Decentralization and Economic Development in Nigeria Nwafejoku Okolie Uwadibie,2000 This is the only book of its kind to address the effect of agricultural decentralization on the Nigerian national economy In his effort to demonstrate how decentralization promotes development that can economically empower individuals Uwadibie thoroughly analyzes three key aspects of Nigeria s decentralization policy These are the Local Government Reform Act of 1976 the creation of new states and the implementation of the Structural Adjustment Program SAP Together these policies reduced the overall role of the federal government in the national economy by diverting revenue to states and dissolving the federal government s direct ownership of agricultural enterprises Based on his extensive research Uwadibie concludes by making a number of additional policy recommendations that he believes are essential for Nigeria to become self sufficient in food production Those with an interest in African studies economic development or agricultural production will find much to their liking in this work

Sustainable Development in Third World Countries Valentine U. James,1996-02-13 Sustainable development has been approached from many viewpoints over the past 15 years without a concise or precise definition of what sustainable development really stands for James has solicited contributions from an international group of experts who write about aspects of sustainable development from many different disciplines Their consensus is that sustainability depends upon concerted development across the spectrum of socioeconomic factors that affect the environment natural resources health education and welfare of the populations in the emerging nations The necessity of incorporating indigenous knowledge with technological and international expertise has become crucial

Africa

After the Cold War Adebayo Oyebadde, Abiodun Alao, 1998 Although it is widely recognised that Africa's security problems are acute it has never been a subject of much intellectual inquiry This lack of scholarly discourse on the many dimensions of the problems of African security is the major consideration of this book The approach to the questions of security differ markedly from the traditional approach that gives primacy to the threat of military aggression as sole factor in state security A departure must be made from this dominant preoccupation in a new global order that has seen profound changes

Africa's Ecology Valentine Udoh James, 1993 Rising population in Africa has resulted in a growing demand for consumer goods and basic necessities food shelter clothing and energy causing a dramatic decline in the environment Documented through case studies and photographs are five basic ecological issues facing Africa the destruction of wildlife the decline of natural habitats pollution land degradation and human shelter International agencies roles in reversing the negative trends are examined *Response to Land Degradation* E M Bridges, 2019-04-24 This work is intended for advanced readers

interested in methods of sustainable land management the prevention and control of land degradation It offers a coherent view of the situation concerning land degradation and the human response to the problem It is generally recognized that technological solutions alone cannot solve the problems of land degradation This book discusses the role of land use and land management policies programmes institutional innovations and economic incentives for the control and prevention of land degradation Special attention is given to legal issues at the international level and in individual countries International

 published in 1994 Paradise Lost is the outcome of a unique collaboration between economists and ecologists initiated by the
 Beijer Institute of the Royal Swedish Academy of Sciences The book examines how the loss of biodiversity is one of the most
 serious problems the world faces and suggests that new interdisciplinary thinking is required to safeguard both us and the
 biosphere from the effects of species extinction The book examines how an integrated interdisciplinary approach to the
 conservation of biodiversity can understand and tackle the issue It provides an overview of the causes of the problem and
 examines previous approaches to dealing with it The book also addresses how the loss of biodiversity affects natural systems
 and provides an examination of environmental policy while discussing how this has been affected by the ecological limits to
 economic activity This book will be of interest to both academics and students of environmental sciences economics and
