*reservoirs* G. Dennis | Welch Cooke (Eugene B. | Spencer, A.), *The Ecological Bases for Lake and Reservoir Management* David M. Harper, Bill Brierley, Alastair J.D. Ferguson, Geoff Phillips, 2013-03-09 *The Ecological Bases for Lake and Reservoir Management* provides a state-of-the-art review of the range of ecologically based techniques necessary for the holistic management of lakes and their catchments. Most of the methods, case studies, and national policies reviewed are directed towards management of the largest problem, eutrophication, with the emphasis on the multiple scale approach needed for successful management and restoration. Case studies come from the USA and ten European countries and range from single lakes through to lake districts and national inventories. Several essays precede the practical chapters with thought-provoking comments on the political, social, and economic climate of water management. **Lake and Reservoir Restoration** G.

Dennis Cooke, Eugene B. Welch, Spencer A. Peterson, 2013-10-22 *Lake and Reservoir Restoration* deals with the eutrophication process and the methods to protect, restore, and manage lakes and reservoirs. The most common in-lake techniques or procedures plus nutrient diversion are reviewed with regard to their scientific basis, methods of application, known effectiveness, feasibility, drawbacks, and costs. Areas for further research and development are also highlighted. This book is comprised of 16 chapters organized into four sections.
