The Restoration of Engravings, Drawings, Books, and Other Works on Paper Max Schweidler, 2006 Ever since its original publication in Germany in 1938 Max Schweidler's *Die Instandsetzung von Kupferstichen Zeichnungen Buchern usw* has been recognized as a seminal modern text on the conservation and restoration of works on paper To address what he saw as a woeful dearth of relevant literature and in order to assist those who have set themselves the goal of preserving cultural treasures the noted German restorer composed a thorough technical manual covering a wide range of specific techniques including detailed instructions on how to execute structural repairs and alterations that if skilfully done can be virtually undetectable By the mid twentieth century curators and conservators of graphic arts discovering a nearly invisible repair in an old master print or drawing might comment that the object had been Schweidlerized This volume based on the authoritative revised German edition of 1949 makes Schweidler's work available in English for the first time in a meticulously edited and annotated critical edition The editor's introduction places the work in its historical context and probes the philosophical issues the book raises while some two hundred annotated

The Restoration of Engravings, Drawings, Books, and Other Works on Paper Max Schweidler, 2006 **Historical Perspectives in the Conservation of Works of Art on Paper** Margaret Holben Ellis, 2015-02-01 This book is the seventh in the Readings in Conservation series which gathers and publishes texts that have been influential in the development of thinking about the conservation of cultural heritage The present volume provides a selection of more than ninety five texts tracing the development of the conservation of works of art on paper Comprehensive and thorough the book relates how paper conservation has responded to the changing place of prints and drawings in society The readings include a remarkable range of historical selections from texts such as Renaissance printmaker Ugo da Carpi's sixteenth century petition to the Venetian senate on his invention of chiaroscuro Thomas Churchyard's 1588 essay in verse *A Sparke of Frendship and Warne Goodwill* and Robert Bell's 1773 piece *Observations Relative to the Manufacture of Paper and Printed Books in the Province of Pennsylvania* These are complemented by influential writings by such figures as A H Munsell Walter Benjamin and Jacques Derrida along with a generous representation of recent scholarship Each reading is introduced by short remarks explaining the rationale for its selection and the principal matters covered and the book is supplemented with a helpful bibliography This volume is an indispensable tool for museum curators conservators and students and teachers of the conservation of works of art on paper
