Restructuring Academic Libraries Organizational Development In The Wake Of Technological Change:

Restructuring Academic Libraries Charles A. Schwartz, 1997 Restructuring Academic Libraries Organizational Development in the Wake of Technological Change is a collection of nineteen essays and case studies about the challenges libraries face today It assesses a broad range of opportunities and achievements

The Changing Academic Library John Budd, 2005 The Changing Academic Library is a revision of Budd's The Academic Library Its Context Its Purpose and Its Operation This book has been completely updated and revised to reflect the dynamic states of higher education and academic libraries It presents a critical examination of major issues facing colleges and universities and the unique challenges that their libraries must come to grips with Current practice is reviewed but it is examined in the broader context of educational needs scholarly communication politics and economics technology and the nature of complex organizations Publisher's description

Managing Academic Libraries Susan Higgins, 2016-10-11 Managing Academic Libraries Principles and Practice is aimed at professionals within the Library and Information Services LIS who are interested in learning more about the management of academic libraries Written against a backdrop made up of the changes that digital technology has brought to academic libraries this book uncovers how the library has changed its meaning from a physical to virtual icon and its effect on culture The book aims to provide managers and students of LIS at all levels with the necessary management principles and practices needed to respond proactively to diverse audiences while also keeping a focus on the purposes of higher education In addition readers will find an examination of various aspects of library management and reviews on key management techniques that can be used for successful interpretation and implementation of academic library mission statements Provides tactics on how to manage the centrality of learning and reading in academic libraries Includes best practices on managing a learning organization Covers proactive management principles and practices that are needed to respond to diverse audiences

Advocacy, Outreach, and the Nation's Academic Libraries William C. Welburn, Janice Welburn, Beth McNeil, 2010

Library and Information Science in Developing Countries: Contemporary Issues Tella, A., 2011-11-30 The field of library and information science is experiencing significant and continued transformation as a result of advancements in digital technology Adapting to new technologies is crucial for librarians and other information professionals but there exists a particularly acute gap in technology adoption among developing countries Library and Information Science in Developing Countries Contemporary Issues explores the relationship between global technology development and the impact of new technologies on library practice library education and information science Book chapters and case studies in this work provide insight to and support for practitioners and executives concerned with the management of knowledge information and organizational development in different types of work environments and learning communities

Advances in Library Administration and Organization Delmus E. Williams, Janine Golden, 2010-11-08 Provides a body of research literature that contributes to the base of organizational theory upon which library administrators rely This title

covers a variety of topics relating to the management of academic and public and school libraries *Beyond Survival* Elizabeth J. Wood, Rush Miller, Amy Knapp, 2006-12-30 One part theory borrowed from business world one part practice including detailed case studies of the University of Pittsburgh and the University of Arizona one part inspiration *Beyond Survival* offers ideas about how academic libraries can not only survive in the short term but take advantage of emergent opportunities by judiciously adopting the same organizational development tools and concepts espoused by the business world While there is a great deal of anecdotal evidence that significant organizational changes are taking place in academic libraries the literature suggests that most of these changes take the form of evolutionary or incremental improvement But what happens when libraries find themselves in a society characterized by increased information availability compression of time and space and growing turbulence and unpredictability These are conditions with which the business world has been grappling for years conditions that require not an evolutionary approach but nimbleness and rapid response One part theory borrowed from business world one part practice including detailed case studies of the University of Pittsburgh and the University of Arizona one part inspiration *Beyond Survival* shows you how the transition tactics and strategies developed by businesses can be adapted to academic libraries By judiciously adopting the same organizational development tools and concepts espoused by the business world academic libraries can not only survive in the short term but can take advantage of emergent opportunities to ensure long term excellence **The Academic Library Administrator's Field Guide** Bryce Nelson, 2014-07-01 The daily administration of an academic library often leaves you needing quick advice on the topic at hand Nelson an experienced administrator writing from first hand knowledge delivers such advice in 30 topical chapters Each chapter begins with an Assertion a one sentence summary allowing you to rapidly scan the book and find what you need When you're on the job you can dip into this guide for ready to use guidance on the full range of administrator responsibilities such as How to think and act politically Preparing staff for safety and security procedures Influencing student and faculty's perception of the library as a basic component of education Fostering librarians professional identity as teachers Communicating effectively from email messages to meetings Assessment and systematic collection of data Commentary sections in each chapter offer observations and interpretation with abundant examples of useful advice If you want to dig further into a topic a Readings section points you to resources Packed with insight about the day to day operations of the academic library Nelson's guide will be invaluable to new and experienced administrators alike

Practical Strategies for Academic Library Managers Frances C. Wilkinson, Rebecca L. Lubas, 2015-11-10 Looking for tips on how to work towards your overall vision while remaining productive on the frontlines The book gives you fresh ideas for balancing your managerial duties with day to day responsibilities in the academic library A compilation of ideas from noted leaders in academic librarianship this book explores a wealth of topics including budgeting human resources facilities collections and IT There is also helpful advice that will help you navigate emerging areas of librarianship such as blended

librarianship cross institutional collaboration and marketing the library You will learn how to manage lead and address specific library areas all at once Practical Strategies for Academic Library Managers Leading with Vision through All Levels is ideal for current professionals with an expanded scope of responsibilities and those who have had administrative duties for some time but are looking for new techniques for being a better manager The book includes an introduction written by the editors who are both associate deans in university libraries Each chapter is written by a different expert in the field providing a rich array of approaches and perspectives
