India's Nuclear Debate Priyanjali Malik, 2014-03-21 Making the right wing Bharatiya Janata Party s nuclear tests in 1998 its starting point this book examines how opinion amongst India s attentive public shifted from supporting nuclear abstinence to accepting and even feeling a need for a more assertive policy by examining the complexities of the debate in India on nuclear policy in the 1990s The study seeks to account for the shift in opinion by looking at the parallel processes of how nuclear policy became an important part of the public discourse in India and what it came to symbolise for the country s intelligentsia during this decade It argues that the pressure on New Delhi in the early 1990s to fall in line with

the non proliferation regime magnified by India's declining global influence at the time caused the issue to cease being one of defence making it a focus of nationalist pride instead. The country's nuclear programme thus emerged as a test of its ability to withstand external compulsions guaranteeing not so much the sanctity of its borders as a certain political idea of it that of a modern scientific and most importantly sovereign state able to defend its policies and set its goals. *The Making of Indian Diplomacy* Deep K. Datta-Ray, 2015-05-21 Diplomacy is conventionally understood as an authentic European invention which was internationalised during colonialism. For Indians the moment of colonial liberation was a false dawn because the colonised had internalised a European logic and performed European practices. Implicit in such a reading is the enduring centrality of Europe to understanding Indian diplomacy. This Eurocentric discourse renders two possibilities impossible: that diplomacy may have Indian origins and that they offer untheorised potentialities. Abandoning this Eurocentric model of diplomacy Deep Datta Ray recognises the legitimacy of independent Indian diplomacy and brings new practices. He creates a conceptual space for Indian diplomacy to exist forefronting civilisational analysis and its focus on continuities but refraining from devaluing transformational change. The Book Review, 2005 Arming without Aiming Stephen P. Cohen, Sunil Dasgupta, 2013-01-14 India has long been motivated to modernize its military and it now has the resources. But so far the drive to rebuild has lacked a critical component: strategic military planning. India's approach of arming without strategic purpose remains viable however as it seeks great power accommodation of its rise and does not want to appear threatening. What should we anticipate from this effort in the future and what are the likely ramifications? Stephen Cohen and Sunil Dasgupta answer those crucial questions in a book so timely that it reached number two on the nonfiction bestseller list in India. Two years after the publication of *Arming without Aiming* our view is that India's strategic restraint and its consequent institutional arrangement remain in place. We do not want to predict that India's military strategic restraint will last forever but we do expect that the deeper problems in Indian defense policy will continue to slow down military modernization from the preface to the paperback edition.
