Lucretian Receptions in Prose George Kazantzidis, 2024-09-02 The examination of Lucretian reception in Latin poetry has been served well by scholars Lucretius presence in later prose writers on the other hand is a topic that warrants more investigation Susanne Gatzemeier's 2013 monograph *Ut ait Lucretius Die Lukrezrezeption in der lateinischen Prosa bis Laktanz* is an invaluable contribution to the topic but by no means exhaustive either in terms of the potential intertextualities it traces or in terms of its interpretive methods and insights At the same time recent studies implicate Lucretius name in discussions of prose writers who were not that often thought in the past to have engaged with the *De Rerum Natura* in an active way Caesar and Livy but also Vitruvius and Tacitus are some good examples The present volume taps into this discussion and broadens further our understanding of Lucretian reception in prose writers including Cicero Celsus Seneca the Younger Quintilian Pliny the Younger Plutarch and Lactantius Building on the vast scholarship on the significance of Lucretius as a model for later poets the volume sheds new light on the *De Rerum Natura*'s afterlife by looking at its presence in philosophical prose medical writing oratory epistolary writing and Christian theology *The Oxford Handbook of Epicurus and Epicureanism* Phillip Mitsis, 2020 Most complete and detailed account of all areas of Epicurus's philosophy in English Includes a detailed and authoritative account of Philodemus Examines later historical figures who were influenced by Epicureanism Explores the Herculaneum papyri and the inscription of Diogenes of Oenoanda Book jacket *Teaching through Images*, 2021-12-20 In ancient didactic poetry poets frequently make use of imagery similes metaphors acoustic images models exempla fables allegory personifications and other tropes as a means to elucidate and convey their didactic message In this volume which arose from an international conference held at the University of Heidelberg in 2016 we investigate such phenomena and explore how they make the unseen visible the unheard audible and the unknown comprehensible By exploring didactic poets from Hesiod to pseudo Oppian and from Vergil and Lucretius to Grattius and Ovid the authors in this collective volume show how imagery can clarify and illuminate but also complicate and even undermine or obfuscate the overt didactic message The presence of a real or implied addressee invites our engagement and ultimately our scrutiny of language and meaning The Poetry of Knowledge and the 'Two Cultures' John G. Fitch, 2018-05-16 This book argues that poetry is compatible with systematic knowledge including science and indeed inherent in it it also discusses particular poems that engage with such knowledge including those of Lucretius Vergil and Vita Sackville West The book argues that there are substantial similarities between knowledge making and poetry making for

example in their being shaped by language including metaphor and in their seeking unity in the world under the impulse of eros and pleasure The book also discusses some of the obstacles to a poetry of knowledge including scientific objectivism the Kantian tradition in philosophy and the separation of the two cultures in our academic and intellectual institutions The book is designed to be accessible to all those interested in the issue of the two cultures or in the role of poetry and of science in contemporary culture

Fakes and Forgers of Classical Literature Javier Martínez, 2014-01-16 Right from the beginning classical literature has been embroiled with questions of authenticity fakes frauds and of course scandal Issues of dubious authorship and contested authority confront philologists critics and publishers today as surely as they did in the classical era itself The new era of postmodernism however encourages us to look at the work of the forger with fresh eyes and recent scholarship reflects this in an interdisciplinary approach which goes well beyond the conventional academic endeavor to separate the authentic from the fake Fakes and Forgers of Classical Literature comprises essays from an international cast of scholars who in their diverse and creative approaches to questions of authenticity both old and new radically revise the position of the forged text in the literary tradition and in light of modern approaches of philology and literary criticism offer exciting new strategies for understanding forgery and the play with authenticity within ancient literature itself

Vergil, Philodemus, and the Augustans David Armstrong, Jeffrey Fish, Patricia A. Johnston, Marilyn B. Skinner, 2010-01-01 The Epicurean teacher and poet Philodemus of Gadara c 110 c 40 35 BC exercised significant literary and philosophical influence on Roman writers of the Augustan Age most notably the poets Vergil and Horace Yet a modern appreciation for Philodemus place in Roman intellectual history has had to wait on the decipherment of the charred remains of Philodemus library which was buried in Herculaneum by the eruption of Vesuvius in 79 AD As improved texts and translations of Philodemus writings have become available since the 1970s scholars have taken a keen interest in his relations with leading Latin poets The essays in this book derived from papers presented at the First International Symposium on Philodemus Vergil and the Augustans held in 2000 offer a new baseline for understanding the effect of Philodemus and Epicureanism on both the thought and poetic practices of Vergil Horace and other Augustan writers Sixteen leading scholars trace his influence on Vergil s early writings the Eclogues and the Georgics and on the Aeneid as

well as on the writings of Horace and others The volume editors also provide a substantial introduction to Philodemus philosophical ideas for all classicists seeking a fuller understanding of this pivotal figure *A Commentary on Ovid's Metamorphoses* Alessandro Barchiesi, Phillip Hardie, 2024-02 The first complete commentary in English on Ovid's *Metamorphoses* covering textual interpretation poetics imagination and ideology *Virgil's Experience* Richard Jenkyns, 1998-11-26 This book studies Virgil's ideas of nature history sense of nation and sense of identity It is exact and patient in its probing for nuance and detail but also bold wide and original in its scope It combines the study of Virgil with the study of attitudes to nature throughout antiquity Blending literature with history and in the case of Lucretius philosophy it offers a vision and an interpretation of the culture of the 1st century BC as a whole It argues that Lucretius and Virgil affected a revolution in Western sensibility claiming that a book about poetry should be a book about life it combines scholarship and precision with a sense of the importance of literature and its capacity to enhance our understanding of our past and of ourselves **Aspects of the Language of Latin Poetry** Roland Mayer, James Noel Adams, 1999 Of the peoples of ancient Italy only the Romans committed newly composed poems to writing and for about 250 years Latin speakers developed an impressive verse literature The language had traditional resources of high style e g alliteration lexical and morphological archaism or grecism and of course metaphor and word order and there were also less obvious resources in the technical vocabularies of law philosophy and medicine The essays in this volume show how the poets in the classical period combined these elements and so created a poetic medium that could comprehend satire invective erotic elegy drama lyric and the grandest heroic epics These wide ranging studies will be essential reading for all students of Latin **Prudentius and the Landscapes of Late Antiquity** Cillian O'Hogan, 2016 *Prudentius and the Landscapes of Late Antiquity* offers a thematic analysis of the poetry of the late Latin poet Prudentius focusing in particular on his descriptions of the geographical and cultural landscapes of late antiquity Cillian O'Hogan sets Prudentius in the context of other late antique authors including Lactantius Jerome Augustine and Ennodius and argues that the poet makes use of allusion to Augustan and early imperial Latin authors to present the late Roman landscape as one markedly altered by the arrival of Christianity though retaining the grandeur of the pagan past This volume examines his conception of the world as a text his use of intertextuality to describe literary journeys his view of the civic function of Christian martyrdom his conception of heaven and his attitude towards art and architecture combining philological and intertextual criticism with approaches drawn from the fields of book history cultural geography and theology to paint a fuller and richer picture of the greatest of the Christian Latin poets
