

SEEING HITLER'S GERMANY

Tourism in the Third Reich

Kristin Semmens

Seeing Hitlers Germany

Heike B. Gortemaker

Seeing Hitler's Germany:

Seeing Hitler's Germany K. Semmens, 2005-03-23 Seeing Hitler's Germany is the first fully researched wide ranging study of commercial tourism under the swastika The book demonstrates how effectively the Nazi regime coordinated all German tourism organizations At the same time it emphasizes the apparent normality of many everyday tourist experiences after 1933 These certainly helped some Germans and many foreign visitors to overlook the regime's brutality However tourism also celebrated the most racist chauvinist aspects of the new Germany which in turn became a normal part of being a tourist under Hitler While violence and terror have continued to dominate many recent studies of the Third Reich this book takes a different view By investigating a range of normal experiences such as taking a tour visiting a popular sightseeing attraction reading a guidebook or sending a postcard Seeing Hitler's Germany deepens our understanding of the popular legitimization of Nazi rule Daily Life in Hitler's Germany Matthew S. Seligmann, John Davison, John McDonald, 2004-08-17 Written by historical experts this work offers a chilling portrayal of the Third Reich to bring Germany's most harrowing era to life Illustrated with 270 period photos **Hitler Germany as Seen by a Foreigner** Cesare Santoro, 1939 American Journalists in Hitler's Germany Norman Domeier, 2025 The first book to critically examine American journalists and media companies' roles in Hitler's Germany reigniting the debate on the relationship between political power and the media Despite Hitler's international use of propaganda and despite the power of the US press historians have neglected American journalists' activity in Nazi Germany American media companies expanded their presence in Germany after 1933 and the Associated Press AP conducted business with Hitler's regime throughout the war Norman Domeier's study now in English is the first to examine critically and in detail the roles of American journalists and media companies in Hitler's Germany showing that they knew about but kept secret the plans for rearmament the occupation of the Rhineland the annexation of Austria the invasions of Denmark Norway and the Soviet Union The book documents the companionship between Adolf Hitler and Karl Henry von Wiegand chief German correspondent of the Hearst press who was the first and last American to interview him Most important it details the secret exchange of news photographs discovered by Domeier in 2017 between the AP and the Nazis from 1942-45 Thousands of AP photos were used in the Nazi press usually with anti American or anti Semitic spin while the AP distributed ca 40 000 Nazi photographs to US newspapers Domeier's book reignites the debate on the relationship between political power and the media opening up new perspectives on the political and cultural history of journalism beyond one sided idealizations **Hitler and Nazi Germany** Jackson J. Spielvogel, David Redles, 2020-05-05 Hitler and Nazi Germany A History is a brief but comprehensive survey of the Third Reich based on current research findings that provides a balanced approach to the study of Hitler's role in the history of the Third Reich The book considers the economic social and political forces that made possible the rise and development of Nazism the institutional cultural and social life of the Third Reich World War II and the Holocaust World War II and the Holocaust are presented as logical

outcomes of the ideology of Hitler and the Nazi movement This new edition contains more information on the Kaiserreich Imperial Germany as well as Nazi complicity in the Reichstag Fire and increased discussion of consent and dissent during the Nazi attempt to create the ideal Volksgemeinschaft people's community It takes a greater focus on the experiences of ordinary bystanders perpetrators and victims throughout the text includes more discussion of race and space and the final chapter has been completely revised Fully updated the book ensures that students gain a complete and thorough picture of the period and issues Supported by maps images and thoroughly updated bibliographies that offer further reading suggestions for students to take their study further the book offers the perfect overview of Hitler and the Third Reich

Hitler's 'National Community' Lisa Pine, 2017-01-12 Lisa Pine's Hitler's National Community explores German culture and society during the Nazi era and analyses how this impacted upon the Germany that followed this fateful regime Drawing on a range of significant scholarly works on the subject Pine informs us as to the major historiographical debates surrounding the subject whilst establishing her own original interpretative arc The book is divided into four parts The first section explores the attempts of the Nazi regime to create a Volksgemeinschaft national community The second part examines men women the family the churches and religion The third section analyses the fate of those groups that were excluded from the Volksgemeinschaft The final section of the book considers the impact of the Nazi government upon German culture in particular focusing on the radio and press cinema and theatre art and architecture music and literature This new edition includes historiographical updates throughout an additional chapter on the early Nazi movement and brand new primary source excerpt boxes and illustrations There is also expanded material on key topics like resistance women and family men and masculinity and religion A crucial text for all students of Nazi Germany this book provides a sophisticated window into the social and cultural aspects of life under Hitler's rule

Transforming Hitler's Germany Tim Heath, Annamarie Vickers, 2022-12-02 As the last flames of the Second World War flickered and died Germany emerged into an apocalyptic wasteland where the Hitler Youth generation would be cursed with the running sore of National Socialism With the uncaged bear of the Soviet Union flexing its muscles and the escalating tensions between East and West providing some distraction from the funeral pyre of the Third Reich those living in West Germany soon understood that they were the geological bulkhead a component in the prevention of communism spreading throughout the infantile peace of post Second World War Europe Despite all the destruction and political tensions which surrounded them the young men and women of Germany were keen to experience the world beyond their own precarious borders In August 1945 Tia Schuster and Lisa Kraus were two fourteen year old Berliners and like many they found themselves shoehorned into what was to be the second new era of their young lives The first had brought about only death and destruction yet this second had a cold unfamiliarity about it As the late 1940s gave way to the 1950s and 60s a series of new decadent eras of rock n roll fashion flower power and sexual revolution was on the horizon which posed a threat to the traditional German way of life championed by the Nazi

regime and post Second World War German government With this heady mixture of newfound freedom the youth of Germany unwittingly became a feature of everything that both fascism and communism despised This unique work tells the story of the tentative steps taken by young men and women into the afterlife of Nazi Germany Encompassing memoirs along the way it presents a quirky portrayal of charm humor mischief and personal accomplishment along with a vitally important slice of West Germany's social history which has remained hidden from the literary world for decades As Tia Schuster remarked The world suddenly became a very big piece of pie we wouldn't be happy with just taking a slice of this pie no we wanted the whole damn thing and we didn't care if it made us sick or not *Bavarian Tourism and the Modern World, 1800-1950* Adam

T. Rosenbaum, 2016-02-15 During the nineteenth and early twentieth centuries the tourism industry of Bavaria consistently promoted an image of grounded modernity This romanticized version of the present reconciled continuity with change tradition with progress and nature with science In an era of rapid and unprecedented change simultaneously nostalgic and progressive grounded modernity produced an illusion of continuity It helped make the experience of modernity more tangible by linking impersonal and abstract ideas like national identity with familiar experiences and concrete sights *Bavarian Tourism and the Modern World 1800-1950* examines the connections between Bavarian tourism and the turbulent experience of German modernity during this period It gauges Germany's long and often unsettling journey to modernity using Bavarian tourism and travel as a lens Closely examining guidebooks brochures postcards and other tourist propaganda Adam Rosenbaum argues that by pointing visitors to the past tourism illuminated the present and produced signposts to the future

The Third Reich's Elite Schools Helen Roche, 2021 *The Third Reich's Elite Schools* tells the story of the Nazis Germany's most prominent training academies for the future elite This deeply researched study gives an in-depth account of everyday life at the schools while also shedding fresh light on the political social and cultural history of the Nazi dictatorship

Alluring Opportunities Todd Cleveland, 2023-06-15 *Alluring Opportunities* examines the lives of African laborers in the tourism industry in the Portuguese colony of Mozambique and the social ascension that many of these workers achieved in spite of demanding conditions From the origin of the colonial period until its end in 1975 the tourism industry developed on the backs of these laborers and ultimately became an important source of foreign exchange for Portugal Todd Cleveland explores the daily experiences of local tourism workers in the genesis and expansion of this vital industry with an analytical utility that transcends Africa's borders by complicating the narrative established and reinforced by an expansive body of literature that stresses the exploitation of indigenous tourism workers He argues that just as foreign tourists embraced the opportunity to travel to various locations in Mozambique so too did many indigenous laborers seize opportunities for employment in the tourism industry in an effort to realize social mobility via both the steady wages that they earned and their daily interactions with sojourning clientele *Alluring Opportunities* reconstructs these workers' lives highlighting their critical contributions to the local industry while also prompting a reconsideration of indigenous labor and social mobility in colonial

Africa As a result Cleveland reveals new ways of thinking more broadly about the ways that tourism shapes processes of empire interracial interactions and power relations

Nazi Germany Pamela E. Swett, S. Jonathan Wiesen, 2024-07-11 Nazi Germany provides a comprehensive survey of the National Socialist dictatorship artfully balancing social and cultural history with a political and military history of the regime The book unravels the complexities of the daily lives of perpetrators victims and bystanders in the Third Reich and it also places events in Germany from 1933 to 1945 in a transnational context Nazi Germany prompts readers to think about not only the historical debates but also the ethical questions that attend the study of this period Pamela E Swett and S Jonathan Wiesen address The movement's ideological origins and the party's rise to power The creation of a police state the use of propaganda and public support for Nazi ideas and programs The Nazis persecution of religious racial and sexual minorities The place of youth family gender and cultural expression in Nazi society The transnational influence of Nazism and preparations for war in Germany The Holocaust resistance to Nazism and the Second World War Swett and Wiesen explore how the violence and racism of the Nazis coexisted alongside Germany's self presentation as a normal state with happy productive citizens Through exposure to the voices of contemporaries readers will be prompted to consider key questions How did German democracy give way to a brutal dictatorship so quickly What was daily life like for average Germans and those labeled as biological and political outsiders Why did the Nazi dictatorship embark on a destructive war that led to the death of tens of millions of Europeans and to the demise of a political order that had become exceedingly popular by 1939

Journeys Through Fascism Charles Burdett, 2007 During the twenty years of Mussolini's rule a huge number of travel texts were written of journeys made during the interwar period to the sacred sites of Fascist Italy Mussolini's newly conquered African empire Spain during the Civil War Nazi Germany Communist Russia and the America of the New Deal Examining these observations by writers and journalists the author throws new light on the evolving ideology of Fascism how it was experienced and propagated by prominent figures of the time how the regime created a utopian vision of the Roman past and the imperial future and how it interpreted the attractions and dangers of other totalitarian cultures The book helps gain a better understanding of the evolving concepts of imperialism which were at the heart of Italian Fascism and thus shows that travel writing can offer an important contribution to historical analysis

Eva Braun Heike B. Gortemaker, 2012-12-11 From one of Germany's leading young historians the first comprehensive biography of Eva Braun Hitler's devoted mistress finally wife and the hidden First Lady of the Third Reich In this groundbreaking biography of Eva Braun German historian Heike G rtemaker reveals Hitler's mistress as more than just a vapid blonde whose concerns never extended beyond her vanity table Twenty three years his junior Braun first met Hitler when she took a position as an assistant to his personal photographer Capricious but uncompromising and fiercely loyal she married Hitler two days before committing suicide with him in Berlin in 1945 her identity was kept secret by the Third Reich until the final days of the war Through exhaustive research newly discovered documentation and anecdotal accounts G

rtemaker turns preconceptions about Eva Braun and Hitler on their head and builds a portrait of the little known Hitler far from the public eye

Touring Beyond the Nation: A Transnational Approach to European Tourism History Eric G.E. Zuelow, 2016-12-05 When tourists travel they often seek the exotic The farther they venture the more unique the cultures they gaze upon the greater the prestige accrued cross cultural contact is commonplace Yet despite the obviously transnational character of the tourist experience national borders define existing studies of tourism Spanish French or German tourism is treated almost in isolation and there are only hints of a larger transnational impetus behind the creation of national tourism products This volume tells a different story Although modern tourism first evolved in Europe changes were never confined to national borders The Grand Tour the birthplace of modern tourism was consummately transnational in both its execution and its influence Although seaside resorts originated in Britain the aesthetic and scientific ideas that made beaches desirable emerged through conversation among Dutch painters English travellers and both British and Continental scientists and philosophers When travel was finally available to the masses Irish tourism advocates looked to England Continental Europe and America for ideas The Nazi leisure organization Strength through Joy KdF was based on an earlier Italian model the Dopolavoro World s Fair promoters raided previous fairs in other countries for ideas European wide demand and taste helped shape nudist practice in France and beyond At every turn practices and products developed because tourism lent itself to trans national discourse The contributors examine a wide range of topics that together make a powerful argument for the adoption of a new transnational model for understanding modern tourism An essential addition to the library of academics studying the history of tourism popular culture and leisure in Europe the book will also provide interest to scholars of transnational topics including Europeanization and globalization

Imperial Japan at Its Zenith Kenneth J. Ruoff, 2014-09-18 In 1940 Japan was into its third year of war with China and relations with the United States were deteriorating but it was a heady time for the Japanese nonetheless That year the Japanese commemorated the 2 600th anniversary of the founding of the Empire of Japan According to the imperial myth history Emperor Jimmu descended from the Sun Goddess Amaterasu established the unbroken imperial line in 660 BCE In carefully choreographed ceremonies throughout the empire through new public monuments with visual culture and through heritage tourism the Japanese celebrated the extension of imperial rule under the 124th emperor Hirohito These celebrations the climactic moment for the ideology that was central to modern Japan s identity until the imperial cult s legitimacy was bruised by defeat in 1945 are little known outside Japan Imperial Japan at Its Zenith the first book in English about the 2 600th anniversary examines the themes of the celebration and what they tell us about Japan at mid century Kenneth J Ruoff emphasizes that wartime Japan did not reject modernity in favor of nativist traditionalism Instead like Nazi Germany and Fascist Italy it embraced reactionary modernism Ruoff also highlights the role played by the Japanese people in endorsing and promoting imperial ideology and expansion documenting the significant grassroots support for the cult of the emperor and for militarism Ruoff

uses the anniversary celebrations to examine Japan's invention of a national history the complex relationship between the homeland and the colonies the significance of Imperial Japan's challenge to Euro American claims of racial and cultural superiority the role of heritage tourism in inspiring national pride Japan's wartime fascist modernity and with a chapter about overseas Japanese the boundaries of the Japanese nation Packed with intriguing anecdotes incisive analysis and revelatory illustrations Imperial Japan at Its Zenith is a major contribution to our understanding of wartime Japan See America Mordecai Lee, 2020-05-01 Created in 1937 by Interior Secretary Harold Ickes and given formal status by Congress in 1940 the US Travel Bureau played a seminal role by setting the precedent for federal involvement in tourism Business otherwise hostile to FDR's New Deal enthusiastically supported its work and Roosevelt who significantly expanded the National Park system saw increased tourism as a means to increase attendance bolster economic activity and counteract the Great Depression The Bureau developed unusually extensive public relations and marketing programs that attempted to persuade citizens to travel more The Travel Bureau also quietly engaged in vigorous marketing to encourage African Americans to travel including sponsoring the 1940 and 1941 editions of the Green Book the travel guide for African Americans facing segregated restaurants and lodging Eventually travel promotion was transferred to the Commerce Department by Congress and President Nixon with a federal surtax to fund it and where it continues today The Oxford Handbook of Tourism History Eric G. E. Zuelow, Kevin J. James, 2025-02-24 The Oxford Handbook of Tourism History offers a critical survey of the development of the field that unites historical scholarship along thematic lines and uses examples from diverse places to examine a wide set of tourism policies practices and niches in a global transnational context **Border Regimes in Twentieth Century Europe** Péter Bencsik, 2022-08-19 This book offers a comprehensive and comparative analysis of the history of passports border surveillance border crossing and other elements of European border regimes in the 20th century Border regime is interpreted widely including inbound and outbound travels permanent and temporary movements distance and local border traffic borderland fortifications penalties for borderland offences and also restrictions of free movement even inside a given country Based on archival sources from Hungary and the Czech Republic extensive literature and more than two decades of research the author distinguishes between two basic border regimes the restrictive eastern and the permissive western systems and a transitional zone between them The historical development of these regimes is discussed in the framework of waves of globalisation and territorialisation Border Regimes in Twentieth Century Europe offers the first ever systematic comparison of European border regimes for students scholars and any readers who are interested in travel history border studies globalisation area studies and 20th century Europe including everyday history By presenting their different historical experiences the book contributes to a better understanding between old and new member states of the European Union as well as between member and non member states **The Devil's Wheels** Sasha Disko, 2016-08-01 During the high days of modernization fever among the many disorienting changes Germans experienced

in the Weimar Republic was an unprecedented mingling of consumption and identity increasingly what one bought signaled who one was Exemplary of this volatile dynamic was the era's burgeoning motorcycle culture With automobiles largely a luxury of the upper classes motorcycles complexly symbolized masculinity and freedom embodying a widespread desire to embrace progress as well as profound anxieties over the course of social transformation Through its richly textured account of the motorcycle as both icon and commodity *The Devil's Wheels* teases out the intricacies of gender and class in the Weimar years

Architecture and the Nazi Cultural Landscape David H. Haney, 2022-09-13 This book traces cultural landscape as the manifestation of the state and national community under the Nazi regime and how the Nazi era produced what could be referred to as a totalitarian cultural landscape For the Nazi regime cultural landscape was indeed a heritage resource but it was much more than that cultural landscape was the nation The project of Nazi racial purification and cultural renewal demanded the physical reshaping and reconceptualization of the existing environment to create the so called new Nazi cultural landscape One of the most important components of this was a set of monumental sites thought to embody blood and soil beliefs through the harmonious synthesis of architecture and landscape This special group of landscape bound architectural complexes was interconnected by the new autobahn highway system itself thought to be a monumental work embedded in nature Behind this intentionally aestheticized view of the nation as cultural landscape lay the all pervasive system of deception and violence that characterized the emerging totalitarian state This is the first historical study to consider the importance of these monumental sites together with the autobahn as evidence of key Nazi cultural and geographic strategies during the pre war years This book concludes by examining racial and nationalistic themes underlying cultural landscape concepts today against this historic background
