of White's work It also lists reviews of first and other significant editions and includes accounts of the composition and reception of each work

Backgazing: Reverse Time in Modernist Culture Paul Giles, 2019-02-14 This volume traces ways in which time is represented in reverse forms throughout modernist culture from the beginning of the twentieth century until the decade after World War II Though modernism is often associated with revolutionary or futurist directions this book argues instead that a retrograde dimension is embedded within it By juxtaposing the literature of Europe and North America with that of Australia and New Zealand it suggests how this antipodean context serves to defamiliarize and reconceptualize normative modernist understandings of temporal progression Backgazing thus moves beyond the treatment of a specific geographical periphery as another margin on the expanding field of New Modernist Studies Instead it offers a systematic investigation of the transformative effect of retrograde dimensions on our understanding of canonical modernist texts The title backgazing is taken from Australian poet Robert G Fitzgerald's 1938 poem *Essay on Memory* and it epitomizes how the cultural history of modernism can be restructured according to a radically different discursive map Backgazing intellectually reconfigures US and European modernism within a planetary orbit in which the literature of Australia and the Southern Hemisphere far from being merely an annexed margin can be seen substantively to change the directional compass of modernism more generally By reading canonical modernists such as James Joyce and T S Eliot alongside marginalized writers such as Nancy Cunard and others and relatively neglected authors from Australia and New Zealand this book offers a revisionist cultural history of modernist time one framed by a recognition of how its measurement is modulated across geographical space

Patrick White Within the Western Literary Tradition John Beston, 2010 Representing the author's interest spanning over thirty five years the essays expose White's evocation of dimensions other than material reality his preoccupation with epiphanies and mythmaking and his constant forging of a poetic style

thousands of miles their experience of colonial modernity was startlingly analogous as white settler women bent on forging artistic careers in a male dominated world and sphere rigged against them Through all this though their cultural importance endures two remarkable women whose poetry and painting still speak to us today of their passionate belief in the transformative power of art

The Routledge Companion to Australian Literature Jessica Gildersleeve, 2020-12-22 In recent years Australian literature has experienced a revival of interest both domestically and internationally The increasing prominence of work by writers like Christos Tsiolkas heightened through television and film adaptation as well as the award of major international prizes to writers like Richard Flanagan and the development of new high profile prizes like the Stella Prize have all reinvigorated interest in Australian literature both at home and abroad This Companion emerges as a part of that reinvigoration considering anew the history and development of Australian literature and its key themes as well as tracing the transition of the field through those critical debates It considers works of Australian literature on their own terms as well as positioning them in their critical and historical context and their ethical and interactive position in the public and private spheres With an emphasis on literature's responsibilities this book claims Australian literary studies as a field uniquely positioned to expose the ways in which literature engages with produces and is produced by its context provoking a critical re evaluation of the concept of the relationship between national literatures cultures and histories and the social function of literary texts
