21st Century Sociology: A Reference Handbook Clifton D. Bryant, Dennis L. Peck, 2007 Publisher Description

New Directions in the Sociology of Aging National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Population, Panel on New Directions in Social Demography, Social Epidemiology, and the Sociology of Aging, 2013-12-26 The aging of the population of the United States is occurring at a time of major economic and social

changes These economic changes include consideration of increases in the age of eligibility for Social Security and Medicare and possible changes in benefit levels Furthermore changes in the social context in which older individuals and families function may well affect the nature of key social relationships and institutions that define the environment for older persons Sociology offers a knowledge base a number of useful analytic approaches and tools and unique theoretical perspectives that can facilitate understanding of these demographic economic and social changes and to the extent possible their causes consequences and implications New Directions in the Sociology of Aging evaluates the recent contributions of social demography social epidemiology and sociology to the study of aging and identifies promising new research directions in these sub fields Included in this study are nine papers prepared by experts in sociology demography social genomics public health and other fields that highlight the broad array of tools and perspectives that can provide the basis for further advancing the understanding of aging processes in ways that can inform policy This report discusses the role of sociology in what is a wide ranging and diverse field of study a proposed three dimensional conceptual model for studying social processes in aging over the life cycle a review of existing databases data needs and opportunities primarily in the area of measurement of interhousehold and intergenerational transmission of resources biomarkers and biosocial interactions and a summary of roadblocks and bridges to transdisciplinary research that will affect the future directions of the field of sociology of aging

Aging Independently Klaus Warner Schaie, 2003 This volume is based on the conference Aging in the Community Living Arrangements and Mobility organised by the German Centre for Research on Aging at the University of Heidelberg in cooperation with Pennsylvania State University It explores the similarities and differences of living arrangements and outdoor mobility in both cultures and the impact on older persons roles in community life and sustainable community development Considers the future of aging theoretically from an environmental gerontology perspective and practically in terms of available technology the central tenet of this volume is that future indoor and outdoor environments will become much more intertwined than is the case today Merging the concerns of living arrangements and mobility this volume leads us to a new understanding of distance and nearness even in the presence for example of severe chronic illness

Encyclopedia of Applied Developmental Science Celia B Fisher,Richard M. Lerner,2004-10-16 The most comprehensive one stop source for the latest in applied developmental science Don Floyd President and CEO National 4 H Council The Encyclopedia of Applied Developmental Science is an important and timely contribution to this burgeoning field This four volume set is the authoritative source that encompasses the entire range of concepts and topics involved in the study of applied developmental science Its contents and levels have broad appeal for those interested in how the application of knowledge about human development can be used to enhance the lives of individuals families and communities The breadth of activity in applied developmental science makes adequate representation of its concepts and topics a daunting challenge To this end the encyclopedia seeks to answer the following questions How may information about this field be integrated in a manner accessible meaningful and useful to the next generation of the leaders of our nation and world How may we best convey the knowledge necessary for them to understand the nature of their development and the way that they may contribute positively to their own lives to their families and communities and to the designed and natural environments of which they will be stewards The Encyclopedia of Applied

Developmental Science provides the most effective way to address these questions. It includes entries written in an authoritative but not overly technical manner by the broad range of scholars and practitioners involved in applied developmental science. In addition to an alphabetical table of contents, there is a readers guide that organizes the entries into 30 content categories to help the reader locate similarly themed entries with ease. The encyclopedia is ideal for libraries serving those with interests in psychology, human development, human ecology, education, sociology, family and consumer sciences, and nursing, as well as social work and other human services disciplines. The entries are written to be accessible to not only professionals but also to policy makers and other potential consumers of applied developmental science scholarship. This includes young people and their parents, teachers, and counselors.

Topics Covered: Adolescent Development, ADS Training and Education, Adult Development, Biographies of Applied Developmental Scientists, Child Development, Civic Engagement, Culture and Diversity, Development Promoting Interventions, Developmental Assessment, Developmental Disorders, Developmental Processes, Developmental Risks, Ecology of Human Development, Emotional and Social Development, Ethics, Families, Foundations, Health, Historical Influences, Infant Development, Organizations, Parenting, Personality Development, Religiosity and Spirituality, Research Methodology, Schools, Social Issues, Theory, Universities, Youth Programs.

Singled Out Bella DePaulo, Ph.D., 2007-10-30

People who are single are changing the face of America. Did you know that more than 40 percent of the nation's adults over 18 are single? More than 87 million people are divorced, widowed, or have always been single. There are more households comprised of single people living alone than of married parents and their children. Americans now spend more of their adult years single than married. Many of today's single people have engaging jobs, homes that they own, and a network of friends. This is not the 1950s; singles can have sex without marrying, and they can raise smart, successful, and happy children. It should be a great time to be single. Yet too often, single people are still asked to defend their single status by an onslaught of judgmental peers and fretful relatives. Prominent people in politics, the popular press, and the intelligentsia have all taken turns peddling myths about marriage and singlehood. Marry, they promise, and you will live a long, happy, and healthy life, and you will never be lonely again. Drawing from decades

of scientific research and stacks of stories from the front lines of singlehood Bella DePaulo debunks the myths of singledom and shows that just about everything you've heard about the benefits of getting married and the perils of staying single are grossly exaggerated or just plain wrong Although singles are singled out for unfair treatment by the workplace the marketplace and the federal tax structure they are not simply victims of this singlism Single people really are living happily ever after Filled with bracing bursts of truth and dazzling dashes of humor Singled Out is a spirited and provocative read for the single the married and everyone in between You will never think about singlehood or marriage the same way again Singled Out debunks the Ten Myths of Singlehood including Myth 1 The Wonder of Couples Marrieds know best Myth 3 The Dark Aura of Singlehood You are miserable and lonely and your life is tragic Myth 5 Attention Single Women Your work won't love you back and your eggs will dry up Also you don't get any and you're promiscuous Myth 6 Attention Single Men You are horny slovenly and irresponsible and you are the scary criminals Or you are sexy fastidious frivolous and gay Myth 7 Attention Single Parents Your kids are doomed Myth 9 Poor Soul You will grow old alone and you will die in a room by yourself where no one will find you for weeks Myth 10 Family Values Let's give all of the perks benefits gifts and cash to couples and call it family values With elegant analysis wonderfully detailed examples and clear and witty prose DePaulo lays out the many often subtle denigrations and discriminations faced by single adults in the U.S She addresses too the resilience of single women and men in the face of such singlism A must read for all single adults their friends and families as well as social scientists and policy advocates E Kay Trimberger author of *The New Single Woman* **Annual Report** Bronfenbrenner Life Course Center, 2002 *Human Ecology*, 2003 **10 Secrets to Successful Home Buying and Selling** Lois A.
