Resist Powers With Jacques Ellul:

Resist the Powers with Jacques Ellul Charles Ringma, Jacques Ellul, 1995 **The Word Before the Powers** Charles L. Campbell, 2002-01-01 In this examination of the ethical significance of preaching Charles Campbell provides both fresh insights into the relationship between preaching and ethics and a challenging moral vision for the contemporary church Moving beyond a narrow focus on moral decision making or social issues sermons Campbell argues that a particular ethic nonviolent resistance is inherent in the practice of preaching and shapes the moral life of the church In the face of the powers the fundamental ethical task of preaching involves building up the church as a community of resistance Employing three dimensions of character ethics vision practices and virtues Campbell demonstrates the concrete ways in which preachers may undertake this task **Pentecostal Perspectives on Social Justice** Thomas U. Kurt, 2025-06-10 The beginnings of the Pentecostal movement were characterized by charismatic gifts and an extraordinary missionary dynamic At the same time early Pentecostals stood out from their social environment for their liberal practices on race and women s issues and for their pacifism In a world characterized by violence oppression and exploitation the question of justice is crucial for the future of this world At the same time for Pentecostals the question of the future of this world is closely linked to the kingdom of God This book explores whether there is a common denominator in Pentecostal social ethics what that denominator consists of and what its theological categories are To answer these questions it examines four representatives of the global Pentecostal church who have made prominent contributions in the field of social ethics The results are then discussed in a dialogue with J rgen Moltmann one of the most prominent voices in systematic theology for social justice and the liberation of the oppressed **Reconciliation** Tobias Faix, Johannes Reimer, G. J. van Wyngaard, 2021-01-27 Hardly any other topic is as important for the coexistence of mankind as the question of justice and reconciliation In this volume we want to examine this important question from different interdisciplinary and international perspectives in order to develop an overall understanding that will contribute to reconciliation in various cultural and religious fields of conflict in the world Particular attention will be paid to the theological perspective on reconciliation in which justice and restoration of relationships play a central role **Christ, Power and Mammon** Scott Thomas Prather, 2013-09-12 This book examines the role of the New Testament concept of the principalities and powers in the thought of Karl Barth and John Howard Yoder showing how this biblical concept of power is central to the fundamental theological convictions of each thinker Prather offers a scholarly account of the underexplored theological and ethical import of a major biblical theme and the book addresses questions and concerns from a wide range of academic and lay theological interest He brings Barth and Yoder into dialogue here and examines the three crucial areas the confessional distinction of church and world the demonization of political power and the intrinsic relation between the political and economic powers While other theologians have rightly identified a christocentric connection between the thought of Barth and Yoder no attempt has been made to bring them

together through the sustained analysis of a single doctrinal or ethical issue this book does just that **In the Midst of Much-Doing** Charles R. Ringma,2023-05-31 How are we to sustain activism and compassion amidst the never ending crises of the twenty first century While the concern for social justice is deeply biblical cynicism burnout and despair are all too common side effects when action is divorced from contemplation To effectively serve as the hands and feet of Jesus the church must attend to the revitalization of its inner life through the spiritual practices which feed support and sustain the work of the kingdom Rather than the fragmentation and dualism that have led denominations to choose between prayer and service evangelization and justice the church must integrate heart mind and body in order to fulfil its calling to transform the world from within Drawing from Scripture and a wide range of Christian traditions from the monastic to the evangelical this book inspires its readers to integrate spiritual renewal and prophetic witness for the glory of God and the good of his creation **Resistance and Contemplation** James W. Douglass,2006-04-01 I rejoice in this day and in this book becoming available once again At Jonah House the place I ve called home for 33 years we ve had numerous copies of it in the years since it was first published One copy remains dog eared read reread studied It was a book that we reflected on together in community the backbone if you will next to the Scriptures of our on going resistance out of community Elizabeth McAlister Jonah House from the foreword This book has been of extraordinary significance to large numbers of young people resisters prisoners searchers many who have been increasingly perplexed and anguished by the course of American life in the world My brother Philip and I have used it in numerous sessions with students and others who found in it the sustenance necessary to allow them to take the next step in their struggle on behalf of life It seems to me that this book will continue in its own quiet and persistent way to reach those Americans who are capable of inviting us into any future worth speaking about Daniel Berrigan From perspectives of truth nonviolence and resistance to personal and cultural violence this book is among the few important books of the last decade Neutrality to this book is impossible people will view it as a gift or they will reject it as a threat enlightening strengthening liberating Philip Berrigan Jim Douglass is a writer and a Catholic Worker He and his wife Shelley are co founders of the Ground Zero Center for Nonviolent Action in Poulsbo WA and Mary s House a Catholic Worker house of hospitality in Birmingham AL He is currently writing three books on the assassinations of the Kennedys Malcom X and King in the 1960 s with Orbis Books The James Douglass Reprint Series The Non Violent Cross Resistance and Contemplation Lightning East to West The Nonviolent Coming of God *The Cambridge Companion to Postmodern Theology* Kevin J. Vanhoozer,2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God

might mean in a postmodern age and vice versa The book then offers examples of different types of contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective Leading theologians contribute to this clear and informative Companion which no student of theology should be without

Resistance and Theological Ethics Ronald H. Stone, Robert L. Stivers, 2004-08-13 Protestantism at its best grounds both its religious and its social critique in the faith of the prophets and the life and teachings of Jesus Christ as understood and lived by the church Its teachings and desired practice stand in stark contrast to complacent religion that seems to be at ease with imperial greed domination and violence *Resistance and Theological Ethics* collects the edited and updated essays that emerged from the meeting of the Theological Educators for Presbyterian Social Witness in Geneva Switzerland and southern France in 1999 Inspired there by the sixteenth century forces of renewal unleashed through resistance to an imperial church and society the writings of these educators and ethicists combine to sound a clarion call for the church to stand in resistance to social economic and political forces that threaten while embracing those that foster social justice peace and human welfare Each author emphasizes a specific call to nonviolent resistance against powers grounded in particular forms of sin religious pride greed violence and domination Divided into three parts the book details social forces to be resisted presents historical and biblical examples of resistance and concludes with theological analysis and advocacy for action in contemporary American society

The Power of the Church Michael R. Wagenman, 2020-11-20 It is fascinating that in all the media reports and discussions of the church's abuse of power in the early years of the twenty first century few if any seemed to notice that the accusation of the church's misuse of power presupposed a shared understanding of the positive use of power within the church that had been violated Rather than an interest in the sociological aspect of this question this book examines the more ontological and normative aspects of it That is it investigates and discerns the foundational theological framework of culture and society and the location and purpose of the church within them As a cultural force and societal institution what does the church constructively bring to the human community

Confronting the Will-to-Power Mark F.W. Lovatt, 2006-10-19 The author

takes up Niebuhr's theology and presents it to be at its heart an attempt to grapple with the most powerful and most dangerous aspect of human nature a quality Niebuhr describes as the will to power Lovatt argues forcibly that Niebuhr identifies the fundamental nature of human sin as having very specific qualities and that Niebuhr over his various works develops a theology which seeks to deal effectively with this quality both theologically and practically Lovatt discusses the main areas of doctrine covered by Niebuhr and considers how his position reflects his underlying agenda to grapple with the reality of the will to power this leads to some important conclusions about Niebuhr modern theology and the present day problem of evil

Propaganda and Power in the Age of Globalization Simon Sherratt, 2024-08-15 Following victory in World War II the US and Western Europe claimed to be the champions of the political ideals of democracy and freedom along with the economic ideal of free market capitalism Two decades into the twenty first century these once noble ideals have been reduced to little more than myths myths that bear scant resemblance to the realities of the powerful political and economic forces that dominate the Western world This book examines the dangerous prospects we face as the societies built upon these myths begin to fragment and crumble In an open and accessible style this book argues that much of the confusion that currently plagues the West is due to the fact that its social economic and political systems are saturated by a little understood and rarely acknowledged system of propaganda This book seeks to clear away this propagandistic facade in order to reveal where power really lies in Western societies examining how this power functions and how it has corrupted the ideals of democracy freedom and capitalism to suit its own ends This volume will be of value to those interested in modern history and social and political history

Oil, Power, and War Matthieu Auzanneau, 2020-02-20 The story of oil is one of hubris fortune betrayal and destruction It is the story of a resource that has been undeniably central to the creation of our modern culture and ever present during the darkest exploits of empire the world over For the past 150 years oil has become the most essential ingredient for economic military and political power And it has brought us to our present moment in which political leaders and the fossil fuel industry consider extraordinary and extraordinarily dangerous policy on a world stage marked by shifting power bases Upending the conventional wisdom by crafting a people's history award winning journalist Matthieu Auzanneau deftly traces how oil became a national and then global addiction outlines the enormous consequences of that addiction sheds new light on major historical and contemporary figures and raises new questions about stories we thought we knew well What really sparked the oil crises in the 1970s the shift away from the gold standard at Bretton Woods or even the financial crash of 2008 How has oil shaped the events that have defined our times two world wars the Cold War the Great Depression ongoing wars in the Middle East the advent of neoliberalism and the Great Recession among them With brutal clarity *Oil Power and War* exposes the heavy hand oil has had in all of our lives and illustrates how much heavier that hand could get during the increasingly desperate race to control the last of the world's easily and cheaply extractable reserves

The Power of the Machine Alf Hornborg, 2001-10-16 Hornborg argues that we are caught in a collective illusion about the nature of modern technology that prevents us from imagining solutions to our economic and environmental crises other than technocratic fixes He demonstrates how the power of the machine generates increasingly asymmetrical exchanges and distribution of resources and risks between distant populations and ecosystems and thus an increasingly polarized world order The author challenges us to reconceptualize the machine industrial technomass as a species of power and a problem of culture He shows how economic anthropology has the tools to deconstruct the concepts of production money capital and market exchange and to analyze capital accumulation as a problem at the very interface of the natural and social sciences His analysis provides an alternative understanding of economic growth and technological development Hornborg's work is essential for researchers in anthropology human ecology economics political economy world systems theory environmental justice and science and technology studies Find out more about the author at the Lund University Sweden web site

Quality and Power in the Supply Chain James Lamprecht, 2000-10-25 *Quality and Power in the Supply Chain* reconciles two divergent worlds for the beleaguered quality manager The first is that of quality and managerial fads

promoted by quality professionals and the quality industry with its seminars certification programs and the pressures of an ever increasing number of international standards state and national legislation and powerful corporations The second is a virtual antithesis to this world of mission statements quality policies procedures and statistical techniques and is embodied in the international phenomenon that is the Dilbert TM cartoon strip Across America and Europe millions of ordinary employees revel in the truths that are exposed concerning corporate absurdities and a blind reliance upon acronym laden quick fixes Here you will find the gap bridged between the vast literature of quality fads including the recent tranche of international standards and that more humorous portrayal of these worlds The origins of today s quality ideology and industry is traced followed by a description of how the quality profession popularizes promotes and ultimately benefits from the fads that come and go Finally it is shown that despite the propaganda of the profession there is a separate reality to quality and that management principles in this field can only ever be a small limiting factor in corporate success Addresses a vital aspect of Supply chain Management one of todays hottest management topics From a widely and internationally published quality author and professional The Emperors Clothes for the Quality profession
