theology **Paul Tillich and the Possibility of Revelation through Film** Jonathan Brant, 2012-01-26 Since the birth of cinema at the end of the nineteenth century religion and film have been entwined The Jesus story and other religious narratives were the subject matter of some of the earliest cinema productions and this relationship has continued into the present A recent proliferation of texts conferences and courses bear witness to burgeoning academic interest in the relation between religion and film In this study Jonathan Brant explores the possibility that even films lacking religious subject matter might have a religious impact upon their viewers the possibility of revelation through film The book begins with a reading of Paul Tillich's theology of revelation through culture and continues with a qualitative research project which grounds this theoretical account in the experiences of a group of filmgoers The empirical research takes place in Latin America where the intellectual puzzle and central research questions that drive the thesis arose and developed Brant combines theoretical and empirical research in order to provide fresh insights into the way in which film functions and impacts its viewers and also offers an unusual perspective on the strengths and weaknesses of Tillich's theology of revelation which is seen to focus on the saving and healing power of revelation rather than its communicative content The grounding of the theory by the empirical data results in an increased appreciation of the sensitivity of Tillich's theology to the uniqueness of each film to viewer encounter and the data also suggests a new construal of the revelatory potential of film that is related to the community rather than the individual and to sustained life practice rather than momentary experience Brant reasons that Tillich's account is sensitive and compelling precisely because of its phenomenological attentiveness to real life experience notably Tillich's own experience of the power of art However Brant also suggests that it might be helpful to identify a stronger link than Tillich allows between the subject matter of the artwork the content of revelation and the effect of revelation

Paul Tillich and His System of Paradoxical Correlation Charles Amarkwei, 2020-05-05 This book shows the paradoxical mode by which Christians keep their faith in the Christian message as they relate with science It reveals how Paul Tillich's method of correlation helps us to understand how Christians interact with science without necessarily conflicting separating and dialoguing and synthesizing with each other It rules out natural theology but provides a non eclectic theology of nature that frees Christians to be involved in science meaningfully and without undermining their faith

Paul Tillich's Philosophical Theology George Pattison, 2014-12-19 Paul Tillich's Philosophical Theology takes up the challenge as to whether his thought remains relevant fifty years after his death In opposition to those who believe that his writings have little to say to us today this book argues that his thought is largely exemplary of open theological engagement with the contemporary intellectual situation [A History of the Quests for the Historical Jesus, Volume 2](#) Colin Brown, Craig A. Evans, 2022-11-08 A comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today's biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never

been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer s famous Old Quest to today s ongoing questions about criteria methods and sources A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One sold separately covers the period from the beginnings of Christianity to the end of World War II Volume Two covers the period from the post War era through contemporary debates Modern Christian Thought: The twentieth century James C. Livingston, Francis Schüssler Fiorenza, This widely acclaimed introduction to modern Christian thought formerly published by Prentice Hall provides full scholarly accounts of the major movements and thinkers theologians and philosophers in the Christian tradition since the eighteenth century Enlightenment together with solid historical background and critical assessments This second edition deals with the entire modern period in both Europe and America and is the first to include extensive treatment of modern Catholic thinkers Evangelical thought and Black and Womanist theology Truth and History - a Dialogue with Paul Tillich / Wahrheit und Geschichte - ein Dialog mit Paul Tillich Gert Hummel, 2020-10-12 No detailed description available for Truth and History a Dialogue with Paul Tillich Wahrheit und Geschichte ein Dialog mit Paul Tillich The Transformation of American Religion Amanda Porterfield, 2001-04-05 As recently as a few decades ago most people would have described America as a predominantly Protestant nation Today we are home to a colorful mix of religious faiths and practices from a resurgent Catholic Church and a rapidly growing Islam to all forms of Buddhism and many other non Christian religions How did this startling transformation take place A great many factors contributed to this transformation writes Amanda Porterfield in this engaging look at religion in contemporary America Religious activism disillusionment with American culture stemming from the Vietnam war the influx of Buddhist ideas a heightened consciousness of gender and the vastly broadened awareness of non Christian religions arising from the growth of religious studies programs all have served to undermine Protestant hegemony in the United States But the single most important factor says Porterfield was the very success of Protestant ways of thinking emphasis on the individual s relationship with God tension between spiritual life and religious institutions egalitarian ideas about spiritual life and belief in the practical benefits of spirituality Distrust of religious institutions for instance helped fuel a religious counterculture the

tendency to define spiritual truth against the dangers or inadequacies of the surrounding culture and Protestantism's pragmatic view of spirituality played into the tendency to see the main function of religion as therapeutic For anyone interested in how and why the American religious landscape has been so dramatically altered in the last forty years The Transformation of Religion in America offers a coherent and persuasive analysis

Youth Beyond the Developmental Lens Wesley W. Ellis, 2024 Wesley Ellis exposes the harmful impact of developmental psychology in youth ministry proposing a theological anthropology that frees us for deeper relationship with young people Propelled by the conviction that we must see youth as beings rather than becomings Ellis reorients us toward relational inclusion and away from rigid developmentalism

The Cross at the Heart of the Church Petre Maican, 2025-09-18 Can Eastern Orthodoxy apply the term church to other Christian communities Emerging from the 2016 Pan Orthodox Council this issue sparked one of the most heated debates in contemporary Eastern Orthodoxy According to Maican grappling with this question within the current framework of Eastern Orthodox ecclesiology presents significant challenges In this unifying work he argues that neither the emphasis on the Eucharist nor the adherence to the Tradition of the Fathers is capable of accommodating legitimate Christian otherness Instead Maican proposes a cruciform ecclesiology positing the cross as not only foundational to doctrines and sacraments but also as the primary criterion for discerning the ecclesial nature of a community Through dialogue with Dumitru Staniloae Hans Urs von Balthasar and Paul Tillich this book employs a conversationalist approach to this intricate problem Ultimately Maican provides a nuanced examination of the cross in ecclesiology yielding bold propositions for recognizing the ecclesial status of other Christian communities
