multifaceted temperament of Klee's lifelong dialogue with nature. His complex approach on the one hand analytically objective and on the other radically subjective is also explored, as is his understanding of art as a process of creation similar to nature itself. **BOOK JACKET Zentrum Paul Klee**, 2005 **Paul Klee and His Illness** Hans Suter, 2010. In 1933 Paul Klee's work was branded as Entartete Kunst (Degenerate Art) by the National Socialists and he was dismissed from his professorial post at the Düsseldorfer Akademie der Bildenden Künste. This led him together with his wife Lily to return to his real home of Bern. Here his avant-garde art was not understood and Klee found himself in unasked-for isolation. In 1935 Klee started to suffer from a mysterious disease. The symptoms included changes to the skin and problems with the internal organs. In 1940 Paul Klee died, but it was only 10 years after his death that the illness was actually given the name scleroderma in a publication about Klee. However, the diagnosis remained mere conjecture. Since his adolescence the dermatologist and venereologist Dr Hans Suter has been fascinated by Paul Klee and his art, and more than 30 years ago this fascination spurred him to commence research into the illness and its influence on the art of Paul Klee's final years. It was due to Dr Suter's meticulous investigations that Klee's illness could be defined as diffuse systemic sclerosis. In this book the author assembles his findings and describes the rare and complex disease in a clear and comprehensible way. Further, he empathetically interprets more than 90 of Klee's late works. The point of view of a dermatologist renders a unique source of information. It provides on the one hand new insights into everyday medical practices at the University of Bern in the 1930s, which will fascinate doctors and local historians alike. While on the other hand art historians and art lovers will be absorbed by the newly discovered links between Paul Klee's work and his illness. **Art and Mourning** Esther

Dreifuss-Kattan, 2016-03-10. **Art and Mourning** explores the relationship between creativity and the work of self-mourning in the lives of 20th-century artists and thinkers. The role of artistic and creative endeavours is well known within psychoanalytic circles in helping to heal in the face of personal loss, trauma, and mourning. In this book Esther Dreifuss-Kattan, a psychoanalyst, art therapist, and artist, analyses the work of major modernist and contemporary artists and thinkers through a psychoanalytic lens. In coming to terms with their own mortality, figures like Albert Einstein, Louise Bourgeois, Paul Klee, Eva Hesse, and others were able to access previously unknown reserves of creative energy in their late works, as well as a new healing experience of time outside of the continuous temporality of everyday life. Dreifuss-Kattan explores what we can learn about using the creative process to face and work through traumatic and painful experiences of loss. **Art and Mourning** will inspire psychoanalysts and psychotherapists to understand the power of artistic expression in transforming loss and traumas into perseverance, survival, and gain. **Art and Mourning** offers a new perspective on trauma and will appeal to psychoanalysts and psychotherapists, psychologists, clinical social workers, and mental health workers, as well as artists and art historians.

Neurological Disorders in Famous Artists Julien Bogousslavsky, M. G. Hennerici, H. Baezner, C. Bassetti, 2010-01-01. The third part of **Neurological Disorders in Famous Artists** presents painters, musicians, and writers who had to fight against

an acute or chronic neurological disease Sometimes this fight was without success e g Shostakovich Schumann Wolf Pascal but often a dynamic and paradoxical creativity of the clinical disorder was integrated into their artistic production e g Klee Ramuz Occasionally some even wrote the first report of a medical condition they observed in themselves like Stendhal who made a detailed report of aphasic transient ischemic attacks before dying of stroke shortly thereafter In rarer instances a neurological disease was inaccurately attributed to an artist in order to explain certain features of his work de Chirico Schiele Some chapters in this publication focus on neurological conditions reported in artistic work including descriptions by Shakespeare and Dumas Bringing new light to both artists and neurological conditions this book serves as a valuable and entertaining read for neurologists psychiatrists physicians and anybody interested in arts literature and music *The Artist's Estate* Dr. Loretta Würtenberger, 2021-11-24 Andy Warhol bequeathed us the words Death can really make you look like a star But death per se is not a catalyst for the relevance of an artist What is of crucial importance is the proper management structure for the posthumous preservation and development of an artistic estate The handbook by Loretta Würtenberger presents the possible legal framework appropriate financing models as well as the proper handling of the market museums and academia Her business Fine Art Partners has advised artists and artists estates for many years in their structuring and development of estate concepts as well as in operative questions Based on numerous international examples the author explains the different alternatives for maintaining an artist's estate and makes recommendations on how to ideally handle work archives and mementos following the death of an artist **Paul Klee** Paul Klee, 2008 The work of Paul Klee 1879-1940 was deeply influenced by his passion for the theater Throughout his life the artist fervently attended theatrical performances from the opera to puppet shows Characters from plays or operas Hamlet Falstaff and Don Giovanni for example populate his cryptic visual world Various types of characters and theatrical elements such as clowns and masks were firmly established themes in his visual repertoire Primarily though Klee created connections between the theater and life taking up the topos of the world as a stage people became actors or marionettes theatrical events touched upon scenes from everyday life This publication sheds light on all of these aspects of Klee's fascination for the theater A chronology gives a panoramic outline of his many experiences with the theater Selected works by contemporary artists make it clear that Klee was not the only one fascinated with the sharp-eyed perception of theatrical situations the topic is one that continues to engage artists today **BOOK JACKET** **Bauhaus Bodies** Elizabeth Otto, Patrick Rössler, 2019-01-24 A century after the Bauhaus's founding in 1919 this book reassesses it as more than a highly influential art architecture and design school In myriad ways emerging ideas about the body in relation to health movement gender and sexuality were at the heart of art and life at the school Bauhaus Bodies reassesses the work of both well-known Bauhaus members and those who have unjustifiably escaped scholarly scrutiny its women in particular In fourteen original cutting-edge essays by established experts and emerging scholars this book reveals how Bauhaus artists challenged traditional ideas about bodies and gender Written to

Kandinsky and Klee in Tunisia Roger Benjamin,Cristina Ashjian,2015-08-18 Paul Klee experienced his 1914 trip to Tunisia as a major breakthrough for his art Color and I are one he famously wrote I am a painter Kandinsky and Klee in Tunisia sets

the scene for Klee's breakthrough with a close study of the parallel voyage undertaken in 1904-5 by Wassily Kandinsky and Gabriele Münter who would later become Klee's friends. This artist couple then at an early stage in their celebrated careers produced a rich body of painting and photography known only to specialists. Paul Klee's 1914 trip with August Macke and Louis Moilliet in contrast is a vaunted convergence of cubism and the exotic. Roger Benjamin refigures these two seminal voyages in terms of colonial culture and politics: the fabric of ancient Tunisian cities, visual ethnography and the tourist photograph. The book looks closely at the cities of Tunis, Sousse, Hammamet and Kairouan to flesh out a profound confrontation between European high modernism and the wealth of Islamic lifeways and architecture. Kandinsky and Klee in Tunisia offers a new understanding of how the European avant-garde was formed in dialogue with cultural difference.

Paths to Klee Zentrum Paul Klee (Berne), Elke Jezler-Hübner, 2005 **Bauhaus 1919-1933** Barry Bergdoll, Leah Dickerman, 2009. The Bauhaus, the school of art and design founded in Germany in 1919 and shut down by the Nazis in 1933, brought together artists, architects and designers in an extraordinary conversation about modern art. *Bauhaus 1919-1933*, published to accompany a major multimedia exhibition at MoMA, is the first comprehensive treatment of the subject by MoMA since 1938 and offers a new generational perspective on the 20th century's most influential experiment in artistic education. It brings together works in a broad range of mediums including industrial design, furniture, architecture, graphics, photography, textiles, ceramics, theatre and costume design, and painting and sculpture, many of which have rarely if ever been seen outside of Germany. Featuring about 400 colour plates and a rich range of documentary images, this publication includes two overarching images by the exhibition's curators, Leah Dickerman and Barry Bergdoll, concise interpretive essays on key objects by over twenty leading scholars, and an illustrated narrative chronology.
