*Restoration of Human Rights and Dignity to Dalits* Ram Gopal Singh, 2004 This book examines the issues related to human rights of Dalits in the context of changes in the socio economic structure of the country While analysing the atrocities perpetrated on the Dalits it also discusses their aspirations and achievements during the last five decades of Independence The volume also deals with the status of scavengers the most neglected and deprived section among the Dalits in various states of India namely Madhya Pradesh Haryana Rajasthan Bihar Karnataka and Gujarat It especially examines the issues related to liberation and rehabilitation of scavengers in different parts of the country The book thus will be of considerable interest to the social scientists social workers and activists and all those who are interested in contemporary Indian society in general and in issues related to rights and dignity of Dalits in particular *Dalits, Subalternity and Social Change in India*

Ashok K. Pankaj, Ajit K. Pandey, 2018-10-26 The linguistic origin of the term Dalit is Marathi and pre dates the militant intellectual Dalit Panthers movement of the 1970s It was not in popular use till the last quarter of the 20th century the origin of the term Dalit although in the 1930s it was used as Marathi Hindi translation of the word Depressed Classes The changing nature of caste and Dalits has become a topic of increasing interest in India This edited book is a collection of originally written chapters by eminent experts on the experiences of Dalits in India It examines who constitute Dalits and engages with the mainstream subaltern perspective that treats Dalits as a political and economic category a class phenomenon and subsumes homogeneity of the entire Dalit population This book argues that the socio cultural deprivations of Dalits are their primary deprivations characterized by heterogeneity of their experiences It asserts that Dalits have a common urge to liberate from the oppressive and exploitative social arrangement which has been the guiding force of Dalit movement This book has analysed this movement through three phases the reformative the transformative and the confrontationist An exploration of dynamic relations between subalternity exclusion and social change the book will be of interest to academics in the field of sociology political science and contemporary India EXCLUDED AND VICTIMIZED CITY MAKERS:

Coelho, 2024-08-28 This book studies the social formation of India through the lens of religion state ethnicity and governance It provides a nuanced understanding of the structural as well as the processual aspects of the Indian social sphere The volume studies diverse themes such as the impact of religiosity on religious consciousness the primacy of tribal identity in colonial India political inclusion of marginalised communities the emerging subaltern activism among others An important contribution this book will be of interest to scholars and researchers of sociology political sociology South Asian studies Affirmative action and political science *DALIT ISSUES AND CHALLENGES* Thummapudi Bharathi, 2019-06-06 This book is a collection of research articles presented at different seminars conferences Some references therefore appear more than

once as they claim contextual relevance Hence they are retained Some of the papers have been published in some journals and in edited books and the modified version is included in this volume I thank the editors for permitting me to include them in this collection Dalit has become a burning issue from the beginning of the 20th century as its existence was mainly invisible so far Its invisibility is due to the society's refusal to admit it as social evil and moreover giving credibility for its divine origin Thanks to the advancement of science and technology that made the people of the world to come closer Philosophers introduced the ideas of liberty and equality that reached all the corners of the world People have realized that freedom is above everything Hence they have decided to fight to break their chains of slavery untouchability The fight for their independence individuality identity self respect economic independence is the story of Dalits registered in this volume It will not be fascinating or interesting but it helps the readers and researchers to understand the problem and become one with it in the process of finding some reasonable and possible answers

**Locality, History, Memory** Rita Mukherjee, M. N. Rajesh, 2009-01-14 Locality History Memory The Making of the Citizen in South Asia was born out of the need to interrogate the tropes through which place history and memory underpin notions of citizenship in present South Asia Time as both time present and time past is framed here in two settings as privileging both place material or ideological site and space The latter refers to religion oppression marginalization and or dalitisation Time transcends both site location and actual physical boundaries Locality or location is therefore envisioned in terms of both actual place as well as a gateway to a larger space in terms of a situation where historical memory negotiates the increasingly complex present Agency and contingency therefore assume a critical importance here Citizenship far from being a discrete entity is found to be multidimensional it refers to formal status and the legal status of nationality and citizenship authenticated in the passport but it also refers to rights and privileges identity and solidarity religious beliefs and a sense of belonging Moving away from the role of the state which has been at the centre of all inquiries on citizenship we ask here the following questions in Locality History Memory How does our history enforce or dilute the notion of the citizen How far does memory strengthen or weaken it What role does features not normally associated with citizenship such as access to natural resources or ritual faith and religion play in reinforcing such a status History in the end is written by the historian and it was easy to map the changing methodologies used by the historians to essay the past but this is becoming increasingly difficult now Another twist is the shift to hypertext at a popular level echoing what the late E H Carr had once called bringing more and more people into history These so called alternative histories or people's histories are becoming more and more popular because of the point at which we are located in time Moreover devices afforded by the new media enable these alternative histories to have an immediacy that the conventional historical format lacked The collapse of state control over the new media has led to the resurgence of many archaic voices unimaginable just a decade ago
