Gang, 1989-12-01 Informatik für den Umweltschutz Werner Pillmann, Andreas Jaeschke, 2013-03-08 Mit dem vorliegenden Tagungsband wird der aktuelle Stand der Informatikanwendungen für Zwecke des Umweltschutzes dokumentiert. With home, family, and gender roles dramatically altered in recent years, we are faced with a difficult problem in the lives of more and more American children: no one is home. The Schoolhome proposes a solution: Drawing selectively from reform movements of the past and relating them to the unique needs of today's parents and children, Jane Martin presents a philosophy of education that is responsive to America's changed and changing realities. As more and more parents enter the workforce, the historic role of the domestic sphere in the education and development of children is drastically reduced. Consequently, Martin advocates removing the barriers between the school and the home, making school a metaphorical home, a safe and nurturing environment that provides children with the experience of affection and connection otherwise missing or inconsistent in their lives. In this proposition, the traditional schoolhouse, where children are drilled in the three Rs, is transformed into a schoolhome where learning is animated by an ethic of social awareness. At a time when many school reformers are calling for a return to basics and lobbying for skills education and quick fix initiatives, Martin urges us to reconsider the distinctive legacies of Dewey and Montessori and to conceive of a school that integrates the values of the home with those of social responsibility. With cultural diversity and gender equality among its explicit goals, the schoolhome expands upon Dewey's edict to educate the whole child, seeking instead to educate all children in the culture's whole heritage. Martin eloquently challenges reformers to reclaim the founding fathers' vision of the nation as a domestic realm and to imagine a learning environment whose curriculum and classroom practice reflect not merely an economic but a

moral investment in the future of our children More than a summons to action this remarkable book is a call to rethink the assumptions we bring to the educational enterprise and so to act wisely *The Everyday World As Problematic* Dorothy E. Smith, 2012-01-15 In this collection of essays sociologist Dorothy E. Smith develops a method for analyzing how women and men view contemporary society from specific gendered points of view She shows how social relations and the theories that describe them must express the concrete historical and geographical details of everyday lives A vital sociology from the standpoint of women the volume is applicable to a variety of subjects and will be especially useful in courses in sociological theory and methods

**Postfeminist Education?** Jessica Ringrose, 2012-08-21 This book challenges a contemporary postfeminist sensibility grounded not only in assumptions that gender and sexual equality has been achieved in many Western contexts but that feminism has gone too far with women and girls now overtaking men and boys positioned as the new victims of gender transformations The book is the first to outline and critique how educational discourses have directly fed into postfeminist anxieties exploring three postfeminist panics over girls and girlhood that circulate widely in the international media and popular culture First it explores how a masculinity crisis over failing boys in school has spawned a backlash discourse about overly successful girls second it looks at how widespread anxieties over girls becoming excessively mean and or violent have positioned female aggression as pathological third it examines how incessant concerns over controlling risky female sexuality underpin recent sexualisation of girls moral panics The book outlines how these postfeminist panics over girlhood have influenced educational policies and practices in areas such as academic achievement anti bullying strategies and sex education curriculum making visible the new postfeminist sexual politics of schooling Moving beyond media or policy critique however this book offers new theoretical and methodological tools for researching postfeminism girlhood and education It engages with current theoretical debates over possibilities for girls agency and empowerment in postfeminist neo liberal contexts of sexual regulation It also elaborates new psychosocial and feminist Deleuzian methodological approaches for mapping subjectivity affectivity and social change Drawing on two UK empirical research projects exploring teen aged girls own perspectives and responses to postfeminist panics the book shows how real girls are actually negotiating notions of girls as overly successful mean violent aggressive and sexual The data offers rich insight into girls gendered raced and classed experiences at school and beyond exploring teen peer cultures friendship offline and online sexual identities and bullying and cyberbullying The analysis illuminates how and when girls take up and identify with postfeminist trends but also at times attempt to re work challenge and critique the contradictory discourses of girlhood and femininity In this sense the book offers an opportunity for girls to talk back to the often simplistic either wildly celebratory or crisis based sensationalism of postfeminist panics over girlhood This book will be essential reading for those interested in feminism girlhood media studies gender and education

Scribes and Scribalism Mark Leuchter, 2020-11-12 This volume is a concentrated examination of the varied roles of scribes and scribal practices in ancient Israel and Judah

shedding light on the social world of the Hebrew Bible Divided into discussion of three key aspects the book begins by assessing praxis and materiality looking at the tools and materials used by scribes where they came from and how they worked in specific contexts The contributors then move to observe the power and status of scribal cultures and how scribes functioned within their broader social world Finally the volume offers perspectives that examine ideological issues at play in both antiquity and the modern context s of biblical scholarship Taken together these essays demonstrate that no text is produced in a void and no writer functions without a network of resources

**Semiotics of Rape** Rupal Oza,2022-11-14 In Semiotics of Rape Rupal Oza follows the social life of rape in rural northwest India to reveal how rape is not only a violation of the body but a language through which a range of issues including caste and gender hierarchies control over land and labor and the shape of justice are contested Rather than focus on the laws governing rape Oza closely examines rape charges to show how the victims and survivors of rape reclaim their autonomy by refusing to see themselves as defined entirely by the act of violation Oza also shows how rape cases become arenas where bureaucrats village council members caste communities and the police debate women s sexual subjectivities and how those varied understandings impact the status and reputations of individuals and groups In this way rape gains meaning beyond the level of the survivor and victim to create a social category By tracing the shifting meanings of sexual violence and justice Oza offers insights into the social significance of rape in India and beyond
