Rethinking Power:

Rethinking Power Thomas E. Wartenberg, 1992-01-01 A collection of 14 essays seven previously published analyzing the nature of power in society and personal lives The different perspectives and divergent conclusions share assumptions that power is important that previous analyses are inadequate and that the only reason to talk about it is in order to improve people's lives No index Paper edition unseen 16 95 Annotation c by Book News Inc Portland Or Demeaned But Empowered Obika Gray, 2004 Gray's central thesis asserts that the Jamaican state is a form of predatory state that incorporates contradictory social forces into an arrangement that is hierarchical often brutal and ultimately debilitating to democracy He introduces a series of constructs to support this argument but the more interesting and novel theses are to be found in his vivid description of the social forces that resist the predatory state and how they have carved out a modicum of autonomy based on what he describes as an elaborate value system of badness honour **The Power of Feminist Theory** Amy Allen, 2025-06-17 In this new second edition of *The Power of Feminist Theory Domination Resistance Solidarity* Amy Allen diagnoses the inadequacies of previous feminist conceptions of power and draws on the work of a diverse group of theorists of power including Michel Foucault Judith Butler bell hooks and Hannah Arendt in order to construct a new feminist conception of power The conception of power developed in this book enables readers to theorize domination resistance and solidarity and perhaps more importantly to do so in a way that illuminates the interrelatedness of these three modalities of power The new edition of this foundational text includes substantial new material on intersectionality and power transnational feminism and power in relation to homonationalism and neo imperialism and empowerment feminism It addresses important criticisms of Foucault Arendt and Butler that have been raised by Black feminists critical philosophers of race postcolonial theorists and Marxists *The Power of Feminist Theory Domination Resistance Solidarity* is an essential text for students engaging with feminist analyses of power feminist theory and feminist political thought Power Raymond Angelo Belliotti, 2016-03-14 Frequently understood in simplistic and often highly negative terms the concept of power has proven to be both uncommonly intriguing and maddeningly elusive In *Power* Raymond Angelo Belliotti begins by fashioning a general definition of power that is refined enough to capture the numerous types of power in all their multifaceted complexity He then proceeds in a series of discrete yet thematically connected meditations to explore the meaning of power in ancient modern and contemporary thought In grappling with the critical questions surrounding the accumulation distribution and exercise of personal and social power this work allows us to confront fundamental questions of who we are and how we might live better lives *Power and Parenting* K. Bonner, 1998-09-14 The power to act is two sided in that it refers to the parent's ability to initiate having children or responding to their actions and to the ability to suffer consequences irreversibility and unpredictability The book argues that the best way of responding to these essential limits is for the parent to develop the interrelation between wisdom ethicality and self mastery that is practical wisdom *Power in*

Sacred Dreams C. Cryss Brunner, 1999-04-23 Although women have dominated the teaching ranks at all levels of education since the turn of the century men occupy 93 percent of superintendency jobs Considering the nationwide concern that superintendency positions will be vacated faster than they can be filled during the next decade it s quite possible that women are the greatest untapped pool of capable candidates As women think about seek and accept superintendency assignments they need a resource like *Sacred Dreams* that offers both practical advice from those who have attained this rank and research results from those who have studied the situation Such an understanding has the potential not only to increase the number of women in the position but also to increase their likelihood of success Contributors include Judy A Alston Cynthia Beekley Jackie M Blount C Cryss Brunner Susan Chase Margaret Grogan Barbara L Jackson Debra Jackson Estelle Kamler Sylvia E M ndez Morse Flora Ida Ortiz Barbara Nelson Pavan Charol Shakeshaft and Marilyn Tallerico Also included is a foreword by Patricia A Schmuck

Power, for All Julie Battilana, Tiziana Casciaro, 2021-08-31 Discover how to gain and keep power in any situation with this remarkably insightful read on what power is how it s gained and how it can be used for good Adam Grant bestselling author of *Think Again* *Power* is one of the most misunderstood and therefore vilified concepts in our society Many assume power is predetermined by personality or wealth or that it s gained by strong arming others You might even write it off as dirty and want nothing to do with it But by staying away from power you give it up to someone else who may not have your best interest in mind We must understand and use our power to have impact and pioneering researchers Julie Battilana and Tiziana Casciaro provide the playbook for doing so in *Power for All* Battilana and Casciaro offer a necessary Tarana Burke creator of the MeToo movement and bestselling author of *Unbound* and invaluable David Gergen CNN political analyst vision of power the ability to influence someone else s behavior This influence is derived from having access to valued resources and once you understand what those are you can take action to improve life for yourself and others With proven strategies of

agitating innovating and orchestrating change Power for All shows how those with less power can challenge established structures to make them more balanced The authors teach you how to power map your workplace to find who can create real change at work plan for and cause sustaining shifts and understand the two basic needs all human beings share safety and self esteem and the resources people seek to satisfy those needs money and status but also autonomy achievement affiliation and mortality They explore how these dynamics play out through vivid storytelling as Donatella Versace successfully leads her brother s company after his death despite having a title but little influence what social movements can learn from youth climate activists and how they can go farther and how a manager can gain the trust of skeptical employees and improve the workplace Power for All demystifies the essential mechanisms for acquiring and using power for all people

Power: A Reader Mark Haugaard,2002 An introductory guide to some of the most significant perspectives on the subject of power within social and political theory

Political Power Mark Haugaard,Kevin Ryan,2012-06-27 Although the concept of power is central to the study of politics there is no agreement as to what exactly power is Power is often viewed negatively as domination though it is also the case that power is created by people acting in concert in which case it can have positive effects Making sense of this puzzle is one of the aims of this book which provides the reader with a clear and coherent way of understanding the various forms and manifestations of power and it does so by bringing together the most important and influential perspectives on power within the political and social sciences From the Contents Mark Haugaard and Kevin Ryan Power in Social and Political Theory John Gledhill Power in Political Anthropology Stewart Clegg Foundations of Organizational Power Jill Vickers Gendering Power Feminist Approaches John A Hall and Sini a Male evic The Political Sociology of Power Philip G Cerny Power and International Relations

Essays on Evolutions in the Study of Political Power Giulio M. Gallarotti,2021-11-24 This book deals with the most important developments in the study of political power over the last four decades From the writings of the great Greek philosophers of antiquity to the present the idea of power has been the major subject in the study of politics Indeed some would say it defines the very field of politics itself as a social science Penned by the leading scholars in the field this collection gives a broad overview of the most important issues in the study of political power tracing the evolution of scholarly thinking about them and in doing so revealing crucial innovations

therein This will be a major contribution in the understanding of the concepts and practices of how power manifests itself across social and political contexts This book will be of great interest to scholars students and individuals who wish to understand the very foundations of social and political life The chapters in this book were originally published as a special issue of the Journal of Political Power volume 14 issue 1 2021 *Neoliberal power and public management reforms* Peter Triantafyllou, 2017-05-15 This book examines the links between major contemporary public sector reforms and neoliberal thinking The key contribution of the book is to enhance our understanding of contemporary neoliberalism as it plays out in the public administration and to provide a critical analysis of generally overlooked aspects of administrative power The book examines the quest for accountability credibility and evidence in the public sector It asks whether this quest may be understood in terms of neoliberal thinking and if so how The book makes the argument that while current administrative reforms are informed by several distinct political rationalities they evolve above all around a particular form of neoliberalism constructivist neoliberalism The book analyses the dangers of the kinds of administrative power seeking to invoke the self steering capacities of society and administration itself Ama Namin Timoteo D. Gener, Jason Richard Tan, 2023-03-31 The Lord's Prayer unites Christians throughout history speaking across the divides of language place and tradition The oldest prayer of the church it continues to speak to the lived reality of believers around the world while inviting the body of Christ into a deeper understanding of the nature of God discipleship and the calling to holistic mission Ama Namin brings together the voices of Filipino evangelical scholars in a profound work of contextual and biblical theology Each chapter explores a portion of the Lord's Prayer against the backdrop of Scripture and the foreground of Philippine life and spirituality Contributors examine the rich history of the Lord's Prayer in the Philippines a history dating back to the first printed translation in 1593 as well as its implications for the Philippines future providing the church a foundation for public engagement and social transformation Ama Namin provides a valuable teaching resource for the Philippine church and for all those longing to deepen their understanding of prayer the contextualization of Scripture and the love of the heavenly Father

Soft Power and Heritage Rodrigo Christofolletti, 2023-11-15 This book encourages a critical dialogue between interdisciplinary fields that border heritage boundaries and seeks to contribute a wide range of scholarly perspectives and case studies both national and international The widespread use of the concept of soft power is sometimes grossly misused as a synonym for anything other than military force While the concept is one of the most popular and influential in progressive foreign policy circles and is noted for being the ability of a country to convince others that its cause is the best without having to resort to economic or military threats the your ability to accurately describe the world we live in needs repair lenses The power of example the power of attraction through culture or in other words the ability of a country to attract others because of its culture and political values in its foreign policy that is soft power is something that emerges in partly because of government and partly in spite of governments To have soft power you need to be connected and the interaction

management and dissemination of assets can be seen as exercises in soft power action This book seeks to detail in examples how the concept of soft power encompasses and problematizes the multiplicity of themes on the contemporary international agenda focusing on one of its least discussed elements the universe of international cultural heritage and the relationship between actors and society preservationist actions in the globalized world While cultural heritage embodies different values and can serve different economic social and political objectives in development contexts the past becomes a cultural currency when it becomes essential to the human experience Power, luck and freedom Keith Dowding, 2016-10-28 This book

presents thirteen essays from a leading contemporary political scientist with a substantial introduction bringing together the themes The topics covered include political and social power freedom choice rights responsibility the author's unique account of luck and systematic luck and the nature of leadership There are also discussions of conceptual analysis the structure agency debate luck egalitarianism Sen's liberal paradox problems in the measurement of freedom and choice and the differences between instrumental and intrinsic accounts of the value of freedom and related concepts The wide ranging material will provide an excellent text for students at all levels It is appropriate reading for a host of courses in the fields of political science political sociology and political theory at both undergraduate and graduate level Whilst addressing some philosophically difficult and advanced subjects the accessible writing makes the subject matter comprehensible for all levels of students **Shadows of Power** Jean Hillier, 2003-09-02 Shadows of Power examines public policy and in particular the

communicative processes of policy and decision making It explores the important who how and why issues of policy decisions Who really takes the decisions How are they arrived at and why were such processes used What relations of power may be revealed between the various participants Using stories from planning practices this book shows that local planning decisions particularly those which involve consideration of issues of public space cannot be understood separately from the socially constructed subjective territorial identities meanings and values of the local people and the planners concerned Nor can it be fully represented as a linear planning process concentrating on traditional planning policy making and decision making ideas of survey analysis plan or officer recommendation council decision implementation Such notions assume that policy and decision making proceed in a relatively technocratic and value neutral unidirectional step wise process towards a finite end point In this book Jean Hillier explores ways in which different values and mind sets may affect planning outcomes and relate to systemic power structures By unpacking these and bring them together as influences on participants communication she reveals influences at work in decision making processes that were previously invisible If planning theory is to be of real use to practitioners it needs to address practice as it is actually encountered in the worlds of planning officers and elected representatives Hillier sheds light on the shadows so that practitioners may be better able to understand the circumstances in which they find themselves and act more effectively in what is in reality a messy highly politicised decision making process *Power, Postcolonialism and International Relations* Chowdhry Geeta, Sheila Nair, 2013-10-15 Chowdhry

and Nair along with the authors of this volume make a timely vital and deeply necessary intervention in international relations one that informs theoretically enriches our knowledge of the world through its narratives and forces us to confront the differentiated wholeness of our humanity Readers will want to emulate the skills and sensibilities they offer Naeem Inayatullah Ithaca College This work uses postcolonial theory to examine the implications of race class and gender relations for the structuring of world politics It addresses further themes central to postcolonial theory such as the impact of representation on power relations the relationship between global capital and power and the space for resistance and agency in the context of global power asymmetries

Women, Power and the Economy Inca Petra Kuenkel, 2025-07-23 In the complex landscapes of multiple global crises the book unfolds as a panoramic journey through the intricate pathways of women and power weaving a tapestry that transcends crises and ushers in a transformative vision of a just world Against the backdrop of a patriarchal history steeped in autocratic power practices the author urges us to recognize understand and redefine power in its myriad forms for collective feminist power practices With meticulous analysis she unveils challenges posed by the patriarchal backlash exposing the normalized male definitions of power and the societal structures that sustain pathological power relationships The narrative of the book intertwines power economy and patriarchy laying bare the many traps for complicity with the patriarchal systems The author advocates for a paradigm shift emphasizing the role of female memories and genealogies as foundational elements for a collective feminist practice Power in this context emerges not as a force for dominance but as the ability to make a positive impact flourishing in the rich diversity of differences The envisioned future is one where societies thrive on commons planetary care feminist economies and pluriversality The narrative charts a course toward a feminist democracy rooted in nurturing the planet and safeguarding future generations Governance and networks stand as keystones in shaping these utopian landscapes where pioneers and movements play vital roles in sculpting the contours of tomorrow The book offers practical tools for strengthening collective feminist practices that can restructure power pathologies It unfolds as a captivating vista where the echoes of the past harmonize with the aspirations of a feminist future

Boricua Power José Ramón Sánchez, 2007-03-01 Where does power come from Why does it sometimes disappear How do groups like the Puerto Rican community become impoverished lose social influence and become marginal to the rest of society How do they turn things around increase their wealth and become better able to successfully influence and defend themselves Boricua Power explains the creation and loss of power as a product of human efforts to enter keep or end relationships with others in an attempt to satisfy passions and interests using a theoretical and historical case study of one community Puerto Ricans in the United States Using archival historical and empirical data Boricua Power demonstrates that power rose and fell for this community with fluctuations in the passions and interests that defined the relationship between Puerto Ricans and the larger U S society
