Navy Dept,1908 Better Spending for Localizing Global Sustainable Development Goals Fayyaz Baqir,Nipa Banerjee,Sanni Yaya,2019-11-05 This book centers around an intense debate among donors policymakers development practitioners and academics on the efficacy of aid in eradicating poverty while promoting human development It seeks to fill the gap in present literature by presenting stories of better spending through implementing Sustainable Development Goals and addressing Agenda 2030 via indigenization of global development goals with initiatives at local and national levels The book adopts an innovative approach to dealing with aid effectiveness by highlighting the relevance of better spending rather than excessive spending It does so with real life examples of interventions made in the Global South to realize the vision of thinking globally and acting locally These case studies speak to the significance of communities role in shouldering responsibility for planning financing operating and maintaining local developmental initiatives The examples also demonstrate how aid serves its purpose when used as an

investment in communities and enterprising individuals in order to realize the strategic impact of giving and build a local receiving mechanism for indigenizing and achieving global development goals The book references cases of better spending by governments philanthropists and civil society organizations CSOs from across Asia Africa and Latin America on a range of issues and will thus be of interest to development practitioners policymakers donors philanthropists civil society organizations and academics and students of international development studies
