Rethinking Irish History Nationalism Identity And Ideology:

Rethinking Irish History Patrick O'Mahony, Gerard Delanty, 1998-06-17 This book provides a critical interpretation of the construction of Irish national identity in the longer perspective of history Drawing on recent sociological theory the authors demonstrate how national identity was invented and codified by a nationalist intelligentsia in the late nineteenth century The trajectory of this national identity is traced as a process of crisis and contradiction One of the central arguments is that the negative implications of Irish national identity have never been fully explored by social science *The Statesman's Yearbook* 2002 B. Turner, 2016-12-29 For the last 138 years The Statesman's Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The appointment of the new editor only the seventh in 138 years brought enhancements to the 1998-99 edition and these have been continued since then Internet usage figures are included Specially commissioned essays from major political and academic figures supplement country entries in areas of major upheaval and change A fold out colour section provides a political world map and flags for the 191 countries of the world The task of monitoring the pattern or flow of world change is never ending However the annual publication of The Statesman's Yearbook gives all the information needed in one easily digestible single volume It will save hours of research and cross referencing between different sources A prestigious and popular book The Statesman's Yearbook is updated every 12 months In a world of continual change The Statesman's Yearbook is a necessary annual purchase

Community Gerard Delanty, 2013-09-13 The increasing individualism of modern Western society has been accompanied by an enduring nostalgia for the idea of community as a source of security and belonging and in recent years as an alternative to the state as a basis for politics Gerard Delanty begins this stimulating introduction to the concept with an analysis of the origins of the idea of community in Western Utopian thought and as an imagined primitive state equated with traditional societies in classical sociology and anthropology He goes on to chart the resurgence of the idea within communitarian thought the complications and critiques of multiculturalism and its new manifestations within a society where new modes of communication produce both fragmentation and the possibilities of new social bonds Contemporary community he argues is essentially a communication community based on new kinds of belonging No longer bounded by place we are able to belong to multiple communities based on religion nationalism ethnicity life styles and gender

Kashmiri Nationalism, 1989-2016 Arshi Javaid, 2024-11-22 Kashmiri nationalism is defined by its dichotomy between the ethnic and the civic Arshi Javaid delves into this dichotomy unravelling the political and social variables that shape it Moving beyond a conventional securitized perspective on the Kashmir conflict she offers an understanding of Kashmiri nationalism as a daily practice This perspective critiques the view that reduces Kashmiri nationalism to a monolithic entity highlights dynamic socio political developments and argues that the state nationalist majoritarian agenda undermines collective rights erodes local identities and escalates tensions breeding confrontation Re-Mapping Exile Michael Boss, Irene Gilsenan

Nordin, Britta Olinder, 2006-05-01 The essays in this collection combine historical cultural and literary analyses in their treatment of aspects of exile in Irish writing Some are structuralist in seeing exile as a physical state of being often associated with absence into which an individual willingly or unwillingly enters Others are poststructuralist considering the narration of exile as a celebration of transgressiveness hybridity and otherness This type of exile moves away from a political cultural economic idea of exile to an understanding of exile in a wider existential sense The volume presents readings of Irish literature history and culture that reflect some of the historical sociological psychological and philosophical dimensions of exile in the 1800s and 1900s The theme of exile is discussed in a wide range of texts including literature political writings and song writing either in works of Irish writers not normally associated with exile or in which new aspects of exile can be discerned The essays cover among others Butler D Arcy McGee Mulholland Joyce Hewitt Van Morrison Ni Chuilleanain Doyle and Banville The Idea of Englishness

Krishan Kumar, 2016-02-24 Ideas of Englishness and of the English nation have become a matter of renewed interest in recent years as a result of threats to the integrity of the United Kingdom and the perceived rise of that unusual thing English nationalism Interrogating the idea of an English nation and of how that might compare with other concepts of nationhood this book enquires into the origins of English national identity partly by questioning the assumption of its long standing existence It investigates the role of the British empire the largest empire in world history in the creation of English and British identities and the results of its disappearance Considering the myths of the English the ideas and images that the English and others have constructed about their history and their sense of themselves as a people the distinctiveness of English social thought in comparison with that of other nations the relationship between English and British identity and the relationship of Englishness to Europe this wide ranging comparative and historical approach to understanding the particular nature of Englishness and English national identity will appeal to scholars of sociology cultural studies and history with interests in English and British national identity and debates about England's future place in the United Kingdom Modern Dublin

Erika Hanna, 2013-08-01 During the 1960s the physical landscape of Dublin changed more than at any time since the eighteenth century In this period the government began to invest in town planning new opportunities arose for the country's architects and the old buildings of the core began to be replaced by modern structures The early manifestations of this process were well received understood as the first visible signs of prosperity and broader social and economic modernization However this attitude was short lived By the end of the 1960s popular support for urban change had evaporated a disparate movement of preservationists housing activists students and architects emerged to oppose urban change and campaign for the retention of the city's heritage The new buildings and urban forms had not brought the promised national rejuvenation Instead the rapid destruction of the extant city had come to be seen as symbolic of the corruption and failed promise of modernization Modern Dublin examines this story Using approaches from urban studies and cultural geography the author reveals Dublin as a place of complex exchange between a

variety of interest groups with different visions for the built environment and thus for society and the independent nation. In so doing Erika Hanna adds to growing literatures on civil society heritage and cultural politics since independence and provides a fresh approach to social and cultural change in 1960s Ireland. *Propaganda and Nation Building* Kevin Hora, 2017-04-28 This book examines the origins of Ireland in its first independent incarnation the Irish Free State 1922-1937. It explores how contemporary public relations and propaganda techniques were used to construct an identity for this new state, a state which after enduring seven years of insurrection and civil war became one of the most stable democracies in Europe. This stability, the book argues, was constructed not solely through policies enacted by governments but through the construction of a Gaelic Catholic and Celtic national identity. By shifting the perspective to how nation building was communicated, it weaves an interdisciplinary narrative that initiates a new understanding of nation building, providing insights of increasing relevance in current world events. Avoiding a simplistic cause and effect history of public relations, the book examines the uses and effects of early public relations from a political and societal perspective and suggests that while governments were only modestly successful in their varied propaganda efforts, cumulatively they facilitated a transition from violence to peace. This will be of interest to researchers and advanced students with an interest in public relations, propaganda studies, nation building, and Irish studies.

Ireland's Heritages Mark McCarthy, 2017-09-29 This book is the first sustained attempt to incorporate critical scholarship and thought at the cutting edge of contemporary geography, history, and archaeology into the burgeoning field of Irish heritage studies. It seeks to illustrate the validity of multiple depictions of the Irish past, showing how scrutiny of heritage practices and meanings is so essential for illuminating our understanding of the present. Examining Ireland's heritages from a critical perspective that celebrates notions of heterogeneity and uniqueness, the distinguished contributors to this book scrutinise the multiplicity of complex relations between heritage, history, memory, commemoration, economy, and cultural identity within various historical, geographical, and archaeological contexts. Using several examples and case studies, this book raises issues not only from a uniquely Irish perspective but also investigates the memorialisation and marketing of the Irish past in overseas locations such as the USA and Australia.

Intellectual Disability and Ireland, 1947-1996 David Kilgannon, 2023-10-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library. *Intellectual Disability and Ireland 1947-1996* explores the varied experiences of the intellectually disabled during the latter half of the mid twentieth century in Ireland. Addressing the evolution of disability policies and provision, it shows how a range of different actors became engaged in shaping the disability services landscape during this period. Drawing on a variety of sources from government memoranda to RTÉ television programmes, David Kilgannon traces the development of disability services on paper and in reality. This narrative is marked by instances of both striking transformation and significant continuity as the emergence of new policy thinking occurred in tandem with the consolidation of established approaches. The book describes not only how services changed but
