Rethinking Objectivity Post Contemporary Interventions:

Rethinking Objectivity Allan Megill, 1994 Although objectivity is a term used widely in many areas of public discourse from discussions concerning the media and politics to debates over political correctness and cultural literacy the question What is objectivity is often ignored as if the answer were obvious In this volume Allan Megill has gathered essays from fourteen leading scholars in a variety of fields history anthropology philosophy psychology history of science sociology of science feminist studies literary studies and accounting to gain critical understanding of the idea of objectivity as it functions in today s world In diverse essays the authors provide fascinating studies of objectivity in such areas as anthropological research corporate and governmental bureaucracies legal discourse photography and the study and practice of the natural sciences Taken together Megill argues this volume calls for developing a notion of objectivities The absolute sense of objectivity that is objectivity as a God s eye view must be supplemented and in part supplanted by disciplinary procedural and dialectical senses of objectivity This book will be of great interest to a broad range of scholars as it presents current thinking on a topic of fundamental concern across the disciplines in the humanities and social sciences Contributors Barry Barnes Dagmar Barnouw Lorraine Code Lorraine Daston Johannes Fabian Kenneth J Gergen Mary E Hawkesworth Barbara Herrnstein Smith Evelyn Fox Keller George Levine Allan Megill Peter Miller Andy Pickering Theodore M Porter **History and Memory in the Dead Sea Scrolls** Travis B. Rethinking Journalism Again Chris Peters, Marcel Broersma, 2016-09-13 It s easy to make a rhetorical case for the value of journalism Because it is a necessary precondition for democracy it speaks to the people and for the people it informs citizens and enables them to make rational decisions it functions as their watchdog on government and other powers that be But does rehashing such familiar rationales bring journalism studies forward Does it contribute to ongoing discussions surrounding journalism s viability going forth For all their seeming self evidence this book considers what bearing these old platitudes have in the new digital era It asks whether such hopeful talk really reflects the concrete roles journalism now performs for people in their everyday lives In essence it poses questions that strike at the core of the idea of journalism itself Is there a singular journalism that has one well defined role in society Is its public mandate as strong as we think The internationally renowned scholars comprising the collection address these recurring concerns that have long defined the profession and which journalism faces even more acutely today By discussing what journalism was is and possibly will be this book highlights key contemporary areas of debate and tackles on going anxieties about its future

Anthropology Newsletter ,1994 **Putting Theory into Practice in the Contemporary Classroom** Becky McLaughlin, 2017-01-06 This collection of fourteen

essays by scholars from Canada Europe the United Kingdom and the United States emerges from a growing interest in the ways postmodern theory can illuminate not just the products and ideas of high culture but also the ins and outs of everyday life Taking the university classroom broadly construed as a site of theoretical investigation this volume helps us to understand troublesome classroom dynamics as well as offering pedagogical strategies for dealing with them It also illuminates current pressures on higher education that find expression in the classroom As a forum for these issues these essays draw upon Deleuzian feminist Foucauldian and psychoanalytic approaches among others recognizing not only that these approaches are often in conflict but also that collectively they enhance our understanding of the classroom Important questions posed here include whether and if so how we can combine a Marxist or Foucauldian emphasis on the disciplinary and hegemonic practices of educational institutions with a Lacanian or Barthesian appreciation for the disruptive pleasures and drives that the unconscious produces within and through students teachers and classrooms Which theoretical and pedagogical innovations can help teachers and students to get the job done as well as to theorize the job to simultaneously practice education and imagine other forms and ends for education How can theory help us to historicize criticize and re draw the productive but sometimes disabling lines that make the classroom and its subjects A site for lively theoretical debate about these and related pedagogical issues this volume will prove useful for anyone wanting to reinterpret reinvent and reinvigorate the classroom
