Reshaping Health Care In Latin America:

Reshaping Health Care in Latin America International Development Research Centre (Canada),2000 Reshaping Health Care in Latin America A Comparative Analysis of Health Care Reform in Argentina Brazil and Mexico *Health Services in Latin America and Asia* José Núñez del Arco,2001 On either side of the globe poor people often do not have access to the health services they need Improvements in health care systems in Asia have lagged behind economic development and progress in expanding health coverage in Latin America has been skewed across income levels Health Services in Latin America and Asia takes a close look at how countries in both regions provide health care services including the strategies that work and the problems that persist The book documents encouraging progress in Bolivia Brazil China and Vietnam and important preventive care programs in Central America and Thailand It also examines health services in Chile Colombia the Philippines and Malaysia as well as the health system and insurance model in Japan Even though public and preventive health require specific and sustained allocations both regions continue to use health insurance and other supply mechanisms to expand health service coverage The book recommends broadening the supply of services through family doctors and community health workers an alternative approach that would likely improve the equity efficiency and sustainability of services

Health Care Administration Lawrence F. Wolper,2004 Health Care Administration continues to be the definitive guide to contemporary health administration and is a must have reference for students and professionals This classic text provides comprehensive coverage of detailed functional technical and organizational matters

Social Policy Dismantling and De-democratization in Brazil Sonia Fleury,2023-08-21 This book examines the emergence of authoritarian populist regimes analyzing Brazil as a case study The authors explain how the tactics employed by the Bolsonaro administration to dismantle bureaucracy and public policies especially labour and social policies find expression in the fiscal austerity measures recently inscribed in the Federal Constitution a counter democratic device employed by technical and financial elites to systemically derail the social protection system Through this in depth case study the book presents new theoretical arguments and concepts that can be useful to understand the dynamics of such new regimes and discussing similar cases in other contexts Democratic governments in Brazil driven by social movements and political actors have strengthened social protection through a distinctive institutional architecture that combines the strengthening of public bureaucracies the creation of intergovernmental networks and the democratic instances of social participation and agreement The contributions throughout this volume analyze these transformations in different sectors of public policy such as labour employment pensions food and nutrition security health and social assistance Each contribution discusses the recent trajectory through a political analysis of the main actors and institutions reform processes and policy changes and the results achieved Finally the existing weaknesses in each of these social protection sectors are identified in the context of the literature on policy dismantling revealing the strategies used to take advantage of these political and institutional

weaknesses This book will appeal to students scholars and researchers of political science and public policy interested in a better understanding of de democratization by social policy dismantling

Four Worlds of the Welfare State in Latin America Ilán Bizberg, 2024-03-20 This book explores the trajectories and structures of Latin American welfare states using a typology developed through conceptual and historical analyses of social protection systems in Latin America It argues that social protection can be accomplished by different actors in distinct societies be that the State civil society the market or families This work defines four types of welfare worlds based on who administers and allocates resources the socio corporatist the statist the commodified and the familial Author Ilan Bizberg delves on the historical trajectories of ten Latin American countries each with a unique analysis of the corresponding social protection system Uruguay Argentina Brazil Costa Rica Chile Mexico Colombia Bolivia Peru and Ecuador The book begins with a meaningful discussion on the welfare state as a necessity of modern capitalist societies Then it counters the consequences of the disembeddedness of the economy from society and the way the social protection system protects the society against this rupture Chapters focus on the health system pensions and assistance programs of these countries with diverse case studies that include analyzing the performance of the health systems during the pandemic The book closes with a discussion on gender and the situations women face and encounter under and within different social protection regimes

Global Health Governance and the Fight Against HIV/AIDS W. Hein, S. Bartsch, L. Kohlmorgen, 2007-08-09 The devastating effects of HIV AIDS have propelled a multiplicity of activities at global national and local level This book is based on in depth studies of the major global institutions in health the role of pharmaceutical corporations the functions of NGOs and national responses to HIV AIDS in two key case studies Brazil and South Africa

The Political Economy of HIV/AIDS in Developing Countries Benjamin Coriat, 2008-01-01 The issue of universal and free access to treatment is now a fundamental goal of the international community Based on original data and field studies from Brazil Thailand India and Sub Saharan Africa under the aegis of ANRS the French national agency for

research on Aids and viral hepatitis this timely and significant book both assesses the progress made in achieving this objective and presents a rigorous diagnosis of the obstacles that remain Placing particular emphasis on the constraints imposed by TRIPS as well as the poor state of most public health systems in Southern countries the contributing authors provide a comprehensive analysis of the huge barriers that have yet to be overcome in order to attain free access to care and offer innovative suggestions of how they might be confronted In doing this the book renews our understanding of the political economy of HIV AIDS in these vast regions where the disease continues to spread with devastating social and economic consequences This volume will be a valuable addition to the current literature on HIV AIDS in developing countries and will find widespread appeal amongst students and academics studying economics sociology and public health It will also be of interest to international organizations and professional associations involved in the fight against pandemics **Building**

Participatory Institutions in Latin America Lindsay Mayka, 2019-02-07 While prior studies have shown the importance of participatory institutions in strengthening civil society and in improving policy outcomes we know much less about why some participatory institutions take root while others do not This book explains the divergent trajectories of nationally mandated participatory institutions stickiness by highlighting the powerful and lasting impacts of their origins in different policy reform projects Mayka argues that participatory institutions take root when they are bundled into sweeping policy reforms which upend the status quo and mobilize unexpected coalitions behind participatory institution building In contrast participatory institutions created through reforms focused on deepening democracy are easy for entrenched interests to dismantle and sideline **Building Participatory Institutions in Latin America** draws on rich case studies of participatory institutions in Brazil and Colombia across three policy areas offering the first cross national comparative study of participatory institutions mandated at the national level **the determinants of rising informality in brazil: evidence from gross worker flows**

William Mahoney, Mariano Bosch, Edwin Goni, **Market-Driven Politics** Colin Leys, 2020-05-05 With the globalisation of the capitalist economy the economic role of national governments is now largely confined to controlling inflation and facilitating home grown market performance This represents a fundamental shift in the relationship between politics and economics it has been particularly marked in Britain but is relevant to many other contexts **Market Driven Politics** is a multi level study moving between an analysis of global economic forces through national politics to the changes occurring week by week in two fields of public life that are both fundamentally important and familiar to everyone television broadcasting and health care Public services like these play an important role because they both affect the legitimacy of the government and are targets for global capital This book provides an original analysis of the key processes of commodification of public services the conversion of public service workforces into employees motivated to generate profit and the role of the state in absorbing risk Understanding the dynamics of each of these trends becomes critical not just for the analysis of market driven politics but also for the longer term defence of democracy and the collective values on which it depends

Movement-Driven Development Christopher L. Gibson, 2019-01-08 In the late twentieth and early twenty first centuries Brazil improved the health and well being of its populace more than any other large democracy in the world Long infamous for its severe inequality rampant infant mortality and clientelist politics the country ushered in an unprecedented twenty five year transformation in its public health institutions and social development outcomes declaring a striking seventy percent reduction in infant mortality rates Thus far the underlying causes for this dramatic shift have been poorly understood In Movement Driven Development Christopher L Gibson combines rigorous statistical methodology with rich case studies to argue that this transformation is the result of a subnationally rooted process driven by civil society actors namely the Sanitarist Movement He argues that their ability to leverage state level political positions to launch a gradual but persistent attack on health policy implementation enabled them to infuse their social welfare ideology into the practice of Brazil s democracy In so doing Gibson illustrates how local activists can advance progressive social change more than predicted and how in large democracies like Brazil activists can both deepen the quality of local democracy and improve human development outcomes previously thought beyond their control

Women, Motherhood and Living with HIV/AIDS Pranee Liamputtong, 2013-03-12 There are about 34 million people worldwide living with HIV AIDS Half are women There has been a dramatic global increase in the rates of women living with HIV AIDS Among young women especially in developing countries infection rates are rapidly increasing Many of these women are also mothers with young infants When a woman is labeled as having HIV she is treated with suspicion and her morality is being questioned Previous research has suggested that women living with HIV AIDS can be affected by delay in diagnosis inferior access to health care services internalized stigma and a poor utilization of health services This makes it extremely difficult for women to take care of their own health needs Women are also reluctant to disclose their HIV positive status as they fear this may result in physical feelings of shame social ostracism violence or expulsion from home Women living with HIV AIDS who are also mothers carry a particularly heavy burden of being HIV infected This unique book attempts to put together results from empirical research and focuses on issues relevant to women motherhood and living with HIV AIDS which have occurred to individual women in different parts of the globe The book comprises chapters written by researchers who carry out their projects in different parts of the world and each chapter contains empirical information based on real life situations This can be used as evidence for health care providers to implement socially and culturally appropriate services to assist individuals and groups who are living with HIV AIDS in many societies The book is of interest to scholars and students in the domains of anthropology sociology social work nursing public health medicine and health professionals who have a specific interest in issues concerning women who are mothers and living with HIV AIDS from cross cultural perspective

Autism in Translation Elizabeth Fein, Clarice Rios, 2018-08-28 Autism is a complex phenomenon that is both individual and social Showing both robust similarities and intriguing differences across cultural contexts the autism spectrum raises innumerable questions about self subjectivity and

society in a globalized world Yet it is often misrepresented as a problem of broken bodies and disordered brains So in 2015 a group of interdisciplinary scholars gathered in Rio de Janeiro Brazil for an intellectual experiment a workshop that joined approaches from psychological anthropology to the South American tradition of Collective Health in order to consider autism within social historical and political settings This book is the product of the ongoing conversation emerging from this event It contains a series of comparative histories of autism policy in Italy Brazil and the United States focuses on issues of voice narrative and representation in autism and examines how the concept of autism shapes both individual lives and broader social and economic systems Featuring contributions from Michael Bakan Benilton Bezerra Pamela Block M Ariel Cascio Jurandir Freire Costa Barbara Costa Andrada Cassandra Evans Elizabeth Fein Clara Feldman Roy Richard Grinker Rossano Lima Francisco Ortega Dawn Prince Hughes Clarice Rios Laura Sterponi Thomas S Weisner Enrico Valtellina

Second-Wave Neoliberalism Christina Ewig, 2011-03-31 Analyzes the politics of neoliberal health sector reform and its effects in Peru Focuses on the intersecting dynamics of race class and gender in the developing world Provided by publisher

Commoning Labour and Democracy at Work Dario Azzellini, Marcelo Vieta, 2025-08-28 This book investigates the return of workers self management in recent decades as responses to recurring neoliberal crises In particular the book homes in on worker recuperated enterprises WREs a promising form of workers self organization whereby workers restart troubled bankrupt or shuttered companies as cooperatives or other forms of democratic workplace The book argues that WREs are prefigurative of new forms of work based on equality and sustainability Framed by the concepts of autogestione the labour commons and prefigurative ethico political practices the book argues that WREs contribute to the construction of more directly democratic community economies Drawing on a range of contemporary case studies from numerous countries in the Global South and North as well as new theories of workers self management the book contributes a critical development political economic and class struggle Marxist perspective to the re emergent labour question within anti systemic social movements while theorizing the transformative nature of WREs for workers work organizations and communities Bringing a class analysis back into current discourses and debates concerning democracy at work and alternatives to global capital this book will be of interest to researchers across the fields of development studies labour studies political economy sociology of development sociology of work and political science

Re-Thinking Autism Sami Timimi, Rebecca Mallett, Katherine Runswick-Cole, 2016-05-05 Disputing the existing accepted approaches to autism and the focus on diagnosis and treatment this book challenges the attitudes assumptions and prejudices around autism that are generated from the medical model suggesting that they can be marginalising limiting and potentially damaging to the individuals labelled with autism

Global Dimensions of Public Administration and Governance Jos

Raadschelders, Eran Vigoda-Gadot, 2015-02-16 Global Dimensions of Public Administration is a comprehensive interdisciplinary approach that draws on knowledge sources across the social sciences. It provides a global historical and theoretical examination of the management and governance of the modern state with an emphasis on the structure-function policies and reforms of over 30 countries. Readers will gain an understanding of the relationship between structure-territory-bureaucracy-political system and function-policy and reforms of government in its political and societal contexts. The authors' comparative approach features rich examples of how policy is culture-dependent and how the principles of modern bureaucracy are filtered to fit a nation's needs and expectations. Each chapter ends with comparative conclusions. Mid-career public sector professionals in executive education programs will better understand the role and position of government in the contemporary world not only in democratic societies but also in less democratic environments.

Privatization and the

New Medical Pluralism

Anita Chary, Peter Rohloff, 2015-09-17 Privatization and the New Medical Pluralism is the first collection of its kind to explore the contemporary terrain of healthcare in Guatemala through reflective ethnography. This volume offers a nuanced portrait of the effects of healthcare privatization for indigenous Maya people who have historically endured numerous disparities in health and healthcare access. The collection provides an updated understanding of medical pluralism which concerns not only the tensions and exchanges between ethnomedicine and biomedicine that have historically shaped Maya people's experiences of health but also the multiple competing biomedical institutions that have emerged in a highly privatized market-driven environment of care. The contributors examine the macro-structural and micro-level implications of the proliferation of non-governmental organizations, private fee-for-service clinics and new pharmaceuticals against the backdrop of a deteriorating public health system. In this environment, health seekers encounter new challenges and opportunities; relationships between the public-private and civil sectors transform and new forms of inequality in access to healthcare abound. This volume connects these themes to critical studies of global and public health, exposing the strictures and apertures of healthcare privatization for marginalized populations in Guatemala.
