**Making Sense of the Vietnam Wars** Mark Philip Bradley, Marilyn B. Young,2008-04-30 Making sense of the wars for Vietnam has had a long history The question why Vietnam dominated American and Vietnamese political life for much of the length of the wars and has continued to be asked in the decades since they ended This volume brings together the work of eleven scholars to examine the conceptual and methodological shifts that have marked the contested terrain of Vietnam War scholarship Editors Marilyn Young and Mark Bradley s superb group of renowned contributors spans the generations including those who were active during wartime along with scholars conducting research in Vietnamese sources and uncovering new sources in the United States former Soviet Union China and Eastern and Western Europe Ranging in format from top down reconsiderations of critical decision making moments in Washington Hanoi and Saigon to microhistories of the war that explore its meanings from the bottom up these essays comprise the most up to date collection of scholarship on the controversial historiography of the Vietnam Wars      *A Force Profonde* Edward A. Kolodziej,2013-07-17 Presenting detailed

portraits by leading authorities of the politics of human rights across the major regions of the globe *A Force Profonde* The Power Politics and Promise of Human Rights reveals human rights to be a force as powerful as capitalist markets and technological innovation in shaping global governance Human rights issues mobilize populations regardless of their national ethnic cultural or religious differences Yet progress in advancing human rights globally as Edward A Kolodziej and the other contributors to the volume contend depends decisively on the local support and the efforts of the diverse and divided peoples of the world a prerequisite that remains problematic in many parts of the globe *A Force Profonde* explores conceptions of human rights from Western as well as other major world traditions in an attempt to dispel the notion that tyranny culture and religion are the only challenges to human rights Focusing on regional patterns of conflict the authors point out that violations often have to do with disputes over class social status economic privilege and personal power In addition they contend that conflicts over identity are more prevalent in the West than commonly thought Sharply conflicting views are to be found between the European Union and the United States over issues like the death penalty Splits within the West between rival Christian sects and between religious adherents and partisans of secularization are no less profound than those in other regions

**Misalliance** Edward Miller,2013-04-15 Diem s alliance with Washington has long been seen as a Cold War relationship gone bad undone by either American arrogance or Diem s stubbornness Edward Miller argues that this misalliance was more than just a joint effort to contain communism It was also a means for each side to shrewdly pursue its plans for nation building in South Vietnam      *Vietnam's Lost Revolution* Geoffrey C. Stewart,2017-03-24 Vietnam s Lost

Revolution employs archival material from Vietnam to examine the First Republic of Vietnam's Civic Action program designed to recast the newly independent state as a modern anticommunist nation. This book engages with topics like nationalism, post-colonialism, and development in its examination of events that led to the Vietnam War. Cauldron of Resistance Jessica M. Chapman, 2013-02-19. In 1955, Ngo Dinh Diem organized an election to depose chief of state Bao Dai, after which he proclaimed himself the first president of the newly created Republic of Vietnam. The United States sanctioned the results of this election, which was widely condemned as fraudulent, and provided substantial economic aid and advice to the RVN. Because of this, Diem is often viewed as a mere puppet of the United States in service of its Cold War geopolitical strategy. That narrative, Jessica M. Chapman contends in *Cauldron of Resistance*, grossly oversimplifies the complexity of South Vietnam's domestic politics, and indeed Diem's own political savvy. Based on extensive work in Vietnamese, French, and American archives, Chapman offers a detailed account of three crucial years, 1953-1956, during which a new Vietnamese political order was established in the south. It is in large part a history of Diem's political ascent as he managed to subdue the former Emperor Bao Dai, the armed Hoa Hao and Cao Dai religious organizations, and the Binh Xuyen crime organization. It is also an unparalleled account of these same outcast political powers, forces that would reemerge as destabilizing political and military actors in the late 1950s and early 1960s. Chapman shows Diem to be an engaged leader whose personalist ideology influenced his vision for the new South Vietnamese state but also shaped the policies that would spell his demise. Washington's support for Diem because of his staunch anticommunism encouraged him to employ oppressive measures to suppress dissent, thereby contributing to the alienation of his constituency and helping inspire the organized opposition to his government that would emerge by the late 1950s and eventually lead to the Vietnam War. *Cambodian Buddhism in the United States* Carol A. Mortland, 2017-07-25. *Cambodian Buddhism in the United States* is the first comprehensive anthropological study of Khmer Buddhism as practiced by Khmer refugees in the United States. Based on research conducted at Khmer temples and sites throughout the country over a period of three and a half decades, Carol A. Mortland uses participant observation, open-ended interviews, life histories, and dialogues with Khmer monks and laypeople to explore the everyday practice of Khmer religion, including spirit beliefs and healing rituals. This ethnography is enriched and supplemented by the use of historical accounts, reports, memoirs, unpublished life histories, and family memorabilia painstakingly preserved by refugees. Mortland also traces the changes that Cambodians have made to religion as they struggle with the challenges of living in a new country, learning English, and supporting themselves. The beliefs and practices of Khmer Muslims and Khmer Christians in the United States are also reviewed. **Amma's Daughters** Meenal Shrivastava, 2018-07-31. As a precocious young girl, Surekha knew very little about the details of her mother Amma's unusual past and that of Babu, her mysterious and sometimes absent father. The tense, uncertain family life created by her parents' distant and fractious marriage and their separate ambitions informs her every action and emotion. Then one evening in a

moment of uncharacteristic transparency and vulnerability Amma tells Surekha and her older sister Didi of the family tragedy that changed the course of her life Finally the daughters begin to understand the source of their mother's deep commitment to the Indian nationalist movement and her seemingly unending willingness to sacrifice in the name of that pursuit In this re memory based on the published and unpublished work of Amma and Surekha Meenal Shrivastava Surekha's daughter uncovers the history of the female foot soldiers of Gandhi's national movement in the early twentieth century As Meenal weaves these written accounts together with archival research and family history she gives voice and honour to the hundreds of thousands of largely forgotten or unacknowledged women who threatened with imprisonment for treason and sedition relentlessly and selflessly gave toward the revolution

**Cambodia ,** Post-Colonial Nations in Historical and Cultural Context Dmitri M. Bondarenko, 2023-05-30 Using historical and anthropological analysis in Post Colonial Nations in Historical and Cultural Context Dmitri M Bondarenko examines nation building in Tanzania Uganda and Zambia He examines the nation and state as concepts and how these are changing globally particularly in regard to the idea that the fundamental characteristic of a nation is a culturally homogeneous community This feature became a cornerstone of the concept of the nation at its formation in the West by the end of the eighteenth century but post colonial migration flows from the Global South to the Global North are increasing multi culturalism in the North In contrast liberated states of Asia and Africa have been multi cultural from earlier on as they inherited the colonial borders in which typically many peoples were united Throughout the book Bondarenko argues that this history of multi culturalism is an advantage to development in the Global South and that it's necessary to depart from the classical Western concept of the nation to simultaneously support citizen unity while preserving cultural diversity
