The UN Security Council Members' Responsibility to Protect Andreas S. Kolb, 2017-12-04 This book examines the hard legal core of any of the Responsibility to Protect R2P concept with regard to the commitment to take collective action through the UN Security Council It addresses the question of whether public international law establishes a duty on the part of the individual Security Council members to collectively take the necessary action to prevent atrocities genocide crimes against humanity war crimes and ethnic cleansing To this end it offers an interpretation of provisions in multilateral conventions such as the undertaking to prevent genocide in Article 1 of the Genocide Convention and the undertaking to ensure respect for the Geneva Conventions in common Article 1 of the 1949 Geneva Conventions analyses the UN Charter framework for Security Council action and explores whether the recognition of the international responsibility to protect has prompted the emergence of a new norm for general international law

The Oxford Handbook of the Responsibility to Protect Alex Bellamy, Tim Dunne, 2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade

Responding to Mass Atrocities in Africa Raymond Kwun-Sun Lau, 2021-12-14 This book explores the relationship between the Responsibility to Protect R2P and the International Criminal Court ICC challenging the assumption that they are always mutually reinforcing or complementary and examining instead the many tensions which arise between the immediate imperative of saving lives and the more long term prospect of punishing perpetrators and preventing future conflicts through deterrence Around the world audiences in the mid 1990s watched the mass atrocities unfolding in Rwanda and Srebrenica in horror and disbelief Emerging from these disasters came an international commitment to safeguard and protect vulnerable communities as laid out in the R2P principle and an international responsibility to punish perpetrators with the establishment of the ICC The book provides context independent proposals for resolving contradictions between the

two principles suggesting that focusing on timing and sequencing in invoking international R2P and ICC actions could facilitate the easing of tensions Drawing on examples from Uganda Kenya and Darfur the book applies International Relations concepts and theories in order to deepen our understanding of international responses to mass atrocities Ultimately the book concludes that a Protection First Justice Later sequence approach is necessary for managing the tension and facilitating more effective and consistent international responses This book makes an important contribution to discussions and debates surrounding international responses to genocide and mass atrocities It will be of special interest to scholars students and policymakers in International Relations Global Governance African Studies International Development Human Rights and International Criminal Law *International Intervention and State-making* Selver B. Sahin, 2015-07-16 This book analyses the changing dynamics of sovereignty resulting from contemporary international state building interventions It aims to highlight how the exercise of exceptional forms of power by intervening agencies impacts on the sovereign capacity of intervened states Drawing upon in depth analyses of three case studies Kosovo East Timor and the Kurdistan Regional Government the book shifts the focus of the debate to the nature of contemporary intervention as an act of statemaking and argues that foreign intervention changes the dynamics of political power upon which sovereignty is structured At the same time it reveals how intervention reproduces the imposed conditions of international state making thus permanently internalising external regulatory mechanisms International intervention in other words becomes the constitutive element of governance in the newly created state This book will be of much interest to students of statebuilding war and conflict studies global governance security studies and IR *The International Criminal Court and the Responsibility to Protect* Stefano Marinelli, 2022-07-28 This book examines the parallel development and interaction between the International Criminal Court ICC and the doctrine of the Responsibility to Protect RtoP assessing this relationship over time and through case studies of Darfur Libya and Syria The similarities and connections between the doctrine and the Court have been highlighted by UN bodies the organs of the Court and scholars yet their relationship and common impact on international law have been less explored This book fills this gap in presenting an overview of how the development of RtoP and the ICC affect various branches of international law The research shows that while the doctrine and the Court experienced significant implementation problems in their first decades of life they nonetheless have the potential to contribute to the historical evolution of international law in combining their values of promoting international peace and protecting human rights This interdisciplinary study will be useful for scholars of international law and international relations It will also be beneficial to persons working for international organisations and for civil society organisations focused on the activity of the ICC and on the development of RtoP **Protecting the Global Civilian from Violence** Timo Kivimäki, 2021-05-10 This book reveals why the UN is more successful than unilateral great powers in protecting civilians from violence and focuses on the discourse development and consequences of UN peacekeeping Analysing statistics of state fragility and fatalities of violence it reveals

that the UN has managed to save tens of thousands of lives with its peacekeeping a surprising statistic given the media consensus about the UN's powerlessness and inefficiency Using computer assisted discourse analysis of resolutions from the UN Security Council 1993-2019 the book offers data that describe the character and development of UN approach to the protection of civilians from violence It then links the data to the statistics of conflict fatalities and state fragility to reveal by means of qualitative and quantitative analysis when where how and why the UN has been successful at protecting civilians Two reasons for the UN's success are highlighted in the book as being statistically most significant First the organization offers local ownership to peaceful solutions by considering conflicting parties as the primary agents of protection Second the UN approach is much less power oriented than unilateral approaches by the great powers protection for the UN does not mean deterrence or destruction but rather support for local protectors of civilians However strong great power influence on such operations tends to weaken UN's ability to save lives This book will be of much interest to students of humanitarian intervention peacekeeping human rights and International Relations in general

The Human Security Agenda Ronald M. Behringer, 2012-12-20 Middle power states such as Canada or Denmark are often thought of as followers of great powers rather than significant actors in global security Challenging this view this book highlights how middle powers have in fact showed great leadership by developing a human security agenda that focuses on countering threats to human beings rather than to nation states The work examines how coalitions of middle powers have performed through five case studies the formation of the Multinational Standby High Readiness Brigade for United Nations Operations SHIRBRIG the realization of the Ottawa Mine Ban Treaty the establishment of the International Criminal Court the regulation of the legal trade in small arms and light weapons and the adoption of the Responsibility to Protect R2P principle Furthermore the book explores how the human security initiatives were shaped by the middle powers choices of diplomatic strategy and how they were affected by the reactions of the hegemonic United States The Human Security Agenda will appeal to those studying international relations and global security as well as foreign policy and international organizations
