## **Researching Online For Dummies:**

*Researching Online For Dummies* Reva Basch, Mary Ellen Bates, 2000-03-02 Whether you're beginning a college thesis or searching for a new toaster *Researching Online For Dummies* 2nd Edition is your key to finding the information you need online and anytime. This book helps you develop a multitiered research strategy using keywords and index terms to dive deep into the sources found on the Web. Explore the mental tools and online resources successful researchers rely on every day. Take a look at the online world that goes beyond the Internet. Familiarize yourself with search engines, indexes, quick reference aids, and other online professional services you can access from your computer. See how Boolean searching and other power search tips and techniques can greatly aid your research. Apply these search techniques to real life research situations. Get acquainted with some of the best and best hidden resources in important subject areas such as news, business, technology, and government information. *Researching Online For Dummies* 2nd Edition also offers a 30 page directory dedicated to describing selected research sites, services, and other useful online resources. The book's bonus CD-ROM includes search engine help files from Northern Light and Lycos, as well as demo versions of Copernic, BullsEye, and WebWhacker.

*Researching Online For Dummies?* Reva Basch, 1998-07-03 Explains how to select a search engine, request information from online libraries and archives, explore governmental cyber bureaucracy, verify information, deal with copyright issues, and cite online references properly.

*Researching Online for Dummies (includes 1 CD-ROM).*, 1998

**Genealogy Online For Dummies** April Leigh Helm, Matthew L. Helm, 2014-01-21 Research your family history using the latest online tools and apps. *Genealogy Online For Dummies* 7th Edition is the perfect book to help you conduct genealogical research. Updated to cover the latest online tools, this new edition shows you how to leverage social networks and the rapidly increasing number of mobile apps to locate family members and trace their histories. You'll discover how to start your investigation, develop a research plan of action, identify sites and resources that will be of the most use to you, get information from government records, preserve electronic materials, and share your findings with the rest of the family. Shows you how to conduct research into family history using the latest online tools, mobile apps, and other resources. Explains how to use online and offline research techniques and tools for genealogical research, find and share information with other genealogists, and create your own site to showcase your family tree, digital images, and compiled genealogies. Includes access to free versions of RootsMagic Essentials and Legacy Family Tree Standard Edition, as well as information on free websites for storing your genealogical information. Covers DNA research and testing, new geocoding applications, U.S. Census information available online, international records, public access catalogs, and more. *Genealogy Online For Dummies* 7th Edition helps you follow the clues to uncover your family's legacy the fun and easy way.

*Doing Qualitative Research Online* Janet E. Salmons, 2015-12-26 Qualitative researchers can now connect with participants online to collect deep, rich data and generate new understandings of contemporary research phenomena. *Doing Qualitative Research Online* gives students and researchers

the practical and scholarly foundations needed to gain digital research literacies essential for designing and conducting studies based on qualitative data collected online The book will take a broad view of methodologies methods and ethics covering Ethical issues in research design and ethical relationships with participants Designing online qualitative studies Collecting qualitative data online through interviews observations participatory and arts based research and a wide range of posts and documents Analyzing data and reporting findings Written by a scholar practitioner in e learning and online academia with 15 years experience this book will help all those new to online research by providing a range of examples and illustrations from published research The text and accompanying materials will offer discussion and assignment ideas for ease of adoption

What is Online Research? Tristram Hooley, Jane Wellens, John Marriott, 2012-06-21 The massive expansion of the internet into every aspect of our lives creates a challenge for social researchers can they simply transfer their traditional methods and techniques online or do they need to reinvent research methods for the new environment As online research becomes increasingly prevalent it becomes more important for researchers to have an answer to these questions and an approach to conducting research online This book is a straightforward accessible introduction to social research online It covers the key issues and concerns for social scientists online surveys focus groups interviews ethnographies and experiments as well as discussing the implications of social media and of online research ethics It provides a detailed up to date glossary and bibliography for those new to the area Short clear case studies throughout allow students to see examples of the research in practice Wide ranging and interdisciplinary What is Online Research shows social scientists of all levels from undergraduates to established researchers how to engage in the online environment in appropriate ways and points the way forward for future research
