Edna Acosta-Belén,1994 **A.I.D. Research and Development Abstracts** ,1985 **Global Gender Research** Christine Bose,Minjeong Kim,2013-01-11 Readers of Global Gender Research will learn to compare and contrast feminist concerns globally gain familiarity with the breadth of gender research and understand the national contexts that produced it This volume provides an in depth comparative picture of the current state of feminist sociological gender and women s studies research in four regions of the world Africa Asia Latin America the Caribbean and Europe as represented by many countries The introductory essay to each region explains how social science research on women and or gender issues has been shaped by economics politics and culture and by trends that are simultaneously local regional and global It familiarizes readers with the wide range of salient issues research methods writing styles and leading authors from around the globe Each regional

section includes several chapters on gender research in specific countries that represent the region's diversity and cover the major theoretical and empirical trends that have emerged over time as well as the relationship of key research questions to feminist activism and women's or gender studies. Next the editors illustrate this new wave of gender scholarship with translated reprinted samples of research articles from additional countries in the region that cover a wide range of important global topics such as work, sexuality, masculinities, childcare and family issues, religion, violence, law and gender policies. Finally, this volume provides scholars with extensive bibliographies and a listing of web sites for women's and gender research centers in 85 countries.

Encompassing Gender Mary M. Lay, Janice J. Monk, Deborah Rosenfelt, 2002. From Beijing to Seattle, women's movements within academe and in local global communities are growing at an unprecedented rate, raising pointed questions about paradigms of Western feminism, development, global trade and scholarship. Despite this growing visibility, the perspectives of far too many women, especially from the Global South, are still excluded from mainstream U.S. scholarship. Presented with the task of preparing students for life in this new and rapidly shrinking world, many scholars have found themselves overwhelmed by the need to cross disciplinary and geographic borders. But some faculty are leading the way, often in defiance of academic traditions and prejudices, to a curriculum that reflects consequences of globalization. *Encompassing Gender* is the long-awaited anthology of more than 40 essays by 60 scholars, many of them working in curriculum transformation groups that cut across the humanities, the sciences and the social sciences, all of them committed to an interdisciplinary approach to internationalizing the curriculum.

Recovering The U.S. Hispanic Literary Heritage, Volume I Ramón A. Gutiérrez, Genaro Padilla, 1993-02-01. *Recovering the U.S. Hispanic Literary Heritage* is a compendium of articles by the leading scholars on Hispanic literary history of the United States. The anthology functions to acquaint both expert and neophyte with the work that has been done to date on this literary history, to outline the agenda for recovering the lost Hispanic literary heritage and to discuss the pressing questions of canonization, social class, gender and identity that must be addressed in restoring the lost or inaccessible history and literature of any people.
