Resource Management In Peace And War:

Resource Management in Peace and War Louis C. Seelig, 1990 **Resource Management in Peace and War** Louis C. Seelig, 1990 *Resource Management Journal*, 1982 **Conflict Prevention and Peace-building in Post-War Societies** T. David Mason, James D. Meernik, 2006-05-02 This volume provides an overview of the costs benefits consequences and prospects for rebuilding nations emerging from violent conflict The rationale for this comes from the growing realization that in the post Cold War era and in the aftermath of 9 11 our understanding of conflict and conflict resolution has to include consideration of the conditions conducive to sustaining the peace in nations torn by civil war or interstate conflict The chapters analyze the prospects for building a sustainable peace from a number of different perspectives examining the role of economic development democratization respect for human rights the potential for renewal of conflict the United Nations and other critical topics In an age when nation building is once again on the international agenda and scholars as well as policy makers realize both the tremendous costs and benefits in fostering developed democratic peaceful and secure nations the time has truly come for a book that integrates all the facets of this important subject Conflict Prevention and Peace building in Post War Societies will appeal to students and scholars of peace studies international relations security studies and conflict resolution as well as policy makers and analysts **Conflict and Development** Great Britain: Parliament: House of Commons: International Development Committee, 2006-10-25 Conflict and Development Peacebuilding and post conflict reconstruction sixth report of session 2005 06 Vol 2 Oral and written Evidence

Cross-Border Resource Management Rongxing Guo, 2012-12-31 In discussing theoretical and analytical issues relating to cross border resource management this book explores a group of geographical political legal economic and cultural factors that arise when political units such as sovereign countries dependent states and other administrative units seek to maximize their political and economic interests while minimizing the resultant damage e g resource degradation and preservation of the physical environment The book is organized into three parts Part one discusses the theoretical issues relating to cross border development and the cross border management of natural and environmental resources Part two provides a variety of alternatives to advancing cross border development as well as of options for cross border management of resource exploitation and for cross border conflict management In Part three using the theoretical and methodological frameworks that have been discussed in Parts one and two respectively two in depth case studies on cross border development and resource management are provided Examines various types of cross border areas at both international and sub national levels throughout the world as well as their geographical political economic and cultural influences on the cross border resource management Uses the latest international and area data resulting in new findings for cross border environmental activities Contains numerous case studies throughout the world including in depth case studies of cross border resource management **The Geography of War and Peace : From Death Camps to Diplomats** Colin Flint Professor of

Geography Pennsylvania State University,2004-09-24 How and why war and peace occur cannot be understood without realizing that those who make war and peace must negotiate a complex world political map of sovereign spaces borders networks and scales This book takes advantage of a diversity of perspectives as it analyzes the political processes of war and their spatial expression Topics include terrorism nationalism religion drug wars water conflicts diplomacy peace movements and post war reconstruction

Water, Peace, and War Brahma Chellaney,2015-03-01 This pioneering and authoritative study considers the profound impact of the growing global water crunch on international peace and security as well as possible ways to mitigate the crisis Although water is essential to sustaining life and livelihoods geostrategist Brahma Chellaney argues that it remains the world s most underappreciated and undervalued resource One sobering fact is that the retail price of bottled water is already higher than the international spot price of crude oil But unlike oil water has no substitute raising the specter of water becoming the next flashpoint for conflict Water war as a concept may not mesh with the conventional construct of warfare especially for those who plan with tanks combat planes and attack submarines as weapons Yet armies don t necessarily have to march to battle to seize or defend water resources Water wars in a political diplomatic or economic sense are already being waged between riparian neighbors in many parts of the world fueling cycles of bitter recrimination exacerbating water challenges and fostering mistrust that impedes broader regional cooperation and integration The danger is that these water wars could escalate to armed conflict or further limit already stretched food and energy production Writing in a direct nontechnical and engaging style Brahma Chellaney draws on a wide range of research from scientific and policy fields to examine the different global linkages between water and peace Offering a holistic picture and integrated solutions his book promises to become the recognized authority on the most precious natural resource of this century and how we can secure humankind s water future

Ending Wars, Consolidating Peace Mats Berdal,Achim Wennmann,2013-05-13 The transition from war to peace is fraught with tension and the risk of a return to bloodshed With so much at stake it is crucial that the international community and local stakeholders make sense of the complex mosaic of challenges to support a lasting inclusive and prosperous peace Recent missions such as in Afghanistan Somalia or Sudan have highlighted the fact that there can be no one size fits all approach to steering countries away from violence and towards stability This Adelphi offers a series of economic perspectives on conflict resolution to show how the challenges of peacebuilding can be more effectively tackled From the need to marry diplomatic peacemaking with development efforts and activate the private sector in the service of peacebuilding aims to the use of taxes and natural resource revenues as a financial base for sustainable peace this book considers how economic factors can positively shape and drive peace processes It takes an unflinching look at the complex ways in which power and order may be manifested in conflict zones where unpalatable compromises with local warlords can often be the first step towards a more lasting settlement A difficult balance must be struck by peacemakers and peacebuilders in assisting countries and communities in their transitions out of war for

the consequences of failure for countries and the wider world are too grave In distilling expertise from a range of disciplines this Adelphi seeks to inform a more economically integrated and responsive approach to helping countries leave behind their troubled pasts and take a fuller role in constructing their futures *The Oxford Handbook of Peacebuilding, Statebuilding, and Peace Formation* Oliver P. Richmond, Gëzim Visoka, 2021-05-31 In addition to being a major area of research within International Relations peacebuilding and statebuilding is a major policy area within the UN and other international and regional organizations It is also a concern of international financial institutions including the World Bank and a significant factor in the foreign and security policies of many established and emerging democracies Peacebuilding and statebuilding are among the main approaches for preventing managing and mitigating global insecurities dealing with the humanitarian consequences of civil wars and expanding democracy and neoliberal economic regimes Peace formation is a relatively new concept addressing how local actors work in parallel to international and national projects and helps shape the legitimacy of peace processes and state reform The Oxford Handbook of Peacebuilding Statebuilding and Peace Formation serves as an essential guide to this vast intellectual and policy landscape It offers a systematic overview of conceptual foundations political implications and tensions at the global regional and local levels as well as key policies practices examples and discourses underlining all segments of peacebuilding and statebuilding praxis Approaching peacebuilding from disciplinary perspectives across the social sciences the Handbook is organized around four major thematic sections Section one explores how peacebuilding statebuilding and peace formation is conceived by different disciplines and IR approaches thus offering an overview of the conceptual bedrock of major theories and approaches Section two situates these approaches among other major global issues including globalization civil society terrorism and technology to illustrate their global regional and local resonance Section three looks at key themes in the field including peace agreements democratization security reform human rights environment and culture Finally section four looks at key features of everyday and civil society peace formation processes both in theory and in practice **From Conflict to Peacebuilding** Richard A. Matthew, Oli Brown, United Nations Environment Programme, David Jensen, 2009 Today's changing security landscape requires a radical shift in the way the international community engages in conflict management This report by the United Nations Environment Programme aims to review the latest knowledge and field experience on the linkages between environment conflict and peacebuilding and to discuss the ways in which these issues can be addressed and integrated in a more coherent and systematic way by the UN Member States and other stakeholders involved in peacebuilding interventions and conflict prevention **Livelihoods, Natural Resources, and Post-Conflict Peacebuilding** Helen Young, Lisa Goldman, 2015-04-10 Sustaining and strengthening local livelihoods is one of the most fundamental challenges faced by post conflict countries By degrading the natural resources that are essential to livelihoods and by significantly hindering access to those resources conflict can wreak havoc on the ability of war torn populations to survive and recover This book explores how natural resource management

initiatives in more than twenty countries and territories have supported livelihoods and facilitated post conflict peacebuilding Case studies and analyses identify lessons and opportunities for the more effective design of interventions to support the livelihoods that depend on natural resources from land to agriculture forestry fisheries and protected areas The book also explores larger questions about how to structure livelihoods assistance as part of a coherent integrated approach to post conflict redevelopment Livelihoods and Natural Resources in Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water assessing and restoring natural resources and governance War and Peace in Qajar Persia Roxane Farmanfarmaian,2008-01-30 With new and existing evidence being reconsidered this edited collection takes a multidisciplinary approach to discussing the Qajar system within the context of the wars that engulfed it and the periods of peace that ensued It throws new light on the decision making processes the restraints on action and the political exigencies at play during the Qajar years *Handbook of Water Resources Management: Discourses, Concepts and Examples* Janos J. Bogardi,Joyeeta Gupta,K. D. Wasantha Nandalal,Léna Salamé,Ronald R.P. van Nooijen,Navneet Kumar,Tawatchai Tingsanchali,Anik Bhaduri,Alla G. Kolechkina,2021-06-12 This book provides an overview of facts theories and methods from hydrology geology geophysics law ethics economics ecology engineering sociology diplomacy and many other disciplines with relevance for concepts and practice of water resources management It provides comprehensive but also critical reading material for all communities involved in the ongoing water discourses and debates The book refers to case studies in the form of boxes sections or as entire chapters They illustrate success stories but also lessons to be remembered to avoid repeating the same mistakes Based on consolidated state of the art knowledge it has been conceived and written to attract a multidisciplinary audience The aim of this handbook is to facilitate understanding between the participants of the international water discourse and multi level decision making processes Knowing more about water but also about concepts methods and aspirations of different professional disciplinary communities and stakeholders professionalizes the debate and enhances the decision making **Evaluation of the project “Water for Peace in Yemen: Strengthening the role of women in water conflict resolution”** Food and Agriculture Organization of the United Nations,2022-07-05 The project Water for Peace in Yemen Strengthening the role of women in water conflict resolution was funded by the United Nations Secretary General s Peacebuilding Fund PBF The project was implemented jointly by the Food and Agriculture Organization of the United Nations FAO the International Organization for Migration IOM the Hadramout Ministry of Water and Environment and the Women Water Users Groups WWUG The Water for Peace in Yemen project aimed at contributing to the mitigation of water based conflicts that have affected agriculture with the inclusion of women as conflict resolution agents Farming communities men women and youth were engaged by the project to resolve local conflicts

over upstream and downstream water allocation Moreover the project aimed to introduce drought tolerant as well as salt tolerant crops as a climate change mitigation measure in a cash for work CFW modality The evaluation found that the project's main achievements were the institutionalization of this role through the water user associations WUAs and strengthening the role of women within their communities

Peace Ecology Randall Amster,2015-11-17 Peace Ecology presents a cutting edge exploration of an emerging paradigm that links the essence of peace and nonviolence with the tenets of ecology and the principles of environmentalism Looking at issues including food justice water sharing climate change peace zones and the free economy this book considers examples and illustrations from around the world where people communities and nations are employing the teachings of ecology as a tool for mitigating conflict and promoting peace Peace Ecology presents an integrative perspective that bears directly upon the most pressing issues of our time constituting both the ecological realm of peace and the peacemaking potential of ecology The volume examines the rich history contemporary relevance and transformative future potential inherent in this dynamic nexus of theory and action Its overarching aim is no less than moving the current scarcity conflict paradigm to one of cooperative resource management and ultimately toward peaceful coexistence both among ourselves and within the balance of nature To read the Common Dreams excerpt of Peace Ecology Click Here Talk Nation Radio Interview with Randall Amster and David Swanson here

Governance, Natural Resources and Post-Conflict Peacebuilding Carl Bruch,Carroll Muffett,Sandra Nichols,2016-04-07 When the guns are silenced those who have survived armed conflict need food water shelter the means to earn a living and the promise of safety and a return to civil order Meeting these needs while sustaining peace requires more than simply having governmental structures in place it requires good governance Natural resources are essential to sustaining people and peace in post conflict countries but governance failures often jeopardize such efforts This book examines the theory practice and often surprising realities of post conflict governance natural resource management and peacebuilding in fifty conflict affected countries and territories It includes thirty nine chapters written by more than seventy researchers diplomats military personnel and practitioners from governmental intergovernmental and nongovernmental organizations The book highlights the mutually reinforcing relationship between natural resource management and good governance Natural resource management is crucial to rebuilding governance and the rule of law combating corruption improving transparency and accountability engaging disenfranchised populations and building confidence after conflict At the same time good governance is essential for ensuring that natural resource management can meet immediate needs for post conflict stability and development while simultaneously laying the foundation for a sustainable peace Drawing on

analyses of the close relationship between governance and natural resource management the book explores lessons from past conflicts and ongoing reconstruction efforts illustrates how those lessons may be applied to the formulation and implementation of more effective governance initiatives and presents an emerging theoretical and practical framework for policy makers researchers practitioners and students Governance Natural Resources and Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water livelihoods and assessing and restoring natural resources

The Political Economy of Peacemaking Achim Wennmann, 2010-12-14 This book focuses on the economic dimensions of peace processes and examines the opportunities and constraints for assisting negotiated exits out of conflict Various works have addressed the economic characteristics and consequences of armed conflicts over the past two decades including issues such as blood diamonds natural resource wars economically motivated armed violence self financing conflict or the complicity of companies and state elites in conflict economies However rather than treating these issues as obstacles for peace this book explores whether they can be opportunities for peacemaking by adopting a political economy perspective The book looks at income sharing from natural resources as an opportunity for forward looking peacemaking strategies and the implications of deal making in situations in which war economies and insecurity provide strongmen with disproportionate political and economic power The book also highlights that peace processes are not necessarily about the rectification of a conflict's root causes but rather about what matters most to the main stakeholders at the moment when a peace process starts taking shape Finally efforts to establish a lasting peace need to go beyond the traditional set of actors associated with peace processes The strategic involvement of donor agencies companies and diaspora communities can strengthen forward looking peace processes The book will help both student and practitioner audiences to better understand armed conflicts and their belligerents optimize the planning and management of peace initiatives and shape expectations in peace agreements It will be of much interest to students of peacebuilding conflict studies development studies International Political Economy and International Relations in general

The Geography of War and Peace Colin Flint, 2005 Our world of increasing and varied conflicts is confusing and threatening to citizens of all countries as they try to understand its causes and consequences This book takes advantage of a diversity of geographic perspectives as it analyzes the political processes of war and their spatial expression
