Resistible Theatres: Enterprise and Experiment in the Late Nineteenth Century John Stokes, 1972 A discussion of the history and theatre movements in Great Britain Resistible theatres: enterprise and experiment in the late nineteenth century John Stokes, *The Cambridge Companion to Victorian and Edwardian Theatre* Kerry Powell, 2004-02-19 This Companion is designed for readers interested in the creation production and interpretation of Victorian and Edwardian theatre in its own time and on the contemporary stage The volume opens with an introduction surveying the theatre of the time followed by an essay contextualizing the theatre within the culture as a whole Succeeding chapters examine performance production and theatre including the music the actors stagecraft and the audience plays and playwriting and issues of class and gender Chapters also deal with comedy farce melodrama and the economics of the theatre Romantic Stages Alicia Finkel, 2005-07-01 Though Romantic elements in stage design are often thought to have ended with the advent of the Victorian era they in fact persisted into the second half of the nineteenth century Romantic stages were used in the productions of many of the most prominent actor managers of the period including Madame Vestris Charles Kean Wilson Barrett Henry Irving and Herbert Beerbohm Tree This work shows how the emphasis placed on the visual elements of Victorian productions the spectacular romantic settings and historically accurate costumes revolutionized the position that stage designers held They emerged from anonymity becoming recognized and highly praised collaborators in the creative process **Reading Modern Drama** Alan Ackerman, 2012-04-25 Exploring the relationship between dramatic language and its theatrical aspects Reading Modern Drama provides an accessible entry point for general readers and academics into the world of contemporary theatre scholarship This collection promotes the use of diverse perspectives and critical methods to explore the common theme of language as well as the continued relevance of modern drama in our lives Reading Modern Drama offers provocative close readings of both canonical and lesser known plays from Hedda Gabler to e e cummings Him Taken together these essays enter into an ongoing fruitful debate about the terms modern and drama and build a much needed bridge between literary studies and performance studies **Lives of Shakespearian Actors, Part V, Volume 1** Tetsuo Kishi, Anjna Chouhan, Katharine Cockin, 2024-05-17 Extracts from diaries memoirs private letters obituaries and other rare ephemera are drawn together to build a contemporary account of the acting achievements and personal lives of three inspiring figures from the late nineteenth century theatre Herbert Beerbohm Tree Henry Irving and Ellen Terry

Archaeology Barry W. Cunliffe, Wendy Davies, Colin Renfrew, 2002 Twenty six leading scholars from around the world have come together to celebrate the strengths the energies and the sheer intellectual excitement of their discipline They unashamedly proclaim that over the last hundred years archaeology has transformed itself from a genteel antiquarian pursuit deeply rooted in the classical tradition to a rigorous and demanding discipline spanning the humanities and the sciences yet at the same time one widely accessible to the public at large The contributors show how our understanding of the past has

changed reveal the exciting ideas under current debate and offer their visions of the future The result is a remarkable overview of world archaeology focusing on new and unexpected themes at the cutting edge of the discipline **Russomania** Rebecca Beasley, 2020-03-31 Russomania Russian Culture and the Creation of British Modernism provides a new account of modernist literature's emergence in Britain British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French English and Russian models Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers editors and politicians who made up the early twentieth century intellectual class the British intelligentsia Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period the relation between language and action writer and audience and the work of art and lived experience The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti formalism and revived romanticism of the 1930s and 1940s future **Theatrical Costume, Masks, Make-Up and Wigs** Sidney Jackson Jowers, 2013-10-15 This is the first bibliography in its field based on first hand collations of the actual articles International in scope it includes publications found in public theatre libraries and archives of Barcelona Berlin Brussels Budapest Florence London Milan New York and Paris amongst others Over 3500 detailed entries on separately published sources such as books sales and exhibition catalogues and pamphlets provide an indispensable guide for theatre students practitioners and historians Indices cover designers productions actors and performers The iconography provides an indexed record of over 6000 printed plates of performers in role illustrating performance costume from the 18th to 20th century **The Oxford Handbook of Victorian Literary Culture** Juliet John, 2016-07-14 The Oxford Handbook of Victorian Literary Culture is a major contribution to the dynamic field of Victorian studies This collection of 37 original chapters by leading international Victorian scholars offers new approaches to familiar themes including science religion and gender and gives space to newer and emerging topics including old age fair play and economics Structured around three broad sections Ways of Being Identity and Ideology Ways of Understanding Knowledge and Belief and Ways of Communicating Print and Other Cultures

the volume is sub divided into nine sub sections each with its own lead essay on subjectivity politics gender and sexuality place and race religion science material and mass culture aesthetics and visual culture and theatrical culture The collection like today s Victorian studies is thoroughly interdisciplinary and yet its substantial Introduction explores a concern which is evident both implicitly and explicitly in the volume s essays that is the nature and status of literary culture and the literary from the Victorian period to the present The diverse and wide ranging essays present original scholarship framed accessibly for a mixed readership of advanced undergraduates graduate students and established scholars The Plays of W. English Theatre in Transition 1881-1914 James Woodfield, 2015-07-16 Originally published in 1984 The turn of the nineteenth and twentieth centuries was a time of considerable change in the English theatre Victorian attitudes were shocked or shattered by the new drama of Ibsen the major figure of George Bernard Shaw dominated the period theatre censorship was the subject of a long and furious contest and staging conventions changed from the spectacular stylings of Irving and Beerbohm Tree to the masking and statuesque styles of Isadora Duncan and the inner realism of Stanislavsky This book traces the activities of the leading figures in the English theatre notably William Archer who introduced Ibsen to this country and who became one of the main promoters of the idea of a National Theatre Other personalities discussed include Harley Granville Barker particularly his association with Shaw at the Court Theatre and his part in campaigns against censorship and for changes in the staging of Shakespeare and Edward Gordon Craig whose rebellion against the Victorian theatre took an anti-realist direction This is a stimulating account of the background to the modern English theatre which can only increase appreciation of its standard and variety

Women's Theatre Writing in Victorian Britain K.

Newey,2005-11-01 *Women's Theatre Writing in Victorian Britain* is the first book to make a comprehensive study of women playwrights in the British theatre from 1820 to 1918. It looks at how women playwrights negotiated their personal and professional identities as writers and examines the female tradition of playwriting which dramatises the central experience of women's lives around the themes of home, the nation and the position of women in marriage and the family. The book also includes an extensive Appendix of authors and plays which will be a useful reference tool for students and scholars in nineteenth century studies and theatre historians.

Naturalism and Symbolism in European Theatre 1850-1918 Claude Schumacher,1996-09-26 This fourth volume in the series *Theatre in Europe* charts the development of theatrical presentation at a time of great cultural and political upheaval.

Nineteenth Century Theatre Research ,1973 **Women's Playwriting and the Women's Movement, 1890-1918** Anna Farkas,2019-05-13 The influence of the women's movement has long been a scholarly priority in the study of British women's drama of the late nineteenth and early twentieth centuries but previous scholarship has largely clustered around two events: the New Woman in the 1890s and the suffrage campaign in the years before the First World War. *Women's Playwriting and the Women's Movement 1890-1918* is the first designated study of British women's drama from a period of exceptional productivity and innovation for female playwrights. Both the British theatre and women's position within British society underwent fundamental changes in this period and this book shows how female dramatists carefully negotiated their position in the heated debates about women's rights that occurred at this time while staking out a place for themselves in an evolving theatrical landscape. Farkas also identifies the women's movement as a key influence on the development of female authored drama between 1890 and 1918 but argues that scholarly prioritizing of the radicalism of work associated with the New Woman and the suffrage campaign has had a distorting effect in the past. Ideal for scholars of British and Victorian theatre. *Women's Playwriting and the Women's Movement 1890-1918* offers a new perspective which emphasizes the complexity of women playwrights' engagement with first wave feminism and links it to the diversification of the British theatre in this period.

The Victorian Idyll in Art and Literature Thomas Hughes,Emma Merkling,2023-12-29 Resonating with contemporary ecological and queer theory this book pioneers the theorization of the Victorian idyll establishing its nature, lineaments and significance as a formal mode widely practised in nineteenth century British culture across media and genre. Chapters trace the Victorian idyll's emergence in the 1830s, its flourishing in the 1860s and its evolution up to the century's close drawing attention to the radicalism of idyllic experiments with pictorial, photographic, dramatic, literary and poetic form in the work of canonical and lesser known figures. Approaching the idyll through three intersecting categories: subject, ecology and form this book remaps Victorian culture, reshaping thinking about artistic form in the nineteenth century and recalibrating accepted chronologies. In the representations by a host of Victorian artists and writers engaging with other than human forms and in the natures of the subjectivities animated by these encounters we find versions of Victorian ecology providing provocative, imaginative material.
