dangers of take off and landing procedures lies the airport the concrete manifestation of airspace The airport is a locale of anxiety and chance where in order to expedite air traffic authority is absolute time is relative and liberties are always taken David Pascoe's wide ranging book blends personal observation with detailed discussions of social history air accidents landscape architecture politics aesthetics literature and film to provide a striking account of the airport as a unique space and singular form of modernity a place fundamental to any accurate sense of what we are now and where we are going eclectic and intelligent a thought provoking analysis Financial Times the scope of Mr Pascoe's rumination is impressive The Economist
