parents *Ordinary Matters* Lorraine Sim, 2016-10-20 Shortlisted for the 2017 AUHE Prize for Literary Scholarship

Ordinary Matters is the first major interdisciplinary study of the ordinary in modernist women's literature and photography. It examines how women photographers and writers including Helen Levitt, Lee Miller, Virginia Woolf, and Dorothy Richardson envision the sphere of ordinary life in light of the social and cultural transformations of the period that shaped and often radically re-shaped it, for example urbanism, instrumentalism, the Great Depression, and war. Through a series of case studies that explore such topics as the street, domestic things, gesture, and the face, Sim contends that the paradigmatic shifts that define early twentieth-century modernity not only inform modernist women's aesthetics of the everyday but their artistic and ethical investments in that sphere. The everyday has been noted as a keynote of the New Modernist Studies. Todd Avery's *Ordinary Matters* comprises a vital contribution to recent scholarship on the topic and will be of value to scholars working in British and American modernism, multimedia, modernisms, photography, twentieth-century literature, and critical and cultural histories of the everyday.

On Tropical Grounds Francisco-J. Hernandez
Adrian, 2024-10-11 *On Tropical Grounds* develops a new approach to the avant-garde and Surrealism in Caribbean and Atlantic studies. The book examines how islands and their tropical associations figure in the cultural and political imaginaries of the Caribbean and the Atlantic and identifies genealogies of local responses to continental fantasies of exotic insularity. Examining written and visual works that reflect on the Hispanic and Francophone Caribbean and the Canary Islands as well as critical debates around discourses of insularity in island and metropolitan spaces, this book considers notions of ethnic purity, originality, imitation, appropriation, cosmopolitanism, and self-exoticism to challenge the idea that avant-garde practices were pre-eminently urban and metropolitan cultural forms. The book argues that attention to the relational dimension implicit in exchanges around ideas of anticolonial struggle, radical social transformation, and anti-fascist resistance should inform analyses of cultural production in Caribbean and Atlantic insular spaces. *On Tropical Grounds* develops a persuasive critical model for the investigation of politically and aesthetically situated archipelagic relations that transgresses disciplinary boundaries and reconfigures our conception of the avant-garde as a global movement that was overdetermined by racial, gender, and colonial conflicts. This book will be of value to anyone interested in Caribbean and Atlantic studies, avant-garde, and visual culture studies and literary and cultural studies.

Humanities, 2008 *The Dust Bowl Through the Lens*
Martin W. Sandler, 2009-10-01 The Dust Bowl was a time of hardship and environmental and economic disaster. More than 100 million acres of land had turned to dust, causing hundreds of thousands of people to seek new homes and opportunities thousands of miles away, while millions more chose to stay and battle nature to save their land. FDR's army of photographers took to the roads to document this national crisis. Their pictures spoke a thousand words, and a new form of storytelling, photojournalism, was born. With the help of iconic photographs from Dorothea Lange, Walker Evans, Arthur Rothstein, and many more, Martin Sandler tells the story of a nation as it endured its darkest days and the extraordinary courage and spirit of those who survived.
