Congress. Senate. Committee on Foreign Relations. Subcommittee on Near Eastern and South Asian Affairs,1977 *The Future Security Environment in the Middle East* Nora Bensahel,Daniel Byman,2004-03-12 This report identifies several important trends that are shaping regional security It examines traditional security concerns such as energy security and the proliferation of weapons of mass destruction as well as newer challenges posed by political reform economic reform civil military relations leadership change and the information revolution The report concludes by identifying the implications of these trends for U S foreign policy Security In The Middle East Mark Bruzonsky,Shaun Murphy,Samuel F. Wells,2020-01-16 This book examines the deep seated problems in the Middle East and their impact on the United States and its allies Exploring the disruptive effects of the double edged sword of nationalism and modernization the contributors discuss the full range of Western security interests in the region Case studies of key countries emphasize the prospect for peaceful political economic and cultural change The authors analyze the ramifications of the Arab Israeli conflict and the threats posed by Soviet penetration Arguing that confusion and contradiction mark U S policy in the Middle East the book concludes that U S strategists should focus not on curing the region s internal problems but on coping with them without sacrificing long term goals for quick fixes **The Middle East, Oil, and the U.S. National Security Policy** Donald M. Snow,2016-03-17 Three interrelated subject areas are at the heart of the current foreign and national security dilemma One is the Middle East which has been the epicenter of most U S policy activity for over a third of a century The second is energy policy particularly as it is affected by the development and exploitation of shale oil and gas reserves in the United States This is linked to the Middle East because it has been American dependence on Middle East petroleum that has created the interest the U S has in this region The third area is military manpower policy and two simultaneous wars in the new century have raised questions about the all volunteer force policy in place since 1972 It is increasingly evident that foreign and defense policy are strained and in need of fresh conceptualization

The three areas identified are the most obvious examples of policy dysfunction. The key area is the Middle East region. As long as the United States remains heavily committed to this part of the world especially with military force and essentially because of its energy needs there will be strains on manpower resources that could force a reexamination of the all volunteer concept. At the same time the reduction of U S dependence on Middle Eastern oil loosens the bonds that seem to impel American activism in the region. The result could be true opportunities for a less confrontational adversary driven foreign and defense posture.

*Contentious Issues of Security and the Future of Turkey* Nursin Atesoglu Güney, 2018-01-18. Security is a major contemporary concern with foreign and security policies topping the agenda of many governments. At the centre of Western security concerns is Turkey due to its geographical proximity to converging major fault lines such as the Caucasus the Mediterranean and the Middle East. As trans Atlantic debates evolve around these major fault lines future relations will have a direct impact on the re orientation of Turkish foreign and security policies. This comprehensive study focuses on the future of Turkish foreign and security policies within the emerging strategies of the two Wests. Discussing the challenges Turkey has been facing since the turn of the century it examines Turkish foreign policy in the context of trans Atlantic relations as a global actor and with respect to conflict new power relations energy security Greece Cyprus and the environment.

**U.S. Policy in the Middle East, November 1974-February 1976** United States. Department of State. Office of Media Services, 1976      Turkey's Foreign Policy and Security Perspectives in the 21st Century Sertif Demir, 2016-04-23. This book aims at analyzing Turkish foreign and security policies in the 21st century. Turkey's foreign and security policies have become the focus of academic discussions since Turkey is located in the middle of the most unstable region in the world. Turkey's self assured foreign policy has similarly attracted the attention of academicians worldwide. Meanwhile Turkey's security policy has also been the subject of discussions as the country has been struggling with ethnic terrorism for 35 years. Furthermore the US invasion of Iraq and the recent Syrian civil war along with other factors have caused religious radicalism to expand its power throughout the Middle East which has heavily impacted on Turkey's security. Turkey's longstanding problems with its neighbors have also affected the general characteristics of its foreign policy particularly leading to its securitization.
