The Making of Paul Klee's Career, 1914-1920 Otto Karl Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O K Werckmeister traces Klee's career as a professional artist concentrating on the years 1914 20 in which Klee rose from obscurity to recognition in the

visual culture of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee's sales reviews of his exhibitions the artist's published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee's transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee's success first in the war weary modernist art world of 1916-18 and then in the pseudo revolutionary art world of 1919-20 This work is a critical challenge to the myth of Klee's art and to the hagiography of his artistic personality Werckmeister's historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come The Worldwide Art Catalogue Bulletin, 1985 *Paul Klee and His Illness* H. Suter, 2010-02-01 In 1933 Paul Klee's work was branded as Entartete Kunst Degenerate Art by the National Socialists and he was dismissed from his professorial post at the Düsseldorf Academy of Fine Arts This led him together with his wife Lily to return to his real home of Bern Here his avant garde art was not understood and Klee found himself in unasked for isolation In 1935 Klee started to suffer from a mysterious disease The symptoms included changes to the skin and problems with the internal organs In 1940 Paul Klee died but it was only 10 years after his death that the illness was actually given the name scleroderma in a publication about Klee However the diagnosis remained mere conjecture Since his adolescence the dermatologist and venereologist Dr Hans Suter has been fascinated by Paul Klee and his art and more than 30 years ago this fascination spurred him to commence research into the illness and its influence on the art of Paul Klee's final years It was due to Dr Suter's meticulous investigations that Klee's illness could be defined as diffuse systemic sclerosis In this book the author assembles his findings and describes the rare and complex disease in a clear and comprehensible way Further he empathetically interprets more than 90 of Klee's late works The point of view of a dermatologist renders a unique source of information It provides on one hand new insights into everyday medical practices at the University of Bern in the 1930s which will fascinate doctors and local historians alike While on the other hand art historians and art lovers will be absorbed by the newly discovered links between Paul Klee's work and his illness Paul Klee Kathryn Porter Aichele, 2006 Sumario The artist poet painter I am a poet after all The poetic and the pictorial A poetic personal idea of landscape Harmonizing architectonic and poetic painting Poems in pictorial script Klee and concrete poetry What counts as poetry *Paul Klee, His Life and Work* Paul Klee, 2001 In the course of his creativity Klee developed his artistic will slowly almost hesitantly His work formed organically Undogmatic and open to all graphic life he let himself be inspired by the art of the past and the present Fairytale lyrics and grotesque satire tender jesting and real demonism profound mysticism and sober romanticism live in Klee's work which always radiates his personal sphere with all its variety

In this monograph an immensely compressed picture of the artistic as well as the human side of his career evolves by way of the extensive pictorial material and accompanying essays a picture which gives information about Klee's contribution to the expansion of artistic articulation Jacket Paul Klee Paul Klee, 2002 Paul Klee best known for his mastery of color and semi abstract patchwork paintings of squares completed more than 10 000 paintings drawings and etchings during his life His work is difficult to classify but widely admired and highly sought after Carl Djerassi scientist novelist philanthropist most famous for inventing the birth control pill was a great fan of Klee and amassed one of the most important private collections of his work in the world This catalog reproduces highlights from the collection now owned by the San Francisco Museum of Modern Art including full color images of nearly one hundred rarely published works These drawings sketches gouache and watercolors reflect the whole of Klee's short but prolific career and are among his most beautiful and important works The text includes background and critical commentary from noted Klee experts In addition an interview with Djerassi reveals his artistic endeavors and passion for Klee a creative genius whose energy versatility productivity and vision speak volumes to the scientist and anyone interested in the inventive power of the imagination Paul Klee Roland Doschka, 2001 Produced in close cooperation with the Klee Foundation in Bern this catalogue gathers together the artist's outstanding masterpieces of the years 1917 to 1933 This extraordinary survey which includes works which Klee originally intended to keep for himself has been made possible by loans from the collection of Angela Rosengart in Lucerne the Klee Foundation in Bern and many private collectors Many of these works are being presented to a wide audience for the first time Klee is widely seen as one of the most original artists of the twentieth century Together with Feininger Kandinsky and Jawlensky he founded the Blue Four group and had a decisive influence on artists such as Miro and Delaunay The years 1917 to 1933 were the most productive in Klee's work *Paul Klee Drawings II, 1921-1936* Jurgen Glaesemer, 1984-01-01 *Form as Revolt* Sebastian Zeidler, 2016-01-22 The German writer and art critic Carl Einstein 1885 1940 has long been acknowledged as an important figure in the history of modern art and yet he is often sidelined as an enigma In *Form as Revolt* Sebastian Zeidler recovers Einstein's multifaceted career offering the first comprehensive intellectual biography of Einstein in English Einstein first emerged as a writer of experimental prose through his involvement with the anarchist journal *Die Aktion* After a few limited forays into art criticism he burst onto the art scene in 1915 with his book *Negro Sculpture* at once a formalist intervention into the contemporary theory and practice of European sculpture and a manifesto for the sophistication of African art Einstein would go on to publish seminal texts on the cubist paintings of Georges Braque and Pablo Picasso His contributions to the surrealist magazine *Documents* which Einstein cofounded with Georges Bataille including writings on Picasso and Paul Klee remain unsurpassed in their depth and complexity In a series of close visual analyses illustrated with major works by Braque Picasso and Klee Zeidler retrieves the theoretical resources that Einstein brought to bear on their art *Form as Revolt* shows us that to rediscover Einstein's art criticism is to see the work of great modernist artists anew through the eyes of one
