Thune* Jon K. Lauck,2016-04-18 The story behind the

unseating of a Senate majority leader the race between Tom Daschle and John Thune in South Dakota was widely acknowledged as the other big race of 2004 Second in prominence only to the presidential race the Daschle Thune contest pitted the rival political ideologies that have animated American politics since the 1960s In a sign of the ongoing strength of political conservatism Daschle became the first Senate leader in fifty years to lose a re election bid Historian Jon K Lauck a

South Dakotan who was an insider during that heated campaign now offers a multilayered examination of this hard fought and symbolically charged race. Blending historical narrative, political analysis and personal reflection, he offers a close up view of the issues that divide the nation, a case study of the continuing clash between liberalism and conservatism that has played out for more than a generation in U S politics. Daschle vs Thune moves beyond the nitty gritty of public policy to deftly show how the recent past continues to shape the ongoing political battles that animate pundits and bloggers. It is a compelling story told by a writer who knows both his home ground and how it fits into the wider U S context. **Report Cards** Wade H. Morris, 2023-09-26

The definitive history of the report card. Report cards represent more than just an account of academic standing and attendance. The report card also serves as a tool of control and as a microcosm for the shifting power dynamics among teachers, parents, school administrators and students. In *Report Cards: A Cultural History*, Wade H. Morris tells the story of American education by examining the history of this unique element of student life. In the nearly two hundred year evolution of the report card, this relic of academic bookkeeping reflected broader trends in the United States: the republican zealotry and religious fervor of the antebellum period; the failed promises of postwar Reconstruction for the formerly enslaved; the changing gender roles in newly urbanized cities; the overreach of the Progressive child saving movement in the early twentieth century; and by the 1930s, the increasing faith in an academic meritocracy. The use of report cards expanded with the growth of school bureaucracies, becoming a tool through which administrators could surveil both student activity and teachers. And by the late twentieth century, even the most radical critics of numerical reporting of children have had to compromise their ideals. Morris traces the evolution of how teachers, students, parents and administrators have historically responded to report cards. From a western New York classroom teacher in the 1830s and a Georgia student in the 1870s who was born enslaved, to a Colorado student incarcerated in the early 1900s and the son of Russian Jewish immigrants applying to college in the 1930s, *Report Cards* describes how generations of people have struggled to maintain dignity within a system that reduces children to numbers on slips of paper.

The Liberal Heartland Jon K. Lauck, Catherine McNicol Stock, 2025-04-29 Over the last two decades the political narrative of the liberal coasts and the conservative heartland has become something of a truism leading many Democrats to write off much of the Midwest as a Republican stronghold Today's polarized divide between rural and urban voters makes it easy to forget that things have not always been this way The Liberal Heartland is a powerful reminder that the American Midwest has a progressive legacy that rivals the coasts Across twenty chapters The Liberal Heartland traces the political history of this region from the post New Deal period to the rise of the New Right and Donald Trump's right wing populism The contributors explore the way liberals and progressives across the Midwest fought for expanding environmental protection engaged in community activism developed a queer labor coalition before Stonewall struggled for women's rights and representation in the Great Plains states opposed the death penalty and mobilized for Indigenous self determination among other topics In addition to well known leaders like Harry Truman and George McGovern the book highlights lesser known figures such as Lydia Cady Langer Mary Jean Collins Richard Hatcher Jim Jontz and Paul Wellstone A companion to the 2020 volume The Conservative Heartland The Liberal Heartland explores the history of the Midwest from a less acknowledged perspective recounting often forgotten stories that demonstrate the importance of the Midwest for New Deal liberalism and various forms of left wing politics This is a long overdue book that represents a fresh look at the American heartland *John Lewis* Raymond Arsenault, 2024-01-16 The first full length biography of civil rights hero and congressman John Lewis A New Yorker Best Book of 2024 Selection The perfect book at the right time Michael Henry Adams The Guardian For six decades John Robert Lewis 1940 2020 was a towering figure in the U S struggle for civil rights As an activist and progressive congressman he was renowned for his unshakable integrity indomitable courage and determination to get into good trouble In this first book length biography of Lewis Raymond Arsenault traces Lewis's upbringing in rural Alabama his activism as a Freedom Rider and leader of the Student Nonviolent Coordinating Committee his championing of voting rights and anti poverty initiatives and his decades of service as the conscience of Congress Both in the streets and in Congress Lewis promoted a philosophy of nonviolence to bring about change He helped the Reverend Martin Luther King Jr and other civil

rights leaders plan the 1963 March on Washington where he spoke at the Lincoln Memorial Lewis's activism led to repeated arrests and beatings most notably when he suffered a skull fracture in Selma Alabama during the 1965 police attack later known as Bloody Sunday He was instrumental in the passage of the Voting Rights Act of 1965 and in Congress he advocated for racial and economic justice immigration reform LGBTQ rights and national health care Arsenault recounts Lewis's lifetime of work toward one overarching goal realizing the beloved community an ideal society based in equity and inclusion Lewis never wavered in this pursuit and even in death his influence endures inspiring mobilization and resistance in the fight for social justice

Doorstep Democracy James H. Read, 2008 The famous Tip O'Neill axiom all politics is local comes alive in this chronicle of Democrat James H Read's hard fought but unsuccessful by 98 votes bid for state legislature in the socially conservative communities of Stearns and Morrison Counties Minnesota Read door knocked 7 500 households during his campaign visiting with voters and engaging in genuine dialogue on doorsteps from St Anthony to St Joseph At once a memoir of a hard fought contest and a meditation on the state of American democracy Read's work contrasts the modern media driven political campaign where candidates glean their knowledge of voters from pollsters and communication only flows one way with the kind of true understanding of constituents and issues that can only grow from individual encounters Face to face doorstep conversations he claims give a candidate or volunteer and voter an opportunity to truly persuade and learn from one another In a district where the pro life movement dominated politics Read's invitation to honestly discuss abortion and reject single issue politics resonated with many voters Refusing the red state versus blue state view of American voters Doorstep Democracy shows the power and importance of kitchen table politics people sitting down together to tackle the issues that affect us and proves that voters and candidates can be convinced to change their minds Read ultimately demonstrates how conversations between citizens concerned about their communities can get us beyond the television ads mass mailings and sound bites to rejuvenate American democracy
