Seeing the Solar System Fred Schaaf,1991-08-29 The author provides the reader with a vast amount of projects regarding the sun moon planets and other bodies in our solar system which can be observed with the aid of only a basic telescope Also describes various inexpensive filters helpful for planetary observation Along with illustrations and hundreds of individual inquiries for the amateur astronomer to pursue the author offers a section advising the reader on the proper use and care of a telescope and advantages and drawbacks regarding various types of telescopes available on today s market

Space-based Astronomy ,1994 **Compendium of Practical Astronomy** Günter D. Roth,2012-12-06 It is a pleasure to present this work which has been well received in German speaking countries through four editions to the English speaking reader We feel that this is a unique publication in that it contains valuable material that cannot easily if at all be found elsewhere We are grateful to the authors for reading through the English version of the text and for responding promptly for the most part to our queries Several authors have supplied us on their own initiative or at our suggestion with revised and updated manuscripts and with supplementary English references We have striven to achieve a translation of Handbuch für Sternfreunde which accurately presents the qualitative and quantitative scientific principles contained within each chapter while maintaining the flavor of the original German text Where appropriate we have inserted footnotes to clarify material which may have a different meaning and or application in English speaking countries from that in Germany When the first English edition of this work Astronomy A Handbook translated by the late A Beer appeared in 1975 it contained 21 chapters This new edition is over twice the length and contains 28 authored chapters in three volumes At Springer s request we have devised a new title Compendium of Practical Astronomy to more accurately reflect the broad spectrum of topics and the vast body of information contained within these pages Literature 1991, Part 2 Astronomisches Rechen-Institut,2013-06-29 Astronomy and Astrophysics Abstracts appearing twice a year has become one of the fundamental publications in the fields of astronomy astrophysics and neighbouring sciences It is the most important English language abstracting journal in the mentioned branches The abstracts are classified under more than a hundred subject categories thus permitting a quick survey of the whole extended material The AAA is a valuable and important publication for all students and scientists working in the fields of astronomy and related sciences As such it represents a necessary ingredient of any astronomical library all over the world **The Handbook of the British Astronomical Association** British Astronomical Association,1989 *Space Science Projects* ,1993 **Grading NASA's Solar System Exploration Program** National Research Council,Division on Engineering and Physical Sciences,Space Studies Board,Committee on Assessing the Solar System Exploration Program,2008-04-25 The NASA Authorization Act of 2005 directed the agency to ask the NRC to assess the performance of each division in the NASA Science directorate at five year intervals In this connection NASA requested the NRC to review the progress the Planetary Exploration Division has made in implementing recommendations from

previous relevant NRC studies This book provides an assessment of NASA's progress in fulfilling those recommendations including an evaluation how well it is doing and of current trends The book covers key science questions flight missions Mars exploration research and analysis and enabling technologies Recommendations are provided for those areas in particular need of improvement

Seeing Stars C. R. Kitchin,Robert W. Forrest,2012-12-06 Seeing Stars is written for astronomers regardless of the depth of their theoretical knowledge who are taking their first steps in observational astronomy Chris Kitchin and Bob Forrest both professional astronomers take a conducted tour of the night sky and suggest suitable observing programmes for everyone from beginners to experts How is this book different We are all familiar with the beautiful images of planets and galaxies obtained by spacecraft and giant telescopes but what can you really see with a small telescope What should you expect from a small refractor or reflector And what is the effect of observing from a site near a city The answers are all here with many photographs that will illustrate exactly what can be seen with different instruments everything from the naked eye to a 300mm telescope and from different locations

Beyond the Solar System Mary Kay Carson,2013-06-01 Tracing the evolution of humankind's pursuit of astronomical knowledge this resource looks deep into the furthest reaches of space Children will follow along as the realization that the Earth is not at the center of the universe leads all the way up to recent telescopic proof of planets orbiting stars outside the solar system In addition to its engaging history this book contains 21 hands on projects to further explore the subjects discussed Readers will build a three dimensional representation of the constellation Orion see how the universe expands using an inflating balloon and construct a reflecting telescope out of a makeup mirror and a magnifying glass It also includes small biographies of famous astronomers a time line of major scientific discoveries a glossary of technical terms and dozens of full color images taken by the Hubble Space Telescope and the Chandra X Ray Observatory

50th Anniversary Proceedings: NASA's First 50 Years: Historical Perspectives Steven J. Dick,National Aeronautics and Space Administration,2010-07-07 On 29 July 1958 President Dwight D Eisenhower signed the National Aeronautics and Space Act creating the National Aeronautics and Space Administration NASA which became operational on 1 October of that year Over the next 50 years NASA achieved a set of spectacular feats ranging from advancing the well established field of aeronautics to pioneering the new fields of Earth and space science and human spaceflight In the midst of the geopolitical context of the Cold War 12 Americans walked on the Moon arriving in peace for all mankind Humans saw their home planet from a new perspective with unforgettable Apollo images of Earthrise and the Blue Marble as well as the pale blue dot from the edge of the solar system A flotilla of spacecraft has studied Earth while other spacecraft have probed the depths of the solar system and the universe beyond In the 1980s the evolution of aeronautics gave us the first winged human spacecraft

the Space Shuttle and the International Space Station stands as a symbol of human cooperation in space as well as a possible way station to the stars With the Apollo fire and two Space Shuttle accidents NASA has also seen the depths of tragedy In this volume a wide array of scholars turn a critical eye toward NASA s first 50 years probing an institution widely seen as the premier agency for exploration in the world carrying on a long tradition of exploration by the United States and the human species in general Fifty years after its founding NASA finds itself at a crossroads that historical perspectives can only help to illuminate
