Seeing And Believing:

Seeing Is Believing Gregory A. Boyd, 2004-04-01 One of the most common problems with Christians in our modern secularized world is that they don't feel the reality of Jesus. Sure they believe in him and love him but he somehow doesn't seem to enter their daily lives in a real sense. Some might say You ought to pray more. Others would advise You ought to witness more. While this may be true we don't get closer to God just because we ought to. Boyd believes that the way to true spiritual transformation and feeling the presence of God in your life comes from a little R and R rest and reality. Boyd encourages readers to stop striving and learn to rest in an experience of Jesus as real. The best way to do this he says is through imaginative prayer. Experiencing Jesus will teach readers how to use God's gracious gift of creative imagination to know him better and feel his presence in their daily lives.

Seeing and Believing Ellen T. Armour, 2023-07-04 Social media platforms are often denounced as bubbles or echo chambers. In this view what we see tends to reinforce what we already believe and what we already believe shapes what we see. Yet social movements such as Black Lives Matter rely heavily on the widespread dissemination of digital photographs and videos through social media. In at least some cases visual images can challenge normative and normalized ways of grasping the world and prompt their viewers to see differently and even bring people together. Seeing and Believing marshals religious resources to recast the significance of digital images in the struggle for social justice. Ellen T. Armour examines what distinguishes digital photography from its analogue predecessor and places the circulation of digital images in the broader context of virtual visual cultures. She explores the challenges and opportunities that visually saturated social media landscapes present for users and organizers. Despite the power of digital platforms and algorithms possibilities for disruption and resistance emerge from how people engage with these systems. Armour offers ways of seeing drawn from Christianity and found in other religious traditions to help us break with entrenched habits and rethink how we engage with the images that grab our attention. Developing theological perspectives on the power and peril of photography and technology. Seeing and Believing provides suggestions for navigating the new media landscape that can spark what Armour calls photographic insurrection.

Seeing Is Believing Richard Vance Goodwin, 2022-07-19 In this study in IVP Academic's STA series theologian Richard Goodwin considers how the images that constitute film might be a conduit of God's revelation. By considering works by Stanley Kubrick, Martin Scorsese, Terrence Malick and more Goodwin argues that by inviting emotional responses film images can be a medium of divine revelation.

Anatomy of Spirituality: Portrait of the Soul Chander Behl, 2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain's biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul

Signs in the Wilderness Daniel H. Fletcher, 2014-09-22 Signs in the Wilderness portrays Nicodemus as a traveler on a faith journey through the wilderness who is tested by Jesus's signs Signs test Nicodemus's faith in the same way they tested that of the wilderness generations of ancient Israel in the book of Numbers The first generation saw the miraculous signs of God yet refused to believe and so forfeited its right to enter the promised land The second generation in contrast saw the signs believed and boldly entered the promised land So it was in John's Gospel as well in which many people see Jesus' miraculous signs but refuse to believe thus forfeiting eternal life Others believe and inherit eternal life Nicodemus is a test case in that his own wilderness experience is one of divine testing in the face of Jesus' signs Will he have a heart of flesh believe and enter eternal life or a hard heart of stone refuse to believe and die in the wilderness Similarly Jesus' signs test the readers of John's Gospel resulting in either belief or unbelief
