Section 504 Student Issues Legal Requirements And Practical Recommendations:

Section 504, Student Issues, Legal Requirements, and Practical Recommendations Perry Alan Zirkel, 2005 Educators who do not work directly with Section 504 often confuse this provision of federal law on disability discrimination with special education under the Individuals with Disabilities Education Act IDEA Accurate and practical information can be hard to find In this short guide legal scholar Perry Zirkel sorts out the issues This book is designed to be a practical primer on the interrelated federal civil rights laws concerning disability discrimination namely Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act ADA of 1990 Although an unfunded mandate Section 504 applies to school districts because they receive federal funds ADA which uses the same definition of disability as Section 504 applies to public entities for example schools in addition to private places of public accommodation The definition of disability in IDEA differs from that used in Section 504 and ADA This book specifically explores student issues in K 12 public education as they are affected by the requirements of Section 504 and ADA In addressing student issues in K 12 public education the focus is 504 alone students meaning those students who are not protected under the narrower definition of disability contained in IDEA Students protected under IDEA have double coverage because they also are protected under Section 504 Handbook of Special Education James M. Kauffman, Daniel P. Hallahan, 2011-05-15 Special education is now an established part of public education in the United States by law and by custom However it is still widely misunderstood and continues to be dogged by controversies related to such things as categorization grouping assessment placement funding instruction and a variety of legal issues The purpose of this 13 part 57 chapter handbook is to help profile and bring greater clarity to this sprawling and growing field To ensure consistency across the volume chapter authors review and integrate existing research identify strengths and weaknesses note gaps in the literature and discuss implications for practice and future research Key features include Comprehensive Coverage Fifty seven chapters cover all aspects of special education in the United States including cultural and international comparisons Issues Trends In addition to synthesizing empirical findings and providing a critical analysis of the status and direction of current research chapter authors discuss issues related to practice and reflect on trends in thinking Categorical Chapters In order to provide a comprehensive and comparative treatment of the twelve categorical chapters in section IV chapter authors were asked to follow a consistent outline Definition Causal Factors Identification Behavioral Characteristics Assessment Educational Programming and Trends and Issues Expertise Edited by two of the most accomplished scholars in special education chapter authors include a carefully chosen mixture of established and rising young stars in the field This book is an appropriate reference volume for anyone researchers scholars graduate students practitioners policy makers and parents interested in the state of special education today its research base current issues and practices and future trends It is also appropriate as a textbook for graduate level courses in special education
