**Family and Peers** Angela M. Neal-Barnett, Josefina M. Contreras, Kathryn A. Kerns, 2000-04-30 Why is it that relationships with family members predict the quality of children s relationships outside the family A wealth of research has documented that various aspects of family relationships are predictably related to the quality of children s interactions and relationships with peers Understanding what account for these effects is important both for theories of children s relationships and intervention efforts to ameliorate children s peer relationship difficulties This volume

advances the field by discussing several mechanisms that may account for continuities across family and peer relationships A variety of theoretical perspectives are represented in the book For example both learning and biological explanations are considered Authors also note two key considerations in investigating family and peer relationships First it is necessary to consider the cultural context The function and meaning of family and peer relationships may differ depending on what roles are played by these relationships in different cultural contexts Second it is necessary to consider the child's age Developmental issues such as concerns with establishing greater independence at the entrance to adolescence will impact both family and peer relationships

**Children's Play in Child Care Settings** Hillel Goelman, Ellen Vineberg Jacobs, 1994-02-03 How do children play in different kinds of child care settings How do child care environments influence their play How do special needs children play in integrated and in segregated child care settings How do adults influence play in child care environments And what are the long term effects of children's play in child care These are among the questions addressed by the psychologists and educators who have contributed to this book Researchers will find *Children's Play in Child Care Settings* to be a valuable review of current theory and research in this area Practitioners will better understand the ways in which early childhood environments and early childhood educators can facilitate the play of young children in child care settings And administrators will be able to draw upon the book in designing and implementing early childhood programs for special needs and non special needs children
