Institutional reform in NBR

- Establish separate unit for tax-base identification, tax assessment and realization. Unified responsibility of existing taxation process creating scope of corruption that to be eliminated if we expect the revenue augmentation.
- Reinstate the tax ombudsman which is now a sort of inactive. Absent of tax ombudsman cause of suffering for people in taxation process those are really enthusiastic for tax paying, on the other govt. is being deprived from her expected tax due to undue domination by the NBR officials and a few fraud companies also.
- NBR should capacitated to imposed discriminatory tax rate based on the economic activities and their out & impact on employment & service that is prevailed in different developed and developing countries. Developing a Sustainable Economy in Cameroon Aloysius Ajab Amin,2008 Developing a Sustainable Economy in Cameroon is an ambitious effort as the authors try to set a blue print for Cameroon s economy In the 1980s facing economic crisis and as dictated by the structural adjustment programme Cameroon sharply cut public investment expenditures before later cutting government consumption which were followed by privatisation liquidation of public companies and reduction in the size of the public sector All these measures are believed to have had devastating effects on the economy Given the performance of the economy so far the authors suggest that much more effort with a strong commitment of the main stakeholders is required to guarantee sustainable economic development in Cameroon Truly very few countries in Africa possess such enormous human and natural resources as Cameroon does This volume brings out the challenges Cameroon faces in its quest for development as well as for designing appropriate strategies for addressing those development challenges

Policymaking Under Adversity Yehezkel Dror, 2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror's Public Policymaking Reexamined by dealing with current trends As a guide to public policy literature and related works it will be invaluable to students and practitioners
