Managing Microorganisms David Smith, Matthew J. Ryan, Alan G. Buddie, 2023-03-21 A significant portion of basic and applied life science research requires microorganisms as study specimens *Managing Microorganisms* aims to be the standard reference for anyone who works with microorganisms primarily bacteria and fungi It is applicable to researchers who maintain their own collections of strains and those who use one of the many public service culture collections *Managing Microorganisms* is an essential reference for anyone working with microorganisms and culture collections In addition it will

be of great use for academic researchers and students in applied life sciences especially those who are involved in sourcing and maintaining reference strains whilst it also will provide a useful guide for consultants biotechnologists and other members of bioindustry *Biotechnology in a Global Economy* DIANE Publishing Company,1992-06 Sustainable Agriculture Rajiv K. Sinha, Wastewater Reuse and Watershed Management Ajai Singh,2019-06-26 Water is a finite resource and the demand for clean water is constantly growing Clean freshwater is needed to meet irrigation demands for agriculture for consumption and for industrial uses The world produces billions of tons of wastewater every year This volume looks at a multitude of ways to capture treat and reuse wastewater and how to effectively manage watersheds It presents a selection of new technologies and methods to recycle reclaim and reuse water for agricultural industrial and environmental purposes The editor states that more than 75 80% of the wastewater we produce goes back to nature without being properly treated leading to pollution and all sorts of negative health and productivity consequences Topics cover a wide selection of research including molluscs as a tool for river health assessment flood risk modeling biological removal of toxins from groundwater saline water intrusion into coastal areas urban drainage simulations rainwater harvesting irrigation topics and more Key features explores the existing methodologies in the field of reuse of wastewater looks at different approaches in integrated water resources management examines the issues of groundwater management and development discusses saline water intrusion in coastal areas presents various watershed management approaches includes case studies and analyses of various water management efforts **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1990 **Earthworm Assisted Remediation of Effluents and Wastes** Sartaj Ahmad Bhat,Adarsh Pal Vig,Fusheng Li,Balasubramani Ravindran,2020-07-01 This book provides updated and comprehensive information on the effective functioning of earthworms used alone or in combination with other biological systems microbes as well as factors affecting the process and performance of vermiremediation under a range of conditions It also compares earthworm assisted vermifiltration with other conventional biochemical methods Presenting cutting edge research on the earthworm assisted remediation of industrial and municipal effluents and sludges along with its role in solid waste management SWM the book will benefit readers from the research community and industrial sector alike familiarizing them with the latest remediation techniques for wastewater and different types of solid waste *Microbial Cell Factories* Deepansh Sharma,Baljeet Singh Saharan,2018-03-22 Microbial Cell Factories is a conceptual reference based source including chapters covering microbial cell factories for industrial developments microbial biotechnology sustainable environmental solutions agriculture practices microorganisms in food processing metabolites as next generation food additives food processing and microbial cell factories in alternative energy fuel generation The book highlights trends and developments in the field of microbial products written by an international team of leading academic and research scholars Key Selling Features Highlights trends and developments in microbial biotechnology Systematically reviews microbial cell factories Explores the potential of microbial

cell derived industrial production Synthesizes information on environmental and agricultural uses of microbial biotechnology Contributions from an international team of leading scholars The Value and Valuation of Natural Science Collections John R. Nudds, Charles William Pettitt, 1997 *Plant Food Allergens* E. N. Clare Mills, Peter R. Shewry, 2008-04-15 Plant Food Allergens is concerned with a paradox of immense potentially life threatening significance to about 1 in 100 adults and 1 in 10 children The paradox is that certain nutritious proteins from wholesome foods can act as if they were harmful sometimes deadly poisons to these people who possess an allergy to them In order to study the complex problems of food allergy a EU funded network called PROTALL was set up bringing together a wide range of clinicians and scientists This important book is largely based on the outcome of its investigations Written by over 30 acknowledged experts and carefully edited by Dr Clare Mills and Professor Peter Shewry themselves well known internationally this important work covers all major aspects of the subject Commencing with introductory chapters the comprehensive contents of *Plant Food Allergens* includes details of the major allergens including plant lipid transfer proteins the 2S albumin proteins the cereal amylase trypsin family latex and plant chitinases profilins bet v 1 homologous allergens and plant seed globulins The book concludes with important chapters on the assessment of the allergenicity of novel and GM foods and the monitoring of and technological effects on allergenicity of proteins in the food industry *Plant Food Allergens* is an essential purchase for a wide range of scientists and clinicians including plant and agricultural scientists chemists allergy specialists food scientists and technologists pharmacologists physiologists and nutritionists Libraries in all research establishments and universities researching and teaching these subjects will need copies of this important book on their shelves Dr Clare Mills is based at The Institute of Food Research Norwich UK Professor Peter Shewry is based at Rothamsted Research Harpenden UK **Bio-Inspired Land Remediation** Vimal Chandra Pandey, 2023-01-01 Land is fundamental to the human life The upper layer of land is a non renewable resource and source of food Therefore land health is essential to long term food security and to promote sustainable livelihoods On account of urbanization industrialization and population growth land pollution is one of the major issues worldwide As a result land pollution is continuing across the world and has been linked with a wide range of potentially toxic contaminants at rates that deteriorate land quality Land pollution can result either anthropogenic activities or natural activities The major contaminants of land pollution are metalloids petroleum hydrocarbon radioactive elements polyaromatic hydrocarbons PAHs Pesticide other organic pollutants etc that comes from different types of sources In urban and peri urban areas irrigation of agricultural land with polluted water is also a reason of land pollution Therefore land security is an important issue for future sustainability Its remediation and management are important issue worldwide to protect land quality and functions Land pollution means degradation of earth's surface Polluted land comes under the category of degraded land Hence the remediation of polluted land is essential for regaining biodiversity and ecosystems services and thereby achieving United Nations Sustainable Development Goals UN SDGs This fact showed the need to develop research

into land remediation Bio inspired land remediation has undergone a huge development Therefore Biomanagement has a lot of potential to secure upper earth s surface through the land remediation programs targeted during the United Nations Decade on Ecosystem Restoration 2021 2030 This book explores the remediation of land pollution that includes Phytoremediation Bioremediation bacterial remediation and fungal remediation Vermiremediation Biochar based remediation and other Bio inspired remediation This book will be a remarkable asset for research scholars environmentalists ecological scientist agriculturist practitioners policy makers entrepreneurs and other stakeholders alike
