Armitage,2000-06-30 Armitage taught for one year in a British grammar school from 1971 to 1972 when the school amalgamated with a secondary modern school to form a comprehensive school He followed the political practices and episodes of the amalgamation in relation to their political and educational significance The amalgamation seemed to result in an ineffective and underperforming school and he tried to introduce practical and constructive changes His narrative describes his political struggle to reform the school in the face of an anti democratic and authoritarian culture The causes of failure are analyzed and the real complex and messy functioning of a school system uncovered The need to understand the politics and culture of schooling is advocated A model of micropolitical action and responsibility is demonstrated that could help result in improvement of educational institutions

The English School Malcolm Seaborne,Roy Lowe,2020-09-10 Britain has a rich heritage of school buildings dating from the later Middle Ages to the present day While some of these schools have attracted the attention of architectural historians they have not previously been considered from the educational viewpoint Even schools of little or no architectural interest are important sociologically since the changing architecture of schools reflects changing ideas about how children should be educated and organized for teaching purposes In this second volume originally published in 1977 Malcolm Seaborne and Roy Lowe carry the historical record into our own time Like its predecessor the volume studies the development of school architecture and its influence on the organization of the school and relates architectural questions to the educational and social forces which influence the design of schools The authors have chosen representative examples which illustrate the main trends in the development of school design and construction **TVEI** Colin McCabe,1986 This book discusses how a range of organisations is developing based on the evaluation by teachers heads project directors and co ordinators advisers lecturers and administrators of the knowledge gained after up to two years actual experience of running their pilot schemes of the Technical and Vocational Education Initiative TVEI Educational Documentation and Information ,1975 *Bulletin of the International Bureau of Education* International Bureau of Education,1975 *Education* ,1972 **Motivating Your Secondary Class** Maurice Galton,Susan Steward,Linda Hargreaves,Charlotte Page,Anthony Pell,2009-08-24 Why do so many pupils in Years 7 8 and 9 switch off and make very little progress in the core subjects such as English and mathematics What can teachers and schools do to improve pupils attitudes and motivation Maurice Galton and his team have collected examples from various schools of what works in re energising demotivated pupils This book presents practical advice and strategies for improving lower secondary school classrooms ranging from reducing class size to innovative induction programmes emphasising the development of core study skills and developing effective procedures to train pupils to cooperate rather than confront each other during lessons Chapters cover Making a Good Start to Secondary Education Creating a Cooperative Classroom Climate Improving Communication between Pupils and Teachers Why are some classrooms more successful How can school structures influence positive relationships The book is a much needed resource for all secondary teachers and is particularly useful for year and subject heads Role, Function and Status of the Teacher Ingrid Helmke,1975 **School and Society** Open University.
